Subject: FW: Docket # 20200226-SU

Commissioners LaRosa, Clark and Passidomo;
Please see my earlier email in support of Public Sewer for Palm Island (I am a resident on Don Pedro). I am aware of many more residents that are in support of these services. As Public Servants, I know you will make the right decision for this island community, its environment and ecosystem. The State of Florida is having to make tough decisions everywhere concerning their coast and coastal wetlands.
Please call me if you have any questions.
Thanks
Alan Harvill

Subject: Docket # 20200226-SU

Dear Clerk of the Commission:
I have a home on Palm Island (actually Colony Don Pedro 301 S. Gulf Blvd #411) and **I am in full support of Public Sewer**. Please share my support with the Commissioners and let me know if I need to do anything else at this stage.
Sincerely,
Alan Harvill

Subject: Wastewater/Environmental Utilities

Dear Commissioner LaRosa,

I am writing this to let you know that wastewater removal from our island is important to me and should be important to anyone if they are one bit knowledgeable on what leaching septic tanks are doing to our environment. Little Gasparilla island and its' inhabitants are suffering now and things will continue to get worse if this problem is not resolved in an intelligent manner. It is a known fact that septic tanks over the years are leaching human waste and contaminants to the ICW and Gulf surrounding our island. Therefore I am strongly requesting certification to Environmental Utilities. I am in favor of protecting our environment and one MAJOR way to help is to have wastewater removal provided. WE NEED THIS!

Thank you,

Carole Songey Resident
