Subject: RE: Encouraging Stronger Support for Solar Power Policies

Good Morning, Nile Hondapro.

We will be placing your comments below in consumer correspondence in Docket No. 20230000, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover
Commission Deputy Clerk I
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399
Phone: (850) 413-6467

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and the media upon request. Therefore, your email message may be subject to public disclosure.

Florida Public Service Commission Clerk,

Hi yall: Registered Florida NPv voter here, representing 3 voters hereon our little block in Branford, Suwannee County. I am writing to express my unwavering support for the state's commitment to energy freedom. Florida's pro-business regulations have allowed individuals

and businesses to choose their energy sources, empowering property owners to install solar panels and participate in "net metering."

It is essential to maintain and reinforce these rules that promote individual choice and free-market principles. Net metering not only encourages the adoption of solar power but also fosters healthy competition within the energy sector, reducing the influence of monopolistic utility companies.

The recent natural gas surge in 2022, driven by the conflict in Ukraine, highlighted the vulnerability of relying heavily on fossil fuels. Florida's overreliance on natural gas-powered plants, accounting for 75% of our electricity, demands a diversification of energy sources for economic and environmental stability.

I urge you to stand firm in supporting energy freedom, particularly through net metering. Your unwavering commitment to these principles will lead us towards a more sustainable and prosperous future for Florida.

Thank you for your time and dedication to serving our state. 3rd generation Nuclear Plants are the only reasonable answer to energy deficits. Regards, Nile B. McCoy USMC 1967-1972/Beverly Hunt McCoy/Michelle McCoy Taylor.
