DOCKET NO. 20220001-EI  
ORDER NO. PSC-2022-0243-CFO-EI  
ISSUED: June 27, 2022

ORDER GRANTING DUKE ENERGY FLORIDA, LLC'S  
FIRST REQUEST FOR EXTENSION OF CONFIDENTIAL  
CLASSIFICATION (DOCUMENT NO. 00223-2020)

On April 18, 2022, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Duke Energy Florida, LLC (DEF) filed its First Request for Extension of Confidential Classification (Request) of portions of late-filed Exhibit Nos. 6 and 7 to the deposition of Messrs. Swartz, Toms, and Salvarezza held on August 30, 2019 (Document No. 00223-2020). This material was previously granted confidentiality by Order No. PSC-2020-0372-CFO-EI issued October 16, 2020.

Request for Confidential Classification

DEF contends that the information contained in late-filed Exhibit Nos. 6 and 7, more specifically described in Exhibit C to its Requests, continues to constitute proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. DEF asserts that this information is intended to be and is treated by DEF as private and has not been publicly disclosed.

The information contained late-filed Exhibit No. 6 consists of a power point presentation entitled "Duke Energy Bartow ST 40" Upgrade Blade Test in Takasago Validation Rigor at MHPS." Late-filed Exhibit No. 7 is a power point presentation dated September 22, 2017, entitled "Bartow RCA Summary." These exhibits contain third-party proprietary technical information regarding diagrams, design, and operation parameters for the Bartow Unit 4 steam turbine and its L0 blades. Disclosure of these materials would reveal proprietary third-party owned information regarding component design and operation parameters which, if disclosed, would damage the third-party's competitiveness and could impair DEF's ability to contract for goods and services on favorable terms in the future as vendors would charge a premium if DEF could not protect their information. For these reasons DEF argues that this information is protected by Sections 366.093(3)(d) and (e), F.S.

Ruling

Section 366.093(1), F.S., provides that records the Florida Public Service Commission (Commission) has found to contain proprietary business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential

business information includes, but is not limited to:

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the information and data provided in this request continues to satisfy the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information related to the operational parameters appear to be “information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms” and “information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus the information identified in Document No. 00223-2020 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless DEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is hereby

ORDERED by Commissioner Mike La Rosa, as Prehearing Officer, that Duke Energy Florida, LLC’s First Request for Extension of Confidential Classification of Document No. 00223-2020, is granted, as set forth herein. It is further

ORDERED that the information in Document No. 00223-2020, for which confidential classification has been granted, shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Mike La Rosa, as Prehearing Officer, this 27th day of June, 2022.
