PART II - COMPANY PROFILE

A. Brief Company History

City Gas Company of Florida was incorporated 4/2/49 as a propane distributor headquartered in Hialeah, Florida, using underground pipelines. Starting in the late fifties, City Gas acquired a number of LP gas companies in Dade, Broward, and Brevard Counties. In 1960, natural gas became available, and the existing underground pipeline systems facilitated the conversion from LP to natural gas. Upon the conversion to natural gas, the Company became regulated under the Florida Public Service Commission. In 1964, City Gas was listed on the American Stock Exchange. In July, 1988, the Company merged with NUI Corporation of New Jersey, and became a division of Elizabethtown Gas Company, a wholly-owned subsidiary of NUI Corporation. City Gas continues to operate under its same name and present management as the "Florida Division" of Elizabethtown Gas Company. City Gas is the second largest natural gas utility in Florida.

B. Operating Territory

City Gas has two divisions, the "Miami Division" in Dade and Broward Counties, and the "Brevard Division" in Brevard County. The service area of the Miami Division embraces an area beginning with and including Lake Forest, Pembroke Park and Miramar in Broward County on the north, and extends southward into Dade County through and including Opa Locka, Hialeah, Hialeah Gardens, Medley, Miami Springs, Miami International Airport, Virginia Gardens, the City of Miami west of 27th Avenue, Coral Gables, West Miami, South Miami, and continuing further southward past Cutler Ridge. In addition, areas contiguous to these communities are served throughout both counties. Parts of North Miami and North Miami Beach are also served as isolated systems.

The service area of the Brevard Division is Brevard County. This area includes the principal municipalities of Titusville, Merritt Island, Cape Canaveral, Cocoa, Cocoa Beach, Rockledge, Melbourne, West Melbourne, Indian Harbour Beach, Palm Bay and contiguous areas in the County.

Statewide, the Company services over 80,000 customers. City Gas has natural gas franchises in the following cities:

Dade County:	Hialeah, Coral Gables, South Miami, West Miami, Miami Springs, Opa Locka, Miami (partial), Virginia Gardens, Medley, Hialeah Gardens, North Miami(partial), North Miami Beach(partial) and Sweetwater.
Broward County:	Miramar
Brevard County:	Rockledge, Cocoa, Cocoa Beach, Titusville, Melbourne, West Melbourne, Cape Canaveral, Indian Harbour Beach, Palm Shores, and Palm Bay.

PART II - COMPANY PROFILE (Continued)

C. Major Goals and Objectives

City Gas recognizes responsibilities to its employees, its investors, its community, and its government. Its primary objective is to serve these distinct groups to the best of its ability.

Employees: To provide job opportunities, with pay and benefits consistent with those in the area; and to provide appropriate incentives to attract and retain good employees.

Investors: To achieve our allowable return on investment, presently set at 15.75% by the FPSC (13.7% for purposes of income tax reform); to achieve consistent growth in earnings and dividends, and to achieve steady customer growth.

Community: To provide continuous service based on professional standards at a reasonable cost, and to provide for expansion of facilities as needed.

Government: Compliance with all laws and regulations, including proper and timely reporting as required, and payment of taxes. The Company also accepts a responsibility in assisting government at all levels in recognizing new developments as well as the need for improvements in the law.

D. Major Operating Divisions and Functions

City Gas has two major divisions as explained in B above; the Miami Division and the Brevard Division. The primary function of each Division is natural gas distribution. In addition, each Division is engaged in appliance leasing and merchandising and jobbing, all for the purpose of adding or retaining natural gas load.

E. Affiliates and Relationships

As explained in A above, City Gas is a division of Elizabethtown Gas Company, a wholly-owned subsidiary of NUI Corporation in New Jersey (NUI - NYSE).

The only affiliate owned by City Gas at present is a wholly-owned subsidiary, Essel Corporation, in Dade County.

If the stock book was not closed or a list of stockholders was not compiled within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.

2. If any security other than stock carries voting rights, explain in a supplemental statement the circumstances

whereby such security became vested with voting rights and give other important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent; if contingent, describe the contingency.

3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.

4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants, or rights were issued on a prorata basis.

1. Give date of the latest closing of the stock book prior to end of year, and state the purpose of such closing:

2. State the total number of votes cast at the latest general meeting prior to the end of year for election of directors of the respondent and number of such votes cast by proxy

3. Give the date and place of such meeting:

NOTES TO FINANCIAL STATEMENTS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, *Utility Plant Adjustments*, explain the origin of such amount, debits and credits during the year,

and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

4. Where Accounts 189, *Unamortized Loss on Reacquired Debt*, and 257, *Unamortized Gain on Reacquired Debt*, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be attached hereto.

