Independent Auditors' Report

Board of Directors and Stockholder Florida Public Utilities Company

We have audited the accompanying financial statements of Florida Public Utilities Company -Natural Gas Division, which comprise the balance sheets - regulatory basis as of December 31, 2019 and 2018, and the related statements of income - regulatory basis for each of the two years in the period ended December 31, 2019 and the statement of retained earnings - regulatory basis for the year ended December 31, 2019, and the related notes to the financial statements, included on pages 6 through 11 of the accompanying Annual Report of Natural Gas Utilities, as filed with the Florida Public Service Commission.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and proprietary capital of Florida Public Utilities Company - Natural Gas Division as of December 31, 2019 and 2018, and its income and expenses for the years then ended in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases described in Note 1.

Regulatory Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. As described in Note 1 to the financial statements, the financial statements are prepared by Florida Public Utilities Company - Natural Gas Division on the basis of the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Restriction on Use

Our report is intended solely for the information and use of the board of directors and management of Chesapeake Utilities Corporation and Florida Public Utilities Company - Natural Gas Division and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.
- V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.
- VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.
- VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

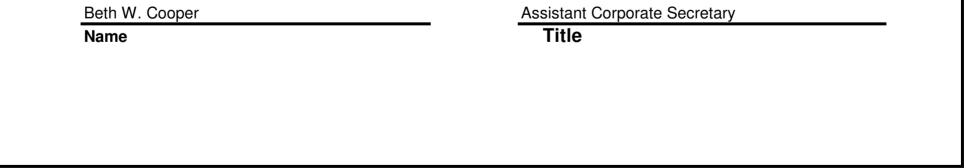

DEFINITIONS

- I. <u>Btu per cubic foot -</u> The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)
- II. <u>Respondent -</u> The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.

2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent if contingent, describe the contingency.

3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.

4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders.

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none" "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

1. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions.

2. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to

 Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased also the approximate number of customers added or lost and approximate annual revenues of each class of service.
 State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.

5. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party

| Commission authorization, if any was required. | or in which any such person had a material interest. |

| STATEMENT OF RETAINED EARNINGS |
|--------------------------------|
|--------------------------------|

1. Report all changes in appropriated retained earnings, and unappropriated retained earnings for the year.

2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary

account affected in column (b). 3. State the purpose and amount for each reservation or

appropriation of retained earnings. 4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order. 5. Show dividends for each class and series of capital stock.6. Show separately the state and federal income tax effect

of items shown in account 439, Adjustments to Retained Earnings.

7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.

8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 11.

For the Year Ended

December 31, 2019 NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

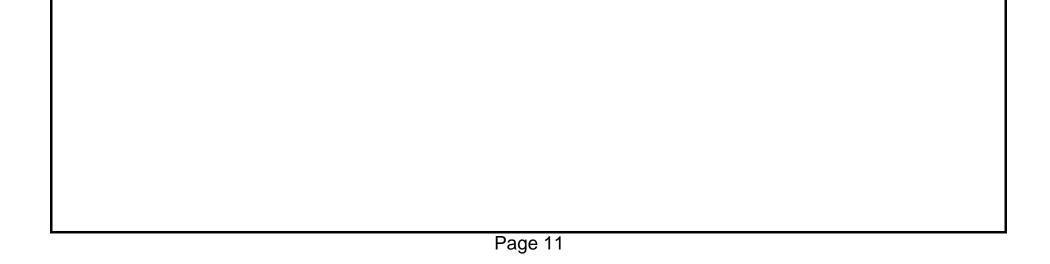

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service ions and state the amount of retained earnings affected by such involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock. 3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and

plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof. 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictrestrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

See Notes to Financial Statements attached

| Florida Public Utilities Company | | | For the Year Ended | | | | |
|----------------------------------|--|--|--------------------|--|--|--|--|
| Natural Gas Division | | | December 31, 2019 | | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | | |

1. Organization and Basis of Presentation

Florida Public Utilities Company ("FPU") is a utility engaged in the natural gas and electric distribution business in Florida. The natural gas division of FPU, excluding the Indiantown and Fort Meade divisions, ("we," "our" or "us") is engaged in the distribution of natural gas to approximately 64,000 residential, commercial and industrial customers located in south, central and northeast Florida. Our rates and services are subject to regulation by the Florida Public Service Commission ("FPSC"). FPU is a wholly-owned subsidiary of Chesapeake Utilities Corporation ("Chesapeake Utilities").

