Dear Commissioner

As a single father of 3 children. I ask of you to not approve the FPL increase. We are hurting as it is making difficult choices already and now we must deal with electric bill increase? We need to stop this from happening and putting this burden on so many families. Electricity should not be something to play with. People are being left in the dark as we know it already. Put some sense into this and make a better decision when the time comes. Do it for the people. Let greed stumble alone and may god help us all.

Thank you,

Nate Hernandez
