Subject: Residents of South Florida Can't Survive Without Power!

Dear The Public Service Commissioners,

I am writing you this letter in concern for the economy, my family, and my home. I have a concern that I need you to hear from an average person trying to make it through these hard times.

The COVID-19 pandemic has impacted our lives in several ways. Many Floridians have been forced to make tough decisions including whether to pay for utilities, rent, or food. Now, Florida Power & Light (FPL) has decided to put the needs of our community on the back burner and move forward with the disconnection of power services. This is inhumane and unfair!

We're urging you to do something about it, and demand Florida Power and Light (FP&L) to halt any disconnection of power services scheduled to take place. As the pandemic continues to impact communities in Florida, the decision to move forward with disconnections will add more distress to Miami's working-class communities that are already susceptible to the health and economic impacts of COVID-19.

We're asking that you urge FP&L to stop disconnections, provide legitimate relief to South Florida residents including bill forgiveness and formally suspend shut-offs through the end of 2021. We need power, and our families and communities can't thrive without it.

Sincerely,
Vanessa Salcedo

Dear The Public Service Commissioners,

We can't pretend that COVID-19 isn't real or that the impacts are minimal. People are suffering, and their leaders have left them in the dark.

I am writing you this letter in concern for the economy, my family, and my home. I have a concern that I need you to hear from an average person trying to make it through these hard times.

The COVID-19 pandemic has impacted our lives in several ways. Many Floridians have been forced to make tough decisions including whether to pay for utilities, rent, or food. Dear The Public Service Commissioners,

I am writing this letter in behalf of my community. Though I have been lucky to keep my family economically stable, many have not. The inability to pay FPL should not leave family without power specially now when kids are taking classes ONLINE. How will kids from low income families receive classes? We are going through a global pandemic and we expect our leaders to understand that. Put yourselves in the position of others. Imagine your kids not being able receive online classes. FPL will be fine because they do not need money. However, many members of our community will not be fine.

We're urging you to do something about it, and demand Florida Power and Light (FP&L) to halt any disconnection of power services scheduled to take place. As the pandemic continues to impact communities in Florida, the decision to move forward with disconnections will add more distress to Miami's working-class communities that are already susceptible to the health and economic impacts of COVID-19.

We're asking that you urge FP&L to stop disconnections, provide legitimate relief to South Florida residents including bill forgiveness and formally suspend shut-offs through the end of 2021. We need power, and our families and communities can't thrive without it.

Sincerely,

Kevin Sanchez