Our financial statements include the accounts of FPU's natural gas operation, excluding the accounts of the Indiantown and Fort Meade divisions. The FPSC requires FPU's Indiantown and Fort Meade natural gas divisions to be reported separately from us and therefore, those accounts are excluded from our financial statements. FPU's electric distribution and unregulated businesses are also excluded from our financial statements.

Our financial statements are prepared in conformity with the accounting requirements of the FPSC, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission ("FERC") as set forth in the applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("US GAAP"). The accounting requirements of the FERC and the FPSC applied by us in these financial statements are consistent with US GAAP, except for:

- lack of reclassification of certain negative balances on the balance sheets;
- the presentation of deferred income tax assets and liabilities separately rather than as a single amount;
- the presentation of cost of removal as a component of accumulated depreciation rather than as a regulatory liability;
- lack of detail property, plant and equipment component costs disclosure;
- lack of detail regulatory assets and liability disclosure;
- the omission of the statements of cash flows;
- the omission of the statement of retained earnings for prior year for a comparative presentation;
- the accounting treatment of acquisition adjustment and regulatory asset associated with the merger-related costs and the presentation of acquisition adjustment;
- the presentation of pass-through revenue taxes, such as gross receipts taxes, franchise taxes and sales taxes, as revenues and operating expenses rather than on a net basis;
- presentation of the components of net benefit costs in operating expenses, whereas for GAAP, only the service cost component is presented in operating expenses; and
- the presentation of operating leases' right-of-use asset and lease liability in the FERC balance sheet accounts for capital lease assets and liabilities.

We do not have any ownership interests in investments accounted for using the equity method or any variable interests in a variable interest entity. We have assessed and reported on subsequent events through April 30, 2020, the date these financial statements are available to be issued.

In March 2020, the World Health Organization declared a global pandemic related to the rapidly growing outbreak of a novel strain of coronavirus ("COVID-19"). In response to this declaration and the rapid spread of COVID-19 within the United States, federal, state and local governments throughout the country imposed varying degrees of restrictions on social and commercial activity to promote social distancing in an effort to slow the spread of the illness. As a result, these restrictions have significantly impacted economic conditions in the United States, which are expected to continue as the need for social distancing restrictions remain in place. The Company is considered an "essential business," which allows the Company to continue its operational activities and construction projects while the social distancing restrictions remain in place. In response to the COVID-19 pandemic and these social distancing restrictions, the Company has implemented its pandemic response plan, which includes having office staff work remotely to promote social distancing and field employees utilizing personal protective equipment where necessary to reduce the spread of COVID-19. Any future impact on the Company's results of operations or financial position from COVID-19, particularly from continued social distancing restrictions, cannot be estimated at this time. The Company will continue to monitor developments affecting its workforce, its customers and its suppliers and take additional precautions as warranted to comply with the applicable social distancing restrictions.

| Natural Gas Division | | | December 31, 2019 | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | |

2. Summary of Significant Accounting Policies

Use of Estimates

Our financial statements are prepared based on the accounting requirements of the FPSC and the FERC, which require management to make estimates in measuring assets and liabilities and related revenues and expenses. These estimates involve judgments with respect to, among other things, various future economic factors that are difficult to predict and are beyond our control; therefore, actual results could differ from those estimates. As additional information becomes available, or actual amounts are determined, recorded estimates are revised. Consequently, operating results can be affected by revisions to prior accounting estimates.

