Tallahassee, FL 32399-0850

Re: City of Clewiston, Florida – Revised Tariff Sheets

Dear Mr. Teitzman:

This letter is submitted on behalf of the City of Clewiston, Florida pursuant to Rules 25-9.05 through 25-9.071 of the *Florida Administrative Code*.

Electronically filed are the city's following tariff sheets in legislative and final filing formats:

- a) Fifth Revised Sheet No. 8.0 – *Residential Service Rate Schedule*;
- b) Fourth Revised Sheet No. 9.0 – *Municipal Service Rate Schedule*;
- c) Fifth Revised Sheet No. 10.0 – *General Service Non-Demand Rate Schedule GS-S*;
- d) Fifth Revised Sheet No. 11.0 – *General Service Non-Demand Rate Schedule GSD-S*;
- e) Fourth Revised Sheet No. 15.0 – *Purchase Power / Fuel Adjustment Factor and Rate Stabilization Fund*.

I would note the tariff sheets reflect a rate decrease which isn't addressed in the accompanying resolutions. After investigation, we determined that there have been intervening rate changes, not filed with the PSC, which the city is correcting with this filing. The city apologizes for this oversight.

Executed copies of Clewiston's Resolutions Nos. 2020-48 and 2020-56 approving the current tariff revisions are included with this filing.

Please contact our office if there are any questions.

Very truly yours,

/s/

Jody Lamar Finklea
General Counsel and Chief Legal Officer

RESIDENTIAL SERVICE
Rate Schedule R-S

Rate Schedule:

Available throughout the area serviced by ~~the Utility~~Clewiston Utilities.

Applicability:

Applicable for service to a single-family dwelling unit occupied by one family or household.

Service:

Single-phase, 60 hertz, at available standard voltage. Three-phase service may be furnished but only under special arrangements.

Terms of Service:

Open order.

Rate:

Customer Charge	\$ 6.50 <u>6.81</u> per month
First 200 kWh	\$ 0.0867 <u>0.0692</u> per kWh
All Above 2000 kWh	\$ 0.0872 <u>0.0697</u> per kWh

Customers ~~U~~using ~~L~~less than 400 kWh will receive a \$~~0.0100~~0.0105 per-kWh credit.

Minimum Charge:

The minimum monthly bill shall be the Customer Charge, plus other applicable charges, covered by ordinance, ~~S~~state ~~S~~statutes, or ~~F~~federal ~~L~~law.

Billing Adjustments:

See "Power Cost Adjustment Clause," Sheet No. 15.0, and "Tax Adjustment Clause," Sheet No. 16.0

Terms of Payment:

Bills are due and payable when rendered and become delinquent if not paid within thirty (30) days.

~~Note: Increase in existing energy charges of \$0.0307 per kWh is offset by adjustments in the PCA treatment.~~

MUNICIPAL SERVICE
Rate Schedule M-S

Rate Schedule:

Available throughout the area serviced by ~~the utility~~Clewiston Utilities.

Applicability:

Applicable to all municipal, non-residential services other than lighting throughout the area serviced by the utility.

Service:

Single-phase, or three-phase, 60 hertz, at available standard voltage.

All service required on the premises by customer shall be supplied through one meter. Standby resale service not permitted hereunder.

Terms of Service:

Open order.

Rates:

All Municipal Service ~~C~~customers with an electrical demand requirement of 10 kW or more:

Customer Charge	\$ 35.00 36.68 per month
All kW	\$ 3.60 3.773 per kW
All kWh	\$ 0.051 0.0639 per kWh

All other Municipal Service Customers: Where such electric current is used for non-residential customers with an electrical demand requirement of less than 10 kWh per month:

Customer Charge	\$ 7.30 7.65 per month
All kWh	\$ 0.070 0.0838 per kWh

Billing Demand:

The maximum 15-minute integrated demand established or 70% of the highest demand reading for the prior 11 months.

