I'm writing to express my strong opposition to FPL's plan to end their moratorium on utility shutoffs. There are hundreds of thousands of FPL customers behind on their utility payments, many due to job loss, illness, and/or a death in the family due to COVID-19. Our economy is on precarious footing, jobs are not plentiful, many parents must stay home with their children who are attending virtual classrooms and the number of positive cases continues to rise along with the resulting deaths, over 14,000 so far. We are in an unprecedented situation and I strongly believe that compassion for those suffering the worst effects should be the way forward.
