CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

We need your help to stop the endless electricity rate hikes in Florida.

Tampa Electric (TECO) has raised residential rates by 62% in the last four years. TECO's petition (Docket #20230122-E1) to file ONLY a 4CP and MDS cost of service study with their anticipated 2024 rate case is just another attempt to raise rates in a way that is extremely favorable to large industrial users and unfavorable to residential customers. Residential customers need protection from these never-ending rate hikes.

Please require TECO to file a more balanced cost of service study (12CP and 1/13th AD) and ensure that Florida families are protected in the process.

Sincerely,

Chandra Mastrosimone
12739 Evington Point Dr
Riverview FL, 33579-4064

Dear Florida Public Service Commissioners,

RE: Docket #20230122-E1

As a citizen of unincorporated Hillsborough County and a TECO residential customer, I am opposed to short cutting the normal rate hearing process. Furthermore, I believe a balanced cost of service study is necessary and the commission should require it.

Please require TECO to file a more balanced cost of service study (12CP and 1/13th AD) and ensure that Florida families are protected in the process.

Sincerely,

Scott Gunsallus
