CUSTOMER COMMENTS

I urge you to not increase our water bill during these turbulent, uncertain times. Most people are having a tough enough time without an increase in their utility bill.

Also, the increase does not seem justified since our water report keeps coming back with high levels of toxic chemicals in the water in our area. It doesn't seem fair to increase the bill while you have not fixed the issue first. The problem should have been solved with the new cleaning equipment, yet it has remained the same. I think before even considering an increase the levels of toxins must be completely eliminated in our water.
