Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Commissioner Julie Imanuel Brown,

Yes, I agree with the above message. Why should I pay for them? What do I get out of it? A larger bill. This is not fair. Is this what you call Clean Energy Connections? That doesn't sound clean to me. I say NO to Duke CEC!!!

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Pat Loop

Dear Commissioner Julie Imanuel Brown,

Duke Energy has consistently run roughshod over its own customers with outrageous charges combined with third-world level service to those of us who live in rural Florida. Tell Duke Energy "NO" to this greedy scheme, and force them to be held accountable for the absolutely absurd treatment of their Florida customers - from price gouging all customers to failing to provide reliable electricity for the rural citizens of this state.

I?m a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Commissioner Julie Imanuel Brown,

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Diane Lohr

Dear Commissioner Julie Imanuel Brown,

Hey! Just be fair and not screw the little guy to benefit the billion dollar corporations. If I have to buy or lease my solar panels then so should Walmart. I KNOW they can afford it. Do the right thing!

Dear Commissioner Julie Imanuel Brown,

As a Florida homeowner, I have enjoyed the benefits of my own solar energy plant since early in 2014. It has yet to be fully amortized, but the cost of solar installation is substantially less now than it was nearly seven years ago. Large corporations will reap the energy savings soon enough without Duke customers paying subsidies to them.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Dear Commissioner Julie Imanuel Brown,

I have installed my own solar PV system. I have paid for this, I am a retired public school teacher on a small pension. The thought that a mega business can get this system for free is unconscionable! Yes get onboard with renewable energy but not at the expense of our energy cost.

Thank you
Deborah Curry

Dear Commissioner Julie Imanuel Brown,

Florida is filled with seniors living on fixed incomes and workers making less than \$8 an hour. We've had to pay for a useless power plant (Duke's responsibility.) STOP DUKE FROM RIPPING-OFF FLORIDIANS!!

I?m a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves.