(Continued on Sheet No. 9.1)

MUNICIPAL SERVICE
Rate Schedule M-S

Rate Schedule:

Available throughout the area serviced by Clewiston Utilities.

Applicability:

Applicable to all municipal, non-residential services other than lighting throughout the area serviced by the utility.

Service:

Single-phase, or three-phase, 60 hertz, at available standard voltage.

All service required on the premises by customer shall be supplied through one meter.
Standby resale service not permitted hereunder.

Terms of Service:

Open order.

Rates:

All Municipal Service customers with an electrical demand requirement of 10 kW or more:

Customer Charge	\$ 36.68 per month
All kW	\$ 3.773 per kW
All kWh	\$ 0.0639 per kWh

Where such electric current is used for non-residential customers with an electrical demand requirement of less than 10 kWh per month:

Customer Charge	\$ 7.65 per month
All kWh	\$ 0.0838 per kWh

**PURCHASE POWER / FUEL ADJUSTMENT FACTOR and
RATE STABILIZATION FUND**

APPLICABILITY To be added or subtracted monthly from the rate per kWh of each filed rate schedule.

RATE STABILIZATION FUND ADJUSTMENT (RSFA)

The City is authorized to establish a Rate Stabilization Fund. All extraordinary power cost adjustments, other than routine wholesale true-ups, will be deposited into or withdrawn from a Rate Stabilization Fund, to be used at the City's discretion, to offset sudden and temporary changes in the cost of power, or for other lawful purposes.

The fund will be managed to fully fund to a level that is 20 percent (20%) of the projected annual power costs. The monthly charges may be modified to reflect the BPCA and RSFA as follows:

DEFINITIONS

• BULK POWER COSTS (BPC)

Those costs related to the purchase of wholesale power.

• BULK POWER COSTS BASE (BPCB)

The power-related cost that is embedded within the base rate, stated in cost per kilowatt-hour.

• BULK POWER COST ADJUSTMENT (BPCA)

The difference between the adjusted bulk power unit cost and the bulk power cost base, stated in cost kilowatt-hour, as determined by the calculation.

• BULK POWER COST TRUE-UP (BPCT)

The difference between the bulk power costs actually incurred and the bulk power cost recovered through the bulk power cost base and the bulk power cost adjustment.

CALCULATION

The energy charge for all energy delivered to customers of the City of Clewiston electric system includes a Bulk Power Cost Base of \$66.20.

$$\frac{\text{BPC} + \text{BPCT} + \text{RSFA}}{(\text{kWh Purchased and Delivered}^*) \times (1 - \text{p.u. Line Loss})} - \text{BPCB} = \text{BPCA}$$

*Delivered from source

DEFINITIONS

~~BULK POWER COSTS (BPC)~~

~~Those costs related to the purchase of wholesale power.~~

~~BULK POWER COSTS BASE (BPCB)~~

RESOLUTION NO. 2020-48

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF CLEWISTON, FLORIDA, REVISING THE MONTHLY ELECTRICAL RATES AS CONTAINED IN APPENDIX A, SECTION 18 OF THE CODE OF ORDINANCES OF THE CITY OF CLEWISTON, PURSUANT TO SECTION 74-113 OF THE CLEWISTON CODE OF ORDINANCES, TO REFLECT ADJUSTMENTS TO THE RATES, AND PROVIDING FOR EFFECTIVE DATE.

WHEREAS, a financial planning model to support the Fiscal Year 2021 budgeting process was developed by Florida Municipal Power Agency (FMPA) and presented to the commission at its regular meeting on April 12, 2020; and

WHEREAS, the financial analysis estimates that Fiscal Year 2021 revenues at current rates will fall short of budgeted Electric Department costs by approximately five percent.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF CLEWISTON, FLORIDA, that:

SECTION 1. The City Commission hereby authorizes rate adjustments to the electrical rates to help meet the estimated revenue shortfall.