<u>Utility Plant</u>

Utility plant is stated at original cost less accumulated depreciation or fair value, if impaired. Costs include direct labor, materials and third-party construction contractor costs, allowance for funds used during construction ("AFUDC"), and certain indirect costs related to equipment and employees engaged in construction. The costs of repairs and minor replacements are charged to expense as incurred, and the costs of major renewals and betterments are capitalized. Upon retirement or disposition of utility plant, the gain or loss, net of salvage value, is charged to accumulated depreciation or deferred as a regulatory asset or liability as required by the FPSC.

Customer contributions or advances in aid of construction reduce utility plant, unless the amounts are refundable to customers. Contributions or advances may be refundable to customers after a number of years based on the amount of revenues generated from the customers or the duration of the service provided to the customers. Refundable contributions or advances are recorded initially as liabilities. Non-refundable contributions reduce utility plant at the time of such determination. As of December 31, 2019 and 2018, there were \$1.1 million and \$1.8 million, respectively, of non-refunded contributions or advances reducing utility plant.

AFUDC represents the estimated cost of funds, from both debt and equity sources, used to finance the construction of major projects. AFUDC is capitalized in rate base for rate making purposes when the completed projects are placed in service. We did not capitalize AFUDC on utility plant for the years ended December 31, 2019 and 2018.

Asset Impairment Evaluations

We periodically evaluate whether events or circumstances have occurred, which indicate that other long-lived assets may not be fully recoverable. The determination of whether an impairment has occurred is based on an estimate of undiscounted future cash flows attributable to the asset, compared to the carrying value of the asset. When such events or circumstances are present, we record an impairment loss equal to the excess of the asset's carrying value over its fair value, if any.

Depreciation

We compute depreciation expense by applying composite, annual rates as approved by the FPSC. Depreciation and amortization expenses are provided at an annual rate averaging 2.6 percent and 2.9 percent in 2019 and 2018, respectively.

In accordance with the accounting requirements of the FERC, we include the accretion of the cost of removal for future retirements of utility assets as depreciation expense. For each of the years ended December 31, 2019 and 2018, \$1.0 million of such accretion was included in depreciation expense. We also report certain depreciation expenses, mainly related to vehicle, computer software and hardware, as operation expenses rather than depreciation and amortization expense to comply with the requirements of the FERC. For the years ended December 31, 2019 and 2018, \$0.4 million and \$0.3 million, respectively, of such depreciation was reported as operation expenses.

Regulated Operations

We account for our operations in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 980, *Regulated Operations*. This Topic includes accounting principles for companies whose rates are determined by independent third-party regulators. When setting rates, regulators often make decisions, the economics of which require companies to defer costs or revenues in different periods than may be appropriate for unregulated enterprises. When this situation occurs, a regulated company defers the associated costs as regulatory assets on the balance sheet and records them as expense on the income statement as it collects revenues. Further, regulators can also impose liabilities upon a regulated company for amounts previously collected from customers, and for recovery of costs that are expected to be incurred in the future as regulatory liabilities. If we were required to terminate

| Florida Public Utilities Company | | | For the Year Ended | | | | | |
|----------------------------------|--|--|--------------------|--|--|--|--|--|
| Natural Gas Division | | | December 31, 2019 | | | | | |
| NOTES TO FINANC | | | | | | | | |

the application of these provisions to our regulated operations, all such deferred amounts would be recognized in the income statement at that time, which could have a material impact on our financial position, results of operations and cash flows.

We monitor our regulatory and competitive environment to determine whether the recovery of our regulatory assets continues to be probable. If we were to determine that recovery of these assets is no longer probable, we would write off the assets against earnings. We believe that provisions of ASC Topic 980, *Regulated Operations*, continue to apply to our operations and that the recovery of our regulatory assets is probable.

Revenue Recognition

Our operating revenues are based on rates approved by the FPSC. We read meters and bill customers on monthly cycles that do not coincide with the accounting periods used for financial reporting purposes. We accrue unbilled revenues for the charges associated with natural gas delivered, but not yet billed, at the end of an accounting period to the extent that they do not coincide.

We have a fuel cost recovery mechanism. This mechanism provides a method of adjusting the billing rates to reflect changes in the cost of purchased fuel. The difference between the current cost of fuel and the cost of fuel recovered in billed rates is deferred and accounted for as either unrecovered purchased fuel costs or amounts payable to customers. Generally, these deferred amounts are recovered or refunded within one year.

