Opinion

We have audited the financial statements of Pivotal Utility Holdings, Inc. d/b/a Florida City Gas ("Florida City Gas" or the "Company"), a wholly-owned subsidiary of Florida Power & Light Company, which comprise the balance sheet – regulatory basis as of December 31, 2021, and the related statements of income – regulatory basis, retained earnings – regulatory basis, and cash flows – regulatory basis, for the year then ended, included on pages 10 through 18 of the Company's Annual Report of Natural Gas Utilities, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of the Company as of December 31, 2021, and the results of its operations for the year then ended in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

As discussed in Note 1 to the financial statements, these financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Restriction on Use

This report is intended solely for the information and use of the members and management of the Company and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

Pivotal Utility Holdings, Inc. d/b/a Florida City Gas
Notes to Financial Statements
December 31, 2021 and 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Pivotal Utility Holdings, Inc. (Pivotal Utility) d/b/a Florida City Gas (the Company) engages in the sale and distribution of natural gas to approximately 116 thousand customers in Florida's Miami-Dade, Brevard, St. Lucie and Indian River counties. Pivotal Utility is a wholly owned subsidiary of Florida Power & Light Company (FPL) and FPL is a wholly owned subsidiary of NextEra Energy, Inc. (NextEra Energy).

The financial statements included herein are prescribed by the requirements of the Florida Public Service Commission (FPSC) and are prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its applicable Uniform System of Accounts and published releases. This is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). The significant differences consist of the following:

- The presentation of the current portions of long-term debt and regulatory assets/liabilities as long-term.
- The presentation of deferred income tax assets and liabilities on a gross basis rather than as a net amount.
- The presentation of accumulated removal costs as a component of accumulated depreciation rather than as a regulatory liability.
- The presentation of debt issuance costs as a deferred debit instead of a liability that offsets the related debt balances.
- The classification of the provision for income taxes in net utility operating income.
- The omission of the statement of retained earnings for prior year for a comparative presentation.
- The presentation of operating lease assets and liabilities on the balance sheets.

The preparation of financial statements requires the use of estimates and the actual results may differ from those estimates.

Regulatory Assets and Liabilities

The Company is subject to accounting requirements for the effects of rate regulation. Regulatory assets represent probable future revenues associated with certain costs that are expected to be recovered from customers through the ratemaking process. Regulatory liabilities represent probable future reductions in revenues associated with amounts that are expected to be credited to customers through the ratemaking process.

Regulatory assets and liabilities reflected in the balance sheets at December 31, relate to:

(*) Includes excess deferred income tax liabilities resulting from the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 and became effective January 1, 2018 (Tax Reform Legislation). See Note 3 - Regulatory Matters and Note 4 for additional details.

In the event that the Company's operations are no longer subject to applicable accounting rules for rate regulation, the Company would be required to write off to income related regulatory assets and liabilities that are not specifically recoverable through regulated rates. In addition, the Company would be required to determine if any impairment to other assets, including plant, exists and write down the assets, if impaired, to their fair values. All regulatory assets and liabilities are to be reflected in rates. See Note 3 - Regulatory Matters for additional information.

Revenues

The Company records revenues when goods or services are provided to customers. Those revenues are based on rates approved by the FPSC. The Company has a rate structure that includes a volumetric rate design that allows the opportunity to recover certain costs based on gas usage. Revenues from sales and transportation services are recognized in the same period in which the related volumes are delivered to customers. Revenues from residential and certain commercial and industrial customers are recognized on the basis of scheduled meter readings. Additionally, unbilled revenues are recognized for estimated deliveries of natural gas not yet billed to these customers, from the last bill date to the end of the accounting period. For other commercial and industrial customers, revenues are based on actual deliveries to the end of the period.

Concentration of Revenue

The Company has a diversified base of customers. No single customer or industry comprises 10% or more of revenues. For all periods presented, uncollectible accounts averaged less than 1% of revenues.

Cost of Natural Gas

The Company charges its customers for natural gas consumed using a natural gas cost recovery mechanism set by the FPSC, under which all prudently incurred natural gas costs are passed through to customers without markup, subject to regulatory review. The Company defers or accrues the difference between the actual cost of natural gas and the amount of commodity revenue earned in a given period such that no operating income is recognized related to these costs. The deferred or accrued amount is either billed or refunded to customers prospectively through adjustments to the commodity rate. Deferred and accrued natural gas costs are included in the balance sheets as regulatory assets and regulatory liabilities, respectively.

Income and Other Taxes

The Company uses the liability method of accounting for deferred income taxes and provides deferred income taxes for all income tax temporary differences. Federal investment tax credits (ITCs) utilized are deferred and amortized to income over the average life of the related property. Taxes that are collected from customers on behalf of governmental agencies to be remitted to these agencies are presented on the balance sheet.

