The document presented has been reviewed by the Office of Commission Clerk and has not been accepted as an e-filing as it does not appear to relate to Commission business.

The Florida Public Service Commission is committed to making sure that Florida's consumers receive some of their most essential services — electric, natural gas, telephone, water, and wastewater — in a safe, reasonable, and reliable manner. In doing so, the PSC exercises regulatory authority over utilities in one or more of three key areas: rate base/economic regulation; competitive market oversight; and monitoring of safety, reliability, and service.

For more information on the services the Public Service Commission does and does not regulate, go to our brochure entitled [When to Call the PSC](#).
