<u>Issue 4:</u> What are the Used and Useful (U&U) percentages of the Utility's water and wastewater systems and what adjustments to rate base are necessary?

**Recommendation:** Staff recommends that Pluris' water treatment plant (WTP), storage, and distribution systems, as well as its wastewater collection system, be considered 100 percent U&U. The WWTP should be treated as 94.3 percent U&U. Additionally, staff recommends no adjustments to purchased power and chemical expenses be made for excessive unaccounted for water (EUW) and infiltration and inflow (I&I). Additionally, the Utility's wastewater rate base adjustment should be increased by \$97. Corresponding adjustments should be made to decrease Pluris' adjusted net wastewater depreciation expense by \$389, and to decrease wastewater property tax by \$646.

<u>Issue 5:</u> Should any adjustments be made the Utility's pro forma plant additions?

**Recommendation:** Staff recommends that Pluris' proposed asbestos-cement pipe replacement is necessary in order to reduce or eliminate water leaks. However, the Utility has not provided an adequate justification for the approximate 602 percent increase in mobilization costs. As such, staff recommends allowing pro forma in the amount of the original bid of \$2,515,214. Also, based on the reclassification of the pro forma project to different plant accounts, the associated accumulated depreciation should be decreased by \$810 and depreciation expense should be decreased by \$5,859 for water. An additional adjustment should be made to increase corresponding property taxes by \$29,695 \$30,932.

### APPROVED AS MODIFIED

The refunds should be made with interest in accordance with Rule 25-30.360(4), F.A.C. The Utility should be required to submit proper refund reports pursuant to Rule 25-30.360(7), F.A.C. The Utility should treat any unclaimed refunds as CIAC pursuant to Rule 25-30.360(8), F.A.C. Once the appropriate amounts of interim revenues are refunded and the refund amounts are verified by staff, the corporate undertaking should be released.

The decrease in rates should become effective immediately following the expiration of the rate case expense recovery period. Pluris should be required to file revised tariffs and a proposed customer notice setting forth the lower rates and the reason for the reduction no later than one month prior to the actual date of the required rate reduction. If the Utility files this reduction in conjunction with a price index or pass-through rate adjustment, separate data should be filed for the price index and/or pass through increase or decrease and the reduction in the rates due to the amortized rate case expense.

Subject: Request for Oral Modification - Docket No. 20230083-WS

Staff requests approval to make an oral modification to staff's recommendation in Docket No. 20230083-WS - Application for increase in water and wastewater rates in Orange County by Pluris Wedgefield, LLC., currently scheduled as Item 5 on the April 2, 2024 Commission Conference.

Subsequent to filing the recommendation, the Office of Public Counsel made staff aware of errors in the Excel calculation of pro forma property taxes, the capital structure, and the interim refunds. Additionally, an adjustment included in the revenue requirement and addressed in Issue 4 was not included in Schedule No. 1-C. As a result, modifications to staff's recommendation are necessary to Issues 5, 8, 9, 16, 17, and 24, and Schedule Nos. 1-C, 2, 3-A, 3-B, and 3-C.

The requested modifications increase the recommended revenue requirement for Pluris by \$691, or 0.04 percent, for water and \$357, or 0.03 percent, for wastewater. The requested modifications will also increase the recommended interim refund by \$34,526 for water and \$576 for wastewater.

The text below reflects the type and strike changes to the staff recommendation. With these changes, there are no other impacts to staff's recommendation or calculations aside from the fall-out impact to the rates reflected on Schedule Nos. 4-A and 4-B. The resulting increase in revenue requirement does not change the base facility charges for either water or wastewater, but it does slightly increase the gallonage charges by one to two cents. Staff requests administrative approval to update the rates to reflect these as well as any additional changes that may result from the vote at the Commission Conference. The attached files reflect the fall-out modifications to Schedule Nos. 1-C, 2, 3-A, 3-B, and 3-C.

#### Issue 5, Page 16, Paragraph 3

Therefore, pro forma property taxes should be increased by \$29,695. 30,932

#### Issue 5, Page 16, Conclusion

An additional adjustment should be made to increase corresponding property taxes by \$29,695 30,932.

#### Issue 8, Page 20, Recommendation Statement

Based in the Commission leverage formula currently in effect, the appropriate return on equity (ROE) is 8.79 percent with an allowed range of plus or minus 100 basis points.

#### Issue 8, Page 20, Staff Analysis

Based on the Commission leverage formula currently in effect, the appropriate ROE is 8.75 8.79 percent.

#### Issue 9, Page 21, Recommendation Statement

The appropriate weighted average cost of capital for the test year ended December 31, 2022, is 8.24 8.22 percent.

#### Issue 9, Page 22, Conclusion

staff recommends a weighted average cost of capital of 8.24 8.22 percent.

#### Issue 16, Page 37, Recommendation Statement

Yes, Taxes Other Than Income (TOTI) should be decreased by \$\frac{\\$22,503}{\}21,266\$ for the water system

#### Issue 16, Page 37, Staff Analysis

Staff recommends increasing water TOTI by \$29,695 30,932 to reflect the increase in property taxes due to the pro forma adjustment discussed in Issue 5.

Based on the adjustments discussed above, staff recommends a decrease in TOTI of \$\frac{\\$22,503}{\\$21,266}\$ (\$\frac{\\$29,695}{\\$30,932}\$ - \$\\$50,088 - \$\\$2,110) for the water system,

#### Issue 17, Page 38, Recommendation Statement

System	Test Year Revenues	\$ Increase	Revenue Requirement	% Increase
Water	\$1,600,131	\$652,855	\$2,252,986	40.80%

		<del>\$652,164</del>	<del>\$2,252,295</del>	40.76%
	\$1,057,726	\$156,222	\$1,213,948	14.77%
Wastewater	\$1,037,720	<del>\$155,864</del>	\$1,213,590	14.74%

#### Issue 17, Page 38, Paragraph 2

Consistent with staff's recommended adjustments to rate base, cost of capital, and operating income, staff recommends approval of rates designed to generate a revenue requirement of \$2,252,986 2,252,295 for the water system and \$1,213,948 1,213,590 for the wastewater system. This results in an increase of 40.80 40.76 percent for the water system and 14.77 14.74 percent for the wastewater system. Staff's recommended revenue requirement will allow the Utility the opportunity to recover its expenses and earn an 8.24 8.22 percent return on its investment in rate base.

#### Issue 24, Page 52, Recommendation Statement

Based on these calculations, staff recommends interim refunds of  $\frac{5.00}{2.31}$  percent and  $\frac{7.72}{2.67}$  percent for the water and wastewater systems, respectively.

#### Issue 24, Page 52, Paragraphs 4 and 5

Staff's revised interim revenue requirement is \$1,938,636 \$1,973,162 and \$1,200,719 \$1,201,295, for the water and wastewater systems, respectively. These revised amounts reflect a difference of \$102,112 \$67,586 (\$2,040,748 - \$1,938,636 \$1,973,162) for water and \$100,394 \$99,818 (\$1,301,113 - \$1,200,719 \$1,201,295) for wastewater.

Based on the above, staff recommends refunds of  $\frac{5.00}{3.31}$  percent ( $\frac{102,112}{67,586}$  /  $\frac{42,040,748}{99,818}$  and  $\frac{7.72}{3.67}$  percent ( $\frac{100,394}{99,818}$  /  $\frac{41,301,113}{99,818}$  for the water and wastewater systems, respectively.