The Company recognizes tax positions that are "more likely than not" of being sustained upon examination by the appropriate taxing authorities. See Note 4 - Unrecognized Tax Benefits for additional information.

Property, Plant, and Equipment

Property, plant, and equipment is stated at original cost less any regulatory disallowances and impairments. Original cost includes: materials; labor; minor items of property; appropriate administrative and general costs; payroll-related costs such as taxes, pensions, and other benefits. The cost of replacements of property, exclusive of minor items of property, is capitalized. The cost of maintenance, repairs, and replacement of minor items of property is charged to other operations and maintenance expenses as incurred or performed.

Depreciation

Depreciation of the original cost of utility plant in service is provided using composite straight-line rates, which approximated 2.9% for 2021 and 2020. Depreciation studies are conducted periodically to update the composite rate that is approved by the FPSC. When property subject to composite depreciation is retired or otherwise disposed of in the normal course of business, its original cost, together with the cost of removal, less salvage, is charged to accumulated depreciation. As such, gains or losses are not recognized, they are ultimately refunded to, or recovered from, customers through future rate adjustments. Minor items of property included in the original cost of the asset are retired when the related property unit is retired.

Acquisition Adjustment

Until July 2018, the Company was held by Southern Company Gas, a wholly-owned, direct subsidiary of Southern Company. Upon Southern Company Gas' acquisition of Pivotal Utility in 2004, a \$21.7 million positive acquisition adjustment was recorded for the difference between the cost of acquiring the Company and the original cost. The FPSC approved a 30-year amortization period for this adjustment and a roll forward of the accumulated amortization is as follows:

	<i>(in thousands)</i>
December 31, 2019	\$ 10,949
2020 amortization expense	722
December 31, 2020	11,671
2021 amortization expense	722
December 31, 2021	\$ 12,393

Measurement of Credit Losses on Financial Instruments

Effective January 1, 2020, the Company adopted an ASU that provides for a new methodology, the current expected credit loss (CECL) model, to account for credit losses for certain financial assets, including customer receivables. The CECL model requires an entity to consider current conditions and reasonable and supportable forecasts in addition to historical information when developing an allowance for credit losses. The Company books the estimate of lifetime credit losses in the month revenue is recognized or in the month losses on previously recognized revenues are identified. As of December 31, 2021 and 2020, the Company has a provision for uncollectible customer accounts of approximately \$0.8 million and \$0.9 million, respectively.

Receivables and Provision for Uncollectible Accounts

The Company's receivables consist primarily of natural gas sales and transportation services billed to residential, commercial, industrial, and other customers. Customers are billed monthly and payment is due within 30 days. For the majority of receivables, a provision for uncollectible accounts is established based on historical collection experience and other factors. For the remaining receivables, if the Company is aware of a specific customer's inability to pay, a provision for uncollectible accounts is recorded to reduce the receivable balance to the amount the Company reasonably expects to collect. If circumstances change, the estimate of the recoverability of accounts receivable could change as well. Circumstances that could affect this estimate include, but are not limited to, customer credit issues, customer deposits, and general economic conditions. Customers' accounts are written off once they are deemed to be uncollectible.

Materials and Supplies

Generally, materials and supplies are charged to inventory when purchased and then expensed or capitalized to plant, as appropriate, at weighted average cost when installed.

Natural Gas for Sale

The Company's natural gas inventories are carried at cost on a weighted average cost of gas basis.

Fair Value of Financial Instruments

The carrying amount of financial instruments, including receivables, accounts payable, due to affiliates, other current assets and liabilities and accrued interest, approximates fair value due to the short maturity of these instruments.

Intangibles - Goodwill and Other - Internal-Use Software

The Company capitalizes qualifying implementation costs incurred to develop or obtain internal use software associated with cloud computing and hosting arrangements. Consistent with FERC accounting guidance, as of December 31, 2021 and 2020, the Company has recognized approximately \$5.5 million and \$5.6 million, respectively, of implementation costs as capital and these costs are included in total utility plant. The costs are included in depreciation and amortization over the 20-year term of the arrangement. As of December 31, 2021 and 2020, the Company has approximately \$10.7 million and \$11.1 million, respectively, of prepayments relating to perpetual licensing fees which is being amortized to operation expenses over the 20 year life of the agreement.

2. RETIREMENT BENEFITS

The Company's employees participate in NextEra Energy's qualified noncontributory defined benefit pension plan. NextEra Energy uses multiemployer accounting and allocates net pension benefit income or expense to its subsidiaries based on the pensionable earnings of the subsidiaries' employees. The calculation includes several components of cost, offset by the expected return on plan assets. For the year ended December 31, 2021 and 2020, NextEra Energy allocated approximately \$0.9 million and \$0.8 million, respectively, of net pension benefit income to the Company.

