CUSTOMER COMMENTS

Proposed increase, based on my family's consumption, will mean an increase of nearly 65% of my bill!! With a fixed income, as we are retired, this is a significant cost increase.

Further, our development is the only community in the surrounding area that does not have access to re-captured water. This would save our community quite a bit on water costs, but your offices have no interest in offering equal services to Spanish River as the surrounding community enjoy.

We are 100% against the proposed increase.
