Comments:

I read in the Palm Beach Post today that the PSC still has time to decide on FP&L's request for MORE INCREASES in bills to consumers. PLEASE - CONSIDER 'JUST SAYING NO' - I am appalled by the "for profit" utility asking for us to fork over more of our hard earned money so they can continue to make more money for their stockholders. Meanwhile they spend probably millions on commercials on TV! Is the Rebate for putting solar cells on one's house still in effect? I hope so. Since when does a "for profit" business keep getting taxpayer's to fund it's profit margin while performing its normal operations in the business?
