Subject: TECO 19% RATE INCREASE REQUEST PUBLIC SERVICE COMMISSION HEARING AUGUST 9/10, 2021

This increase is not justified at this time and especially during these trying times when the population is at a disadvantaged state. The thousands out of work, hospitals overwhelmed and overall depressed state of affairs for one and all. Last year 2020 was hell on wheels and these year the worst is yet to come for all, especially for children and those with preexisting conditions. Parents are not ready for this increase in their utilities. The cost of living has not been 19%, yet TECO wants an increase of 19%.

It is evident TECO is trying to secure future funds for the increase in population in Florida, cars going electric, and other resources that require electricity are all at a disadvantage at this time. Just like anyone else that would like a raise and not getting one, how can a utility company such as TECO increase their rates by 19%.

As concerned citizens and as a veteran, my wife and I do not get 19% increase in our retirement. We received 1-3%, maybe. So no, do not allow such a large increase in our electrical utility become a reality. We thank you for reading our concerns and vote no to increase our electrical utility.