SECTION 2. Pursuant to Section 74-113, "Monthly electrical rates", the monthly electrical rates as reflected in Appendix A, Section 18 of the Clewiston Code of Ordinances, is amended to read as follows:

Sec. 18 Monthly electrical rates.

The following uniform monthly electricity rate shall be charged by the city for electric current furnished to consumers of electricity (language from section 74-113 of the Code of Ordinances):

(1) Where such electric current is used for a single-family dwelling unit occupied by one family or household:

- a. Customer charge, per month \$ ~~6.50~~ 6.81
- b. First 2,000 kWh, per kWh ~~0.0660~~ \$0.0692

- c. All above 2,000 kWh, per kWh ~~0.0665~~ \$0.0697
- d. Customer using less than 400 kWh will receive a credit (per kWh) ~~..0.0100..~~ \$.0105

The minimum monthly bill shall be the customer charge, plus other applicable charges, covered by ordinance, state statutes or federal law.

(2) Where such electric current is used for nonresidential customers with an electrical demand requirement of less than ten kWh per month:

- a. Customer charge, per month \$ ~~7.30~~ 7.65
- b. All kWh, per kWh ~~0.0800~~ \$0.0838

The minimum monthly bill shall be the customer charge, plus other applicable charges, covered by ordinance, state statutes or federal law.

(3) Where such electric current is used for nonresidential customers with an electrical demand requirement of ten kWh or more:

- a. Customer charge, per month \$ ~~35.00~~ 36.68
- b. ~~First 2,000 kWh, per kWh~~ Demand charge, per kW per month
~~3.60~~ \$3.773
- c. ~~All above 2,000 kWh~~ Energy charge, per kWh ~~0.05100610~~
\$0.0639
- d. Billing demand. The maximum 15-minute integrated demand established, or 70 percent of the highest demand for the prior 11 months.

The minimum monthly bill shall be the customer charge, plus billing demand, and other applicable charges covered by ordinance, state statutes or federal law.

~~(4) The rate charged by the city for electric energy furnished to consumers of electricity shall be decreased or increased \$0.0001 per kilowatt hour for each \$0.0001, or a major fraction thereof, decrease below or increase above \$0.0375 per kilowatt hour as determined by the average cost to the city each month including a power cost true up (plus \$0.002 per kilowatt hour). The power cost true up shall be the difference between the power cost actually incurred in second month preceding and the power cost recovered through application of the power cost base and the power cost adjustment.~~

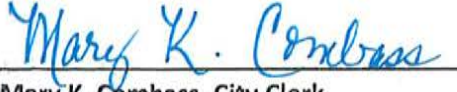

~~(5) The uniform monthly electricity rate charged by the city for electric current furnished to consumers in subsections (1) through (3) of this section, inclusive, shall be decreased or increased the applicable proportionate part of any taxes and assessments imposed by any governmental authority below, or in excess of, those in effect on May 1, 1981; which are assessed on the basis of meters or customers or the price of, or revenues from, electric energy or services sold, or the volume of energy purchased for sale or sold.~~

SECTION 3. The rates provided for herein shall be effective October 1, 2020.

PASSED and ADOPTED by the City Commission of the City of Clewiston this 17th day of August, 2020.

RESOLUTION NO. 2020-56

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF CLEWISTON, FLORIDA, REVISING THE MONTHLY ELECTRICAL RATES AS CONTAINED IN APPENDIX A, SECTION 18 OF THE CODE OF ORDINANCES OF THE CITY OF CLEWISTON, PURSUANT TO SECTION 74-113 OF THE CLEWISTON CODE OF ORDINANCES, TO REFLECT BULK POWER COST ADJUSTMENTS AND A RATE STABILIZATION FUND ADJUSTMENT, AND PROVIDING FOR EFFECTIVE DATE.