Operation and Maintenance Expenses

Operation and maintenance expenses are costs associated with the operation and maintenance of our natural gas distribution systems. Major cost components include operation and maintenance salaries and benefits, materials and supplies, usage of vehicles, tools and equipment, payments to contractors, utility plant maintenance, customer service, professional fees and other outside services, insurance expense, minor amounts of depreciation and other administrative expenses.

Cash and Cash Equivalents

We consider all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Excess cash generated by our receipts may be transferred to and invested in Chesapeake Utilities' overnight income-producing accounts. We are allocated the portion of interest income generated from those accounts, which reduced interest expense in the accompanying statements of income.

Accounts Receivable and Accumulated Provision for Uncollectible Accounts

Accounts receivable consist primarily of amounts due for distribution sales of natural gas to customers. A provision for uncollectible accounts is recorded based upon our collections experiences and management's assessment of our customers' inability or reluctance to pay. If circumstances change, our estimates of recoverable accounts receivable may also change. Circumstances which could affect such estimates include, but are not limited to, customer credit issues and general economic conditions. Accounts are written off when they are deemed to be uncollectible.

Inventories

We use the average cost method to value materials and supplies inventory. If market prices drop below cost, inventory balances that are subject to price risk are adjusted to market values.

Pension and Other Postretirement Plans

Our eligible employees participate in FPU's pension and other postretirement plans. FPU allocates our share of its pension and other postretirement plan costs based on a portion of the benefits related to providing our service. FPU's pension and other postretirement plan costs and liabilities are determined on an actuarial basis and are affected by numerous assumptions and estimates including the fair value of plan assets, estimates of the expected returns on plan assets, assumed discount rates, the level of contributions made to the plans, and current demographic and actuarial mortality data. FPU's management annually reviews the estimates and assumptions underlying our pension and other postretirement plan costs and liabilities with the assistance of third-party actuarial firms.

The assumed discount rates and the expected returns on plan assets are the assumptions that generally have the most significant impact on FPU's pension costs and liabilities. The assumed discount rates, the assumed health care cost trend rates and the assumed rates of retirement generally have the most significant impact on FPUs' postretirement plan costs and liabilities. A 0.25 percent change in the discount rate could change the FPU's annual pension and postretirement costs

| Florida Public Utilities Company | | | For the Year Ended | | | | |
|----------------------------------|--|--|--------------------|--|--|--|--|
| Natural Gas Division | | | December 31, 2019 | | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | | |

by an immaterial amount. A 0.25 percent change in the rate of return could change FPU's annual pension cost by an immaterial amount, and would not have an impact on the postretirement and plan because this plan is not funded.

Income Taxes

Deferred tax assets and liabilities are recorded for the income tax effect of temporary differences between the financial statement bases and tax bases of assets and liabilities and are measured using the enacted income tax rates in effect in the years in which the differences are expected to reverse. The portions of our deferred tax liabilities, which have not been reflected in current service rates, represent income taxes recoverable through future rates. Deferred tax assets are recorded net of any valuation allowance when it is more likely than not that such tax benefits will be realized.

We account for uncertainty in income taxes in the financial statements only if it is more likely than not that an uncertain tax position is sustainable based on technical merits. Recognizable tax positions are then measured to determine the amount of benefit recognized in the financial statements. We recognize penalties and interest related to unrecognized tax benefits as a component of other income.

Financial Instruments

We have entered into agreements with suppliers to purchase natural gas for resale to our customers. Purchases under these contracts either do not meet the definition of derivatives or are considered "normal purchases" and are accounted for on an accrual basis.

Financial assets with carrying values approximating fair value include accounts receivable. Financial liabilities with carrying values approximating fair value include accounts payable and other accrued liabilities.

