Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

Solar power is here to stay. Citizens want to be a part of the move for cleaner energy. Net metering is a major part of why people go solar. The suggestion of reducing net metering as proposed by FPL would have a direct negative effect in lowering or erasing the incentive to install solar and would minimize the rewards for doing so. Please resist the effort to reduce or eliminate net metering!

Not only does solar create jobs and save us money, but when paired with batteries, solar panels can contribute to the resilience of the electric grid and provide back-up power in emergencies. As we face another intense hurricane season, Floridians need more tools – not fewer – in order to weather all the storms that are coming our way.

Thank you for defending solar workers, business owners, and residents by protecting our bedrock solar policies here in Florida.

Elizabeth Feit

Sincerely,

Elizabeth Feit  
Naples, FL 34108
