Subject: RE: FPL Request for Rate Increase: Docket No. 20210015-EI

Good Afternoon, Mr. Doyle.

We will be placing your comments below in consumer correspondence in Docket No. 20210015, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: FPL Request for Rate Increase: Docket No. 20210015-EI

Dear Commissioner

FP&L, while a great service provider, should not be entitled to rate increases that are beyond the cost of living. FP&L has been playing games with you and the public. They cut corners on repairs and even neglect existing infrastructure upgrade so they can keep their profit margins up. They spend money on only new improvements that get themselves more customers and then claim the economic hardship of putting in new infrastructure. Why not look at the return on their investments over a longer period of time and see that the consumer pays for the improvements over time.

Why is FP&L not using solar to offset their operating expenses. Instead they are asking for the consumer to pay for the solar and for the consumer to pay for their rate increases.

Everyone expects costs to go up but their request is beyond reasonable.

We only ask that you be fair and reasonable.

Thank you,

Steven Doyle
