**Subject:** Fwd: Objection to Environmental Utilities waiver to Rule 25-30.033(1)(p) and (q)

Dear PSC,

It is my understanding that when a utility company applies for authorization to provide central sewer they **must** include the estimated connection fees, the anticipated monthly rates and details regarding the type of system to be installed. However also I understand that Environmental Utilities has filed a motion asking for a waiver to the Rule 25-30.033(1)(p) and (q) requiring that this information be submitted at the time of the initial application.

I find this **very disturbing**. Neither the PSC or people effected have asked Environmental Utilities to provide anything **more** than the Rule requires, so I do not feel the PSC should allow Environmental Utilities to provide anything **less** than the Rule requires. Doing so would be a disservice to the people you supposedly represent.