Item 1 - Acquisition adjustment:

As a result of the merger with NUI Corporation in July, 1988, utility plant acquisition adjustments has been increased by \$13,899,513, with a corresponding credit to Other Paid-in Capital, under accounting rules promulgated by the Securities and Exchange Commission. Also in connection with the merger, all treasury stock was retired, and all other capital stock accounts were transferred into Other Paid-in Capital.

Item 2 - Contingencies:

Reference is made to Item 3 - Legal Proceedings - in the Company's Annual Report on Form 10-K, regarding the antitrust case before the U.S. District Court for the Southern District of Florida. On August 14, 1987, the Court entered a judgment finding, among other things, that City Gas Company had violated Section 2 of the Sherman Antitrust Act, and ordered City Gas to pay trebled antitrust damages totaling approximately \$4.8 million, plus attorneys fees, to Consolidated Gas Company of Florida, Inc., and requiring City Gas to sell natural gas to Consolidated. The Court rejected City Gas Company's counterclaim alleging violations by Consolidated of the Sherman and Clayton Antitrust Acts.

City Gas' motion for a new trial was denied on December 18, 1987. On December 22, 1987, City Gas appealed to the U.S. Court of Appeals for the Eleventh Circuit. The appeal was heard on October 5, 1988, and we are awaiting the decision of the Court. No provision for the damages or plaintiff's attorneys fees has been made on the Company's financial statements for the year ended December 31, 1988.

including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in col-

umn (f) only the offset to the debits or credits distributed in column (f) to primary account classifications.

7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.

8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

 4. Enter on this page engineering, supervision, administrative, and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the U.S. of A.

3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

In calculating allowance for funds used during construction, one-twelfth of the total cost of capital is applied monthly to applicable work orders, except blanket work orders which are not subject to AFUDC.

Note: Effective January 1, 1989, the Company no longer capitalizes AFUDC.

COMPUTATION OF ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES

For line 1(5), column (d) below, enter the rate granted in the last rate proceeding. If such is not available, use the average rate earned during the preceding three years.

1. Components of Formula (Derived from actual book balances and actual cost rates):

Line No.	Title (a)	Amount (b)	Capitalization Ratio (Percent) (c)	Cost Rate Percentage (d)
(1)	Average Short-Term Debt	S	N/A - This structure not used

2. Gross Rate for Borrowed Funds $s \left(\frac{S}{W} \right) + d \left(\frac{D}{D+P+C} \right) \left(1 - \frac{S}{W} \right)$ 3.56

3. Rate for Other Funds $\left[1 - \frac{S}{W} \right] \left[p \left(\frac{P}{D+P+C} \right) + c \left(\frac{C}{D+P+C} \right) \right]$ 6.72

4. Weighted Average Rate Actually Used for the Year:	<u>Annual</u>	<u>Monthly</u>
a. Rate for Borrowed Funds —	3.25%	.26%
b. Rate for Other Funds —	7.34%	.58%

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108)					
<p>1. Explain in a footnote any important adjustments during year.</p> <p>2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that reported for gas plant in service, pages 204-209, column (d), excluding retirements of non-depreciable property.</p> <p>3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If</p>			<p>the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.</p> <p>4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.</p>

GAS OPERATING REVENUES (ACCOUNT 400)

1. Report below natural gas operating revenues for each prescribed account, and manufactured gas revenues in total.
2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.
3. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted

- for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
4. Report quantities of natural gas sold in Mcf (14.73 psia at 60°F). If billings are on a therm basis, give the Btu contents of the gas sold and the sales converted to Mcf.
 5. If increases or decreases from previous year (columns (c), (e) and (g)), are not derived from previously

FIELD AND MAIN LINE INDUSTRIAL SALES OF NATURAL GAS

1. Report below particulars (details) concerning sales of natural gas to industrial customers served other than from local distribution systems operated by the respondent. Classify between field sales and transmission sales and further subdivide these sales between sales subject to FERC certification and sales not requiring a FERC certificate. Include also any field and main line sales, classified as Other Sales to Public Authorities and indicate such inclusion in a footnote. Field sales means sales made from wells, from points along gathering lines in gas field or production areas or from points along transmission lines within field or production areas. Transmission sales means sales made from points along transmission lines not within gas fields or production areas.

2. Natural gas means either natural gas unmixed, or any mixture of any natural and manufactured gas. Designate with an asterisk, however, any sales of mixed gas. In a footnote state the components of mixed gas, i.e., natural and refinery gases, natural and coke oven gases, etc., and specify the approximate percentage of natural gas in the mixture.