FASB Statements and Other Authoritative Pronouncements

Recently Adopted Accounting Standards

<u>Leases (ASC 842)</u> - In February 2016, the FASB issued Accounting Standards Update ("ASU") 2016-02, *Leases*, which requires lessees to recognize leases on the balance sheet and disclose key information about leasing arrangements. The standard establishes a right of use model that requires a lessee to recognize a right of use asset and lease liability for all leases with a term greater than 12 months. The update also expands the required quantitative and qualitative disclosures surrounding leases. ASC 842 was subsequently amended by ASU No. 2018-01, *Land Easement Practical Expedient for Transition to Topic 842*; ASU No. 2018-10, *Codification Improvements to Topic 842*, *Leases*; ASU No. 2018-11, *Targeted Improvements*; and ASU No. 2019-01, *Codification Improvements*. We adopted ASU 2016-02 and the related amendments on January 1, 2019, and used the optional transition method for all existing leases. The optional transition method enabled us to adopt the new standard as of the beginning of the period of adoption and did not require restatement of prior period financial information. As a result, prior period financial information was not recast and continues to be reported under the accounting guidance effective during those periods.

At adoption, we elected the following practical expedients: (1) the 'package of practical expedients,' pursuant to which we did not need to reassess our prior conclusions about lease identification, lease classification and initial direct costs, (2) the 'use-of-hindsight' practical expedient, which allowed us to use hindsight in assessing impairment of our existing land easements, (3) the creation of an accounting policy for short-term leases resulting in lease payments being recorded as an expense on a straight-line basis over the lease term, and (4) the aggregation, rather than separation, of the lease and non-lease components for all leases.

Beginning January 1, 2019, in conformity with the FERC's interpretation, we recorded operating leases that require a lease liability and right-of-use asset in the FERC balance sheet accounts that have already been established for capital lease assets and liabilities. See Note 6, *Leases*, for additional details.

Recent Accounting Standards Yet to be Adopted

Financial Instruments - Credit Losses (ASC 326) - In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*, which changes how entities account for credit losses for most financial assets and certain other instruments, and subsequent guidance which served to clarify or amend the original standard. ASU 2016-13 and the related amendments require entities to estimate lifetime expected credit losses for trade receivables and to provide additional disclosure related to credit losses. ASU 2016-13 will be effective for our financial statements beginning January 1, 2020 and is not expected to have a material impact on our financial position or results of operations.

| Florida Public Utilities Company | | | For the Year Ended | | | | |
|----------------------------------|--|--|--------------------|--|--|--|--|
| Natural Gas Division | | | December 31, 2019 | | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | | |

Fair Value Measurement (ASC 820) - In August 2018, the FASB issued ASU 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which removes, modifies and adds certain disclosure requirements on fair value measurements in ASC 820. ASU 2018-13 will be effective for our financial statements beginning January 1, 2020, and since the changes only impact disclosures, will not have a material impact on our financial position or results of operations.

3. Transactions with Affiliates

Financing Arrangements

Our excess cash is transferred to Chesapeake Utilities to be invested in overnight income-producing accounts. We utilize Chesapeake Utilities' short-term borrowing facility and Chesapeake Utilities' and FPU's long-term debt to satisfy our financing needs. For the years ended December 31, 2019 and 2018, Chesapeake Utilities and FPU allocated to us \$4.3 million and \$3.7 million, respectively, in interest expense, which represents a portion of interest from Chesapeake Utilities' short-term and Chesapeake Utilities' and FPU's long-term debt, net of a portion of interest income from the overnight income-producing accounts.

Allocated Costs from Affiliates

Chesapeake Utilities provides us with administrative and support services. These services include certain managerial, accounting, information technology, payroll, human resources and treasury services. For the years ended December 31, 2019 and 2018, Chesapeake Utilities charged us \$7.1 million and \$7.5 million, for these services. Chesapeake Utilities also provides us with shared services which include safety and customer care services. For the years ended December 31, 2019 and 2018, Chesapeake Utilities charged us \$3.7 million and \$3.2 million, respectively, for these services.

Advances from Affiliates

As of December 31, 2019 and 2018, we had net advances payable to Chesapeake Utilities and its subsidiaries in the amount of \$71.3 million and \$60.1 million, respectively. These amounts are reflected as accounts receivable from associated companies and accounts payable to associated companies in the accompanying balance sheets.

