CUSTOMER COMMENTS
After reading the "need" for the rate increase I have not found valid cause for the increase. At the rates that we are paying, for my water to continue to smell of strong chlorine, have to be filtered for drinking, etc. This is unacceptable. For what we are paying for water (which is considerably - like almost double - more than friends + family NOT on utilities inc) we should have the most pristine, drinkable water in the state + we don't. The water quality is absurd for what we pay.
Also, raising the rates AGAIN - some of us have experienced over 100% increases - Plus during an economic crisis when millions of people are still out of work is criminal.
This is robbery of the public for lining pockets. We say <u>NO!</u>
