Subject: Upcoming water hearing

Good afternoon;

I am writing to inquire about the upcoming water companies interest in basically filing for a different status going forward, and adding someone to the company's payroll.

I found she sheet with the proposed rates to be VERY confusing! There are different size fittings, and rates, but one thing sticks out..the rates are DOUBLED! The current system appears to be very old, and the park is down sometimes 5-6 times a month, with no notice. Of course you can't see a breakdown coming, but we are back to the age of the equipment.

What is the positive side of this increase for the park? Upgrades to the equipment? What will the addition of the new person do to help with the many breakdowns?

I certainly can understand an increase in our bill, but asking for it to be DOUBLED is a stretch, especially without explaining what is going to improve.

Hopefully, a better explanation will be sent out, explaining more positives we will see, and not just a bunch of numbers that anyone can see that are doubled!

Thanks for your time, and look forward to hearing from you soon.

David Kornbluth