3. CONTINGENCIES AND REGULATORY MATTERS

General Litigation Matters

The Company is subject to certain claims and legal actions arising in the ordinary course of business. The ultimate outcome of these matters and such pending or potential litigation against the Company cannot be determined at this time; however, for current proceedings not specifically reported herein, management does not anticipate that the ultimate liabilities, if any, arising from such current proceedings would have a material effect on the Company's financial statements.

Regulatory Matters

Regulatory Infrastructure Programs

The majority of the Company's regulatory assets and liabilities are included in base rates except for the net clause under recovery balances and for the regulatory infrastructure program costs, which are recovered through specific rate riders on a

dollar-for-dollar basis. The rate riders that authorize the recovery of regulatory infrastructure program costs include both a recovery of cost and a return on investment during the recovery period.

In 2015, the FPSC approved the Company's Safety, Access, and Facility Enhancement (SAFE) program, under which costs incurred for replacing aging pipes are recovered through a rate rider with annual adjustments and true-ups. Under the program, the Company is authorized to spend \$105 million over a 10-year period on infrastructure relocation and enhancement projects.

In 2012, the Company developed a project that makes use of the Area Extension Program (AEP) provided for in its tariff. Under the AEP, the Company is authorized to recover the costs to extend service to a single point or multiple points in a geographical area when the cost of the facilities exceeds the maximum allowable investment under its tariff and the margin from the investment. The AEP charge is initially set at a rate sufficient to recover the investment in ten years from the date the project is placed in service. The Company reassesses the amount of additional revenue required to recover the unamortized excess cost of the facilities and re-calculated the AEP charge multiple times during the ten-year recovery period. In 2021, the Company obtained approval from the FPSC to extend the recovery period from ten years to fifteen years with additional reassessments of the AEP charge.

Base Rates

In March 2018, the FPSC issued an order approving a stipulation and settlement between the Company and several intervenors in the Company's base rate proceeding that, after including the impact of the tax reform legislation, provides for an \$11.5 million increase in annual base rate revenues, effective June 1, 2018. The stipulation and settlement also provided that the Company is permitted to recover the construction costs related to a liquefied natural gas storage facility through an increase in rates to become effective when the facility is placed in service. The storage facility will improve reliability and capacity at the southern section of the Company's system. Under the terms of the settlement, the Company's allowed regulatory ROE is 10.19%, with a range of 9.19% to 11.19%. However, if the the Company's earned regulatory ROE falls below 9.19%, the Company may seek retail rate relief. If the earned regulatory ROE rises above 11.19%, any party with standing, other than the Company, may seek a review of the Company's retail base rates. The Company agreed not to file a new base rate case with an effective date prior to June 1, 2022.

On March 29, 2022 the Company filed notice with the FPSC that it intends to file general base rate increase on or after May 31, 2022, based on a projected test year ending December 31, 2023. The Company is finalizing its 2023 revenue requirements, but currently estimates a proposed net incremental base rate revenue increase of \$20 million to \$23 million. The proposed new base rates would take effect February 2023, pending approval by the FPSC.

4. INCOME TAXES

NextEra Energy will file a consolidated income tax return and various combined and separate state tax returns on behalf of the Company. Under the tax sharing agreement between NextEra Energy and certain of its subsidiaries, the income tax provision at each applicable subsidiary reflects the use of the "separate return method," except that tax benefits that could not be used on a separate return basis, but are used on the consolidated tax return, are recorded by the subsidiary that generated the tax benefits. Any remaining consolidated income tax benefits or expenses are recorded at the corporate level. Included in other regulatory assets and other regulatory liabilities on the Company's balance sheet is the revenue equivalent of the difference in deferred income taxes computed under accounting rules, as compared to regulatory accounting rules.

The components of income taxes are as follows:

	2021	2020
	<i>(in thousands)</i>	
Federal —		
Current	\$ 3,238	\$ 378
Deferred	(78)	784
	<u>3,160</u>	<u>1,162</u>

Deferred	509	686
	<u>875</u>	<u>480</u>
Total	<u>\$ 4,035</u>	<u>\$ 1,642</u>

The tax effects of temporary differences between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases, which give rise to assets and liabilities are as follows:

	2021	2020
	<i>(in thousands)</i>	
Deferred tax liabilities —		
Property related	\$ 37,171	\$ 36,155
Regulatory assets associated with employee benefit obligations	695	478

Total	<u>\$ 38,819</u>	<u>\$ 37,814</u>
Deferred tax assets —		
Tax Reform Legislation	\$ 5,054	\$ 5,313
Other	717	688
Total	<u>5,771</u>	<u>6,001</u>
Accumulated deferred income taxes, net	<u>\$ 33,048</u>	<u>\$ 31,813</u>

Deferred federal and state ITCs are amortized over the average life of the related property with such amortization normally applied as a credit to reduce depreciation in the statements of income. There were no credits amortized in this manner for either year ended December 31, 2021 or 2020 because the Company has not generated any ITCs.

