Dear Commissioner

Florida Public Service Commission  
2540 Shumard Oak Blvd.  
Tallahassee, FL 32399  
Docket No. 20210015-EI

FL & FPL have a reputation for having one of the most reliable & affordable power generation & distribution grids in the U.S.

Please continue your efforts to provide the incentives to develop efficient, economical & environmentally-conscious power to FL residents by investing in solar power, rugged

transmission grids & climate change resilient systems. Also, fairly balance the cost of electricity to the large percentage of fixed income, elderly population in FL with reasonable utility company profits. Your equitable oversight will help secure affordable, clean & reliable energy for all Floridians while providing a robust business climate for our electricity companies. Thank you for being our advocate.

Thank you,

Craig Nelson
