Subject: RE: PSC Docket No. 20200176 - Say No to Duke CEC

Good Morning, Jeanne Graham

We will be placing your comments below in consumer correspondence in Docket No. 20200176-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz
Commission Deputy Clerk II
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399

Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

This proposed legislative action is absolutely unconscionable! This is nothing more than a thinly veiled attempt to have the overburdened average individual consumers absorb and pay for ecological improvements that can and should be borne by the corporations in question. The cost of arresting global warming and the attendant effects of rapid climate change must be shared by all of us, but not so brazenly in favor of Duke Energy and corporate gaslighting sweetheart deals. My entire household strongly objects to the stated language and end goals of this proposal by Duke Energy and affiliates.

Thank you for your time and consideration of us, the citizens.

I?m a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Jeanne Graham
