<p>We are in the process of recovering from the worst Pandemic in 100 years, the last thing we need to hit with, right now is higher power bills! We live on a fixed income of Social Security - our cost of living increase this year was a whopping (combined) \$23.00 per month. We are dealing with higher gas prices and higher grocery prices - where do you expect us to get the money for constant utility increases?!?! Please deny this increase in rates - Thank you.</p>