Effective Tax Rate

A reconciliation of the federal statutory income tax rate to the effective income tax rate is as follows:

	Years Ended December 31,	
	2021	2020
Federal statutory rate	21.0%	21.0%
State income tax, net of federal deduction	3.7	4.6
Amortization of deferred regulatory credit	(3.2)	(6.3)
Other, net	0.2	0.9
Effective income tax rate	<u>21.7%</u>	<u>20.2%</u>

Unrecognized Tax Benefits

The Company has no unrecognized tax benefits for any year presented. The Company classifies interest on tax uncertainties as interest expense; however, the Company had no accrued interest or penalties for unrecognized tax benefits for any year presented. It is reasonably possible that the amount of the unrecognized tax benefits could change within 12 months. The settlement of federal and state audits could impact the balances. At this time, an estimate of the range of reasonably possible outcomes cannot be determined. The tax years 2018 through 2020 (Federal and State) remain subject to examination by the Company's major tax jurisdictions.

5. FINANCING

Affiliate Loan Agreement with FPL

The Company entered into a loan agreement with FPL for the purpose of funding the Company's ongoing cash and working capital requirements. The loan agreement is available from January 1, 2019 through January 1, 2069, (the Availability Period). The agreement allows for a maximum of \$150 million of short-term loans and \$300 million of long-term loans to be outstanding at one time through the Availability Period. Each short-term loan will not exceed a 365 day term. Long-term loans will have a term between 1 year and 50 years, not to exceed the Availability Period. The interest rates for the loans will be variable and equal to FPL's weighted average debt.

At December 31, 2021 and 2020, amounts outstanding were as follows:

	December 31, 2021		December 31, 2020	
	Weighted-average interest rate	Outstanding	Weighted-average interest rate	Outstanding
	(in thousands)			
Long-term loans	3.72%	\$ 170,625	4.08%	\$ 80,000
Short-term loans	0.45%	24,375	2.63%	90,000
Total		\$ 195,000		\$ 170,000

6. COMMITMENTS

Pipeline charges and storage capacity include charges recoverable through a natural gas cost recovery mechanism, or alternatively, billed to marketers of natural gas.

The Company has also made commitments in connection with a portion of their projected capital expenditures. Capital expenditures include, among other things, the cost for construction or acquisition of additional facilities and equipment to meet customer demand, as well as capital improvements to and maintenance to existing facilities.

Contractual obligations and estimated expenditures at December 31, 2021 were as follows:

	2022	2023	2024	2025	2026	Thereafter	Total
	(in thousands)						
Pipeline charges and storage capacity ^(a)	\$ 12,043	\$ 11,494	\$ 11,485	\$ 8,357	\$ 7,414	\$ 28,322	\$ 79,115
Capital expenditures ^(b)	81,830	53,188	50,862	50,595	52,509	—	288,984
Total	\$ 93,873	\$ 64,682	\$ 62,347	\$ 58,952	\$ 59,923	\$ 28,322	\$ 368,099

(a) Includes charges recoverable through a natural gas cost recovery mechanism, subject to review by the FPSC.

(b) Represents projected capital expenditures through 2026 for which applicable internal approvals (and also, if required, regulatory approvals) have been received. The above estimates are subject to continuing review and adjustment and actual capital expenditures may vary significantly from estimates.

7. AFFILIATE TRANSACTIONS

FPL purchases and sells natural gas to meet the Company's gas supply requirements under a Gas Purchase and Sale Agreement. All costs associated with services provided by FPL were direct billed to the Company. All costs associated with natural gas purchase and sale activities are recoverable through the natural gas cost recovery mechanism.

At December 31, 2021 and 2020, the Company had \$2.7 million and \$2.4 million, respectively, in payables which was primarily due to FPL related to corporate support provided by the affiliated entity and amounts relating to purchases of natural gas as discussed above. At December 31, 2021, the Company also had \$3.2 million in payables due to NEE relating to federal income tax payments made on behalf of the Company and \$0.4 million in payables due to NEE relating to state income taxes. At December 31, 2020, the Company also had \$0.4 million in payables due to NEE relating to federal income tax payments made on behalf of the Company and \$0.4 million in receivables due from NEE relating to state income taxes.

8. SUBSEQUENT EVENTS

Management evaluated subsequent events for potential recognition and disclosure through April 11, 2022, the date these financial statements were available to be issued, and determined that no significant events have occurred subsequent to period end outside of those discussed above.
