Subject: proposed FPL rate hike

Dear PSC Commissioners:

I am writing (again!) to oppose any proposed rate hike by FPL. FPL does not deserve a rate hike of any magnitude.

Floridians need affordable clean energy and more investments in energy efficiency. Especially with the new IPCC report on the climate, this is important. To date, FPL's efforts in this area have been mere window-dressing. For example, they have no plan to transition to 100% carbon-free energy. We can do better!
