Commissioner Gabriella Passidomo,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This is Florida with a huge amount of sunlight and your advertised fields of solar panels, we should be getting a sizable discount, not an increase.

Not to mention your use of children in ads promoting your company is in bad taste. Based on these ads alone, if I had another acceptable power option, I would use it.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to find work.

I urge you to reconsider this rate increase.

It seems this increase is for the already wealthy. They are already doing fine. But it's going to have a huge impact on the people that have the least so I think those folks at the top can manage just fine on what they have without being greedy and hitting on the people on the low end of the income scale. After all the nation has been through they can just wait for their raises and stock options. If anything they could part with some of their massive profits and cut rates for those at or below the poverty line. That would be the right thing to do.

In addition, my bill increased an additional \$12 for August while I was away 2 weeks of it. I LIVE ALONE! I tried contacting you via email, yet never recieved any response. The increase is unfair & unnecessary as many of us see it as such. You cannot justify an increase especialky during tgese times.

I urge you to reconsider this rate increase.
