**Sent:** Thursday, May 27, 2021 8:19 AM  
**To:** Office of Commissioner La Rosa  
**Subject:** We Can't Afford Higher Rates

Dear Commissioner Mike La Rosa,

I am writing as a concerned Florida resident and custom of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for their customers across the state, hurting the most vulnerable in our communities the most. We urge you to rethink this decision and not increase our bills.

This past year has been challenging and unrelenting, and folks have spent it worrying; worrying about the health and safety of their families and friends; worrying about finding work or being safe at work; worrying about the future of the business they built from the ground up; and worrying about making sure that they could keep the lights and heat on at home. For many of us, the pandemic has changed all of our lives in ways we'll still likely be grappling with long after the pandemic comes to an end.

Nevertheless, for some reason, corporate greed seems to be more important than the sustainability of our communities and our livelihood. This was evident when FPL, among several other power companies resumed closing customer accounts due to non-payment during the second wave of the pandemic. Now, they want to increase rates for their most vulnerable customers. We can't allow companies to continue taking advantage of working-class families, and luckily, you have the power NOW to stop this.

Our families need relief, real solutions to the climate crisis and fair and affordable utility rates. By raising prices, FPL is treating energy as a commodity when it's a necessity. We are demanding that Florida Power & Light halt this unfair plan and that Florida's Public Service Commission require FPL to maintain fair rates for their consumers, and prioritize the communities they serve.

Sincerely,  
Mrs. Alaina Slife  
5526 Parkdale Dr Orlando, FL 32839-2935 Alaina@floridarising.org

**Subject:** We Can't Afford Higher Rates

Dear Commissioner Mike La Rosa,

I am writing as a concerned Florida resident and custom of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for their customers across the state, hurting the most vulnerable in our communities the most. We urge you to rethink this decision and not increase our bills.

This past year has been challenging and unrelenting, and folks have spent it worrying; worrying about the health and safety of their families and friends; worrying about finding work or being safe at work; worrying about the future of the business they built from the ground up; and worrying about making sure that they could keep the lights and heat on at home. For many of us, the pandemic has changed all of our lives in ways we'll still likely be grappling with long after the pandemic comes to an end.

Nevertheless, for some reason, corporate greed seems to be more important than the sustainability of our communities and our livelihood. This was evident when FPL, among several other power companies resumed closing customer accounts due to non-payment during the second wave of the pandemic. Now, they want to increase rates for their most vulnerable customers. We can't allow companies to continue taking advantage of working-class families, and luckily, you have the power NOW to stop this.

Our families need relief, real solutions to the climate crisis and fair and affordable utility rates. By raising prices, FPL is treating energy as a commodity when it's a necessity. We are demanding that Florida Power & Light halt this unfair plan and that Florida's Public Service Commission require FPL to maintain fair rates for their consumers, and prioritize the communities they serve.

Sincerely,  
Ms. Joan Burton  
14668 Speranza Way Bonita Springs, FL 34135-8373 joanburton9@gmail.com

**From:** levine1955@everyactioncustom.com on behalf of Alan Levine <levine1955@everyactioncustom.com>  
**Sent:** Wednesday, May 26, 2021 7:55 PM  
**To:** Office of Commissioner La Rosa  
**Subject:** We Can't Afford Higher Rates

Dear Commissioner Mike La Rosa,

I am a customer of Florida Power & Light (FPL) and urge you to oppose its requested rate increase. The request is particularly shameful given the enormous impact of the pandemic on poor and vulnerable communities in Florida. The Florida Public Service Commission is the guardian of the interests of Florida's citizens. Those interests cannot be subordinated to FPL's desire for increased profits.

This inexcusable demand for a rate increase should be flatly rejected.

Sincerely,  
Alan Levine

**Sent:** Wednesday, May 26, 2021 7:42 PM  
**To:** Office of Commissioner La Rosa  
**Subject:** We Can't Afford Higher Rates

Dear Commissioner Mike La Rosa,

I am writing as a concerned Florida resident and custom of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for their customers across the state, hurting the most vulnerable in our communities the most. We urge you to rethink this decision and not increase our bills.

This past year has been challenging and unrelenting, and folks have spent it worrying; worrying about the health and safety of their families and friends; worrying about finding work or being safe at work; worrying about the future of the business they built from the ground up; and worrying about making sure that they could keep the lights and heat on at home. For many of us, the pandemic has changed all of our lives in ways we'll still likely be grappling with long after the pandemic comes to an end.

Nevertheless, for some reason, corporate greed seems to be more important than the sustainability of our communities and our livelihood. This was evident when FPL, among several other power companies resumed closing customer accounts due to non-payment during the second wave of the pandemic. Now, they want to increase rates for their most vulnerable customers. We can't allow companies to continue taking advantage of working-class families, and luckily, you have the power NOW to stop this.

Our families need relief, real solutions to the climate crisis and fair and affordable utility rates. By raising prices, FPL is treating energy as a commodity when it's a necessity. We are demanding that Florida Power & Light halt this unfair plan and that Florida's Public Service Commission require FPL to maintain fair rates for their consumers, and prioritize the communities they serve.

Sincerely,  
Ms. Monique Alfonso

**Subject:** We Can't Afford Higher Rates

Dear Commissioner Mike La Rosa,

I am writing as a concerned Florida resident and custom of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for their customers across the state, hurting the most vulnerable in our communities the most. We urge you to rethink this decision and not increase our bills.

This past year has been challenging and unrelenting, and folks have spent it worrying; worrying about the health and safety of their families and friends; worrying about finding work or being safe at work; worrying about the future of the business they built from the ground up; and worrying about making sure that they could keep the lights and heat on at home. For many of us, the pandemic has changed all of our lives in ways we'll still likely be grappling with long after the pandemic comes to an end.

Nevertheless, for some reason, corporate greed seems to be more important than the sustainability of our communities and our livelihood. This was evident when FPL, among several other power companies resumed closing customer accounts due to non-payment during the second wave of the pandemic. Now, they want to increase rates for their most vulnerable customers. We can't allow companies to continue taking advantage of working-class families, and luckily, you have the power NOW to stop this.

Our families need relief, real solutions to the climate crisis and fair and affordable utility rates. By raising prices, FPL is treating energy as a commodity when it's a necessity. We are demanding that Florida Power & Light halt this unfair plan and that Florida's Public Service Commission require FPL to maintain fair rates for their consumers, and prioritize the communities they serve.

Sincerely,  
Ms. Estelle Adkinson
