Good Morning, Selena Ambush

We will be placing your comments below in consumer correspondence in Docket No. 20200176-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz
Commission Deputy Clerk II
Florida Public Service Commission

Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

Clean energy is essential!

However, I do NOT want to pay for large corporations to change-over over their equipment, just as I would not expect them to pay for that transition at my house.

For large corporations, and even other businesses, this is part of the cost of doing business as a responsible business owner.

It is especially important that we don't put this burden on working families, many of whom are already struggling to pay their utility bills.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Selena Ambush
