Subject: DOCKET#20200219-EI

Good afternoon,

I am writing to express my concern about electric power disconnections during such a crucial moment of history. It is unjust to punish Florida residents that have fallen behind on utility payments due to the economic impact of the pandemic. Having power is essential and a basic human right. We have all had to adapt to the unforeseen circumstances of the pandemic and the utility companies should be adjusting as well.

I strongly urge to forgive those people who will be deeply affected by power disconnections.

Thank you for your time.
