Subject: We Can't Afford Higher Rates

Dear Commissioner Art Graham,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for their customers across the state, hurting the most vulnerable in our communities the most. We urge you to rethink this decision and not increase our bills.

This past year has been challenging and unrelenting, and folks have spent it worrying; worrying about the health and safety of their families and friends; worrying about finding work or being safe at work; worrying about the future of the business they built from the ground up; and worrying about making sure that they could keep the lights and heat on at home. For many of us, the pandemic has changed all of our lives in ways we'll still likely be grappling with long after the pandemic comes to an end.

Nevertheless, for some reason, corporate greed seems to be more important than the sustainability of our communities and our livelihood. This was evident when FPL, among several other power companies resumed closing customer accounts due to non-payment during the second wave of the pandemic. Now, they want to increase rates for their most vulnerable customers. We can't allow companies to continue taking advantage of working-class families, and luckily, you have the power NOW to stop this.

Our families need relief, real solutions to the climate crisis and fair and affordable utility rates. By raising prices, FPL is treating energy as a commodity when it's a necessity. We are demanding that Florida Power & Light halt this unfair plan and that Florida's Public Service Commission require FPL to maintain fair rates for their consumers, and prioritize the communities they serve.

Sincerely,
Mrs. Mary Rao

Hello Art,

Just £950 buys you two passes until next week, 1st June 2021 (usual price: £950 per delegate)!

This exclusive two-for-one offer on delegate passes to attend the **Aerospace Testing International Symposium**, which is taking place in London and virtually from 29-30 September 2021 is ending next week, on 1st June 2021. To ensure you take advantage of this limited-time offer, please **book your delegate pass now**.

The symposium is a hybrid event, taking place both in London and online via our virtual conference platform!

Speakers to date include:

- Civil Aviation Authority - Luize-Mihaela Avrigeanu, Senior Engineer - Aircraft Certification
- Safran - Noel Ballot, Executive Vice-President Sales & Marketing
- NSI - Brett Muehlhauser, R&D Technical Fellow
- DLR - German Aerospace Centre - Yves Govers, Team Lead Aeroelastic System Identification
- United States Airforce - Dana Jensen, Senior Industrial Policy Analyst
- Altair - Dr. Royston Jones, CTO
- Vertical Aerospace - Dean Moore, Flight Test Specialist
- Airbus - Vimal Jaiswal, Stress Analyst
- Q5D - Stephen Bennington, CEO
- Swansea University - Speaker TBC
- Buehler - Dr. Evans Mogire, EMEA Technologies and Laboratory Manager
- Coventry University - Rashid Ali, Senior Lecture
- Wenzel - Speaker TBC
- ITPS Canada - Geoff Connolly, Test Pilot Instructor
- Renishaw - Speaker TBC
- Raptor Aerospace - Nabil Iben Sobih, Lead Propulsion Engineer
- And many more!

The conference will be co-located with the **London to Sydney in Five Hours: The Future of Aviation Conference**, which is dedicated to the development and fruition of supersonic and hypersonic commercial flight technologies. Delegates will be able to participate in both conferences at no extra cost.

We look forward to welcoming you to the conference in September.

Kind Regards,
Ahmo Saric

Conference pass bookings made and paid before 1st June 2021 will be 100% refundable in the unlikely occurrence that the UK Government/local authority forbids the opening of public events within 28 days of the conference taking place.

Subject: ♦ Sonoco relies on Portadam for Flood Protection

Art Graham
Chairman
Florida Public Service Commission

Hello Art:
I wanted to share a recent flood protection success story with you. Portadam was able to help one of our major clients mitigate their flood risk and avert a repeat disaster. I hope you find the case study informative.

I would appreciate your feedback on whether you think we could help Florida Public Service Commission reduce your flood risk.

Kind Regards,

Jyothish

Jyothish Daniel
CEO
Portadam, Inc.

About the Client
Sonoco Products Company is one of the largest global diversified packaging companies based in North Carolina, with 100+ facilities in 15 countries. It is the world's largest producer of jarred and tubed products and is well known for its expertise in the industry. In addition, the Company is the world's largest producer of rigid plastic caps and is a provider of flexible and rigid plastic packaging solutions for post-consumer markets and consumer products.

About Us
Portadam has been providing water control solutions including flood protection, water damage restoration, and water control solutions for over 40 years. Our experienced, modular solutions are custom designed and adaptable to provide superior performance.

Objective
In 2013, Sonoco's Charlotte company experienced flooding issues due to the flooding caused by Hurricane Matthew. The flooding resulted in major losses and the need to begin investigating methods to prevent future damage during inclement weather.

The Sonoco team had existing a rigid retention plan to prevent flooding during weather emergencies. Due to the severe weather nature of a natural disaster, they required a solution that could be deployed quickly by their own staff. The need for a reliable solution was critical. The Sonoco team contacted Portadam and they provided a comprehensive assessment and engaged with the Portadam team. They were provided with their prior design and construction, and this collaborative approach in designing custom flood protection solutions.