3. Report separately sales to each field and main line industrial consumer to which sales of 50,000 Mcf or more were made during the year, grouped and totalled by State. Report other sales in total for each State, showing number of sales grouped.

4. Provide separate grand totals for each State in addition to a grand total for all field and main line industrial sales.

Notes to Depreciation, Depletion and Amortization of Gas Plant

Depreciation accruals are calculated monthly by applying one-twelfth of the annual rate to the previous month's ending balance of each Primary Plant account in Utility Plant in Service. The rates have been detailed in a comprehensive depreciation study approved by the Commission July 24, 1984, effective January 1, 1984.

A new study was filed in 1989 and is under review.

NATURAL GAS RESERVES AND LAND ACREAGE

1. Report below particulars (details) concerning the remaining recoverable saleable gas reserves and natural gas land acreage at end of year. Designate gas reserves on acreage acquired before October 8, 1969, and reserves on acreage acquired after October 7, 1969.

2. Classify the gas reserves and related land and land rights and costs under the sub-headings: (A) Producing Gas Lands, and (B) Non-producing Gas Lands. Provide a total for each classification.

3. For producing gas lands, report the required information alphabetically by State, County, or offshore area, and field.

If the field name is not assigned, report as "unnamed." Identify offshore fields according to their location in State or Federal domains by using the letter "S" for State domain, and "F" for Federal domain in column (a). For column (b), enter the zone number if applicable. The land, leasehold, and gas rights costs so reported should agree with the amounts carried under Account 101, *Gas Plant in Service*, and as reported for Accounts 325.1, 325.2, and 325.3 on page 202. In column (e) show for each field the year and remaining recoverable saleable gas reserves available to respondent from owned lands, leaseholds, and gas rights.

GAS ACCOUNT — NATURAL GAS					
<p>1. The purpose of this page is to account for the quantity of natural gas received and delivered by the respondent, taking into consideration differences in pressure bases used in measuring Mcf of natural gas received and delivered.</p> <p>2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.</p> <p>3. Enter in column (c) the Mcf as reported in the schedules indicated for the items of receipts and deliveries.</p> <p>4. In a footnote report the volumes of gas from respondent's own production delivered to respondent's transmission system and included in natural gas sale.</p> <p>5. If the respondent operates two or more systems which are not interconnected, submit separate pages for this purpose. Use copies of pages 520 and 521.</p> <p>6. Also indicate by footnote the volumes of gas not subject to Commission regulation which did not incur FERC regulatory costs by showing (1) the local distribution volumes delivered to the local distribution-company portion of the reporting pipeline by another jurisdictional pipeline; (2) the volumes which the reporting pipeline transported or sold</p>			<p>through its local distribution facilities or intrastate facilities, and which the reporting pipeline received through gathering facilities, distribution facilities or intrastate facilities, but not through any of the intrastate portion of the reporting pipeline and, (3) the gathering line volumes which were not destined for interstate market or which were not transported through any intrastate portion of the reporting pipeline.</p> <p>7. Also indicate by footnote (1) the system supply volumes of gas which are stored by the reporting pipeline during the reporting year and also reported as sales, transportation and compression volumes by the reporting pipeline during the same reporting year, (2) the system supply volumes of gas which are stored by the reporting pipeline during the reporting year and which the reporting pipeline intends to sell or transport in a future reporting year, and (3) contract storage volumes.</p> <p>8. Also indicate the volumes of pipeline production field sales which are included in both the company's total sales figure and the company's total transportation figure (lines 42 and 46 of page 521).</p>

SYSTEM MAPS

1. Furnish 5 copies of a system map (one with each filed copy of this report) of the facilities operated by the respondent for the production, gathering, transportation, and sale of natural gas. New maps need not be furnished if no important change has occurred in the facilities operated by the respondent since the date of the maps furnished with a previous year's annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.

2. Indicate the following information on the maps:

- (a) Transmission lines—colored in red, if they are not otherwise clearly indicated.
- (b) Principal pipeline arteries of gathering systems.
- (c) Sizes of pipe in principal pipelines shown on map.
- (d) Normal directions of gas flow—indicated by arrows.
- (e) Location of natural gas fields or pools in which the respondent produces or purchases natural gas.

(f) Locations of compressor stations, products extraction plants, stabilization plants, important purification plants, underground storage areas, recycling areas, etc.

(g) Important main line interconnections with other natural gas companies, indicating in each case whether gas is received or delivered and name of connecting company.

(h) Principal communities in which respondent renders local distribution service.

3. In addition, show on each map: graphic scale to which map is drawn; date as of which the map represents the facts it purports to show; a legend giving all symbols and abbreviations used; designations of facilities leased to or from another company, giving name of such other company.

4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger than this report. Bind the maps to the report.