WHEREAS, a financial planning model to support the Fiscal Year 2021 budgeting process was developed by Florida Municipal Power Agency (FMPA) and presented to the commission at its regular meeting on April 12, 2020; and

WHEREAS, it is now necessary to provide for the establishment of a Rate Stabilization Fund, provide for a Rate Stabilization Fund Adjustment, and a Bulk Power Cost Adjustment.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF CLEWISTON, FLORIDA, that:

SECTION 1. The City Commission hereby authorizes rate adjustments to the electrical rates to help meet the estimated revenue shortfall.

SECTION 2. Pursuant to Section 74-113, "Monthly electrical rates", the monthly electrical rates as reflected in Appendix A, Section 18 of the Clewiston Code of Ordinances, is amended to read as follows:

Sec. 18 Monthly electrical rates.

Sheet 8.0

The following uniform monthly electricity rate shall be charged by the city for electric current furnished to consumers of electricity (language from section 74-113 of the Code of Ordinances):

- (1) Where such electric current is used for a single-family dwelling unit occupied by one family or household:
 - a. Customer charge, per month \$ 6.81
 - b. First 2,000 kWh, per kWh \$0.0692
 - c. All above 2,000 kWh, per kWh \$0.0697

d. Customer using less than 400 kWh will receive a credit (per kWh) \$0.0105

The minimum monthly bill shall be the customer charge, plus other applicable charges, covered by ordinance, state statutes or federal law.

(2) Where such electric current is used for nonresidential customers with an electrical demand requirement of less than ten kWh per month:

- a. Customer charge, per month \$ 7.65
- b. All kWh, per kWh \$0.0838

The minimum monthly bill shall be the customer charge, plus other applicable charges, covered by ordinance, state statutes or federal law.

(3) Where such electric current is used for nonresidential customers with an electrical demand requirement of ten kWh or more:

- a. Customer charge, per month \$36.68
- b. Demand charge, per kW per month \$3.773
- c. Energy charge, per kWh \$0.0639
- d. Billing demand. The maximum 15-minute integrated demand established, or 70 percent of the highest demand for the prior 11 months.

The minimum monthly bill shall be the customer charge, plus billing demand, and other applicable charges covered by ordinance, state statutes or federal law.

(4) The City is authorized to establish a Rate Stabilization Fund.

(5) Monthly charges may be modified to reflect the Bulk Power Cost Adjustment (BPCA) and the Rate Stabilization Fund Adjustment (RSFA) as follows:

Definitions:

- Bulk Power Cost (BPC) – Those costs related to the purchase of wholesale power
- Bulk Power Cost Base (BPCB) – The power-related cost is embedded within the base rate, stated in cost per kilowatt-hour
- Bulk Power Cost Adjustment (BPCA) – The difference between the adjusted bulk power unit cost and the bulk power cost base, stated in cost per kilowatt-hour, as determined by the calculations
- Bulk Power Cost True-up (BPCT) – The difference between the bulk power cost actually incurred and the bulk power cost recovered through the bulk power cost base and the bulk power cost adjustment

Rate Stabilization Fund Adjustment (RSFA) – All extraordinary power cost adjustments, other than routine wholesale true-ups, will be deposited into or withdrawn from a Rate Stabilization Fund, to be used at the City’s discretion, to offset sudden and temporary changes in the cost of power, or for other lawful purposes. The fund will be managed to fully fund to a level that is

New Sheet

20% of the projected annual power costs. Inclusion of RSFA in the monthly BPCA calculation is intended to limit fluctuations in the BPCA.

Purchase Power / Fuel Adjustment Factor Calculation: The energy charge for all energy delivered to customers of the City of Clewiston electric system includes a Bulk Power Cost Base of \$66.20.

$$\text{BPCA} = \frac{\text{BPC} \pm \text{BPCT} \pm \text{RSFA}}{(\text{kWh Purchased \& Delivered}) \times (1 - \text{p.u. Line loss})} - \text{BPCB}$$

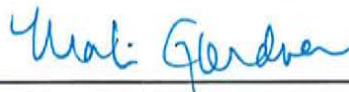

PASSED and ADOPTED by the City Commission of the City of Clewiston this 21st day of September, 2020.
