Subject: RE: Stop Rubber Stamping FPL Requests!

Good Morning,

We will be placing your comments below in consumer correspondence in Docket No. 20210015-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz

Commission Deputy Clerk II
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399

Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

This is personal message...

I am a single retiree with limited SS income. I don't waste energy and I watch my budget closely. The proposed increases are a burden for me. I also want to pose the following questions:

1) Why is FPL funding Nuclear power in lieu of renewable energy. Florida is supposedly the Sunshine State. It makes no sense to put any more investment into Nuclear energy. So, why are you doing so?

2) Is FPL putting any money into the political coffers of any Politician or PAC? Especially the insurrectionists who currently hold office in this state, or any other for that concern? If so, why? ... Since FPL is asking for additional money, they should be disallowed from putting any money into any PAC or direct to any political candidate, especially those who hail from

the insurrectionist GOP.

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Dan DeHanes