Firm Transportation Service and Natural Gas Purchase/Sale

Peninsula Pipeline Company, Inc. ("Peninsula Pipeline"), a wholly-owned subsidiary of Chesapeake Utilities, provided us with firm transportation service in conjunction with our service in Florida. For the years ended December 31, 2019 and 2018, we incurred \$14.0 million and \$9.5 million, respectively, in cost associated with this transportation service, which was included in the cost of fuel and our fuel cost recovery mechanism.

Marlin Gas Services, LLC, a wholly-owned subsidiary of Chesapeake Utilities, provided us natural gas transportation service in conjunction with our service in Florida. For the year ended December 31, 2019, we incurred \$1.1 million, in cost associated with this transportation service, which was included in the cost of fuel and our fuel cost recovery mechanism.

Eight Flags Energy, LLC ("Eight Flags"), a subsidiary of Chesapeake Utilities' OnSight Services, LLC, generates electricity and steam at its Combined Heat and Power ("CHP") plant located on Amelia Island, Florida. The Eight Flags' CHP plant is powered by natural gas transported in our distribution system. For the years ended December 31, 2019 and 2018, we recorded \$0.9 million and \$1.0 million, respectively, in revenue associated with transportation service provided to Eight Flags to power its CHP plant.

4. Income Taxes

We are included in the Chesapeake Utilities consolidated federal income tax return, along with all of Chesapeake Utilities' other subsidiaries. At December 31, 2019, Chesapeake Utilities' federal income tax returns for tax years 2015 through 2018 are under examination, and no report has been issued at this time. FPU files a separate state income tax return in the state of Florida. Income taxes in the accompanying consolidated statements of income have been allocated to us as if we were a separate taxpayer. State income tax returns for FPU for tax years after 2015 are subject to examination.

Income taxes are allocated to us as if we were a separate tax payer. FPU had a state net operating loss in Florida of \$15.7 million as of December 31, 2019 and none for 2018. In March 2020, President Trump signed into law, the Coronavirus Aid, Relief, and Economy Stimulus ("CARES") Act. Under the CARES Act, a taxpayer that generates a NOL in 2020

| Florida Public Utilities Company | | | For the Year Ended | | | | |
|----------------------------------|--|--|--------------------|--|--|--|--|
| Natural Gas Division | | | December 31, 2019 | | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | | |

(or generated a NOL in 2019 or 2018) can elect to carryback such NOL to the prior five years to offset prior years' taxable income and claim a tax refund(s) of previously paid federal income taxes. We are currently evaluating the impact of the CARES Act and have not reached a conclusion on whether we will elect to carryback any NOL generated in 2018 and 2019.

Federal Tax Reform

On December 22, 2017, President Trump signed into law the Tax Cuts and Jobs Act ("TCJA"). Substantially all of the provisions of the TCJA are effective for taxable years beginning on or after January 1, 2018. The provisions significantly impacting us include the reduction of the corporate federal income tax rate from 35 percent to 21 percent. Our federal income tax expense for periods beginning on January 1, 2018 are based on the new federal corporate income tax rate. ASC 740, *Income Taxes*, requires recognition of the effects of changes in tax laws in the period in which the law is enacted. ASC 740 requires deferred tax assets and liabilities to be measured at the enacted tax rate expected to apply when temporary differences are to be realized or settled. At the date of enactment in 2017, we re-measured deferred income taxes based upon the new corporate tax rate, which resulted in the change in deferred income taxes of \$26.0 million that was recorded as an offset to regulatory liability, some portion of which may ultimately be subject to refund to customers. During 2018, we completed the assessment of the impact of accounting for certain effects of the TCJA. See Note 9, *Rates and Other Regulatory Activities*, for further discussion of the TCJA's impact on our business.

The following tables provide: (a) the components of income tax expense in 2019 and 2018; (b) the reconciliation between the statutory federal income tax rate for 2019 and 2018; and (c) the components of accumulated deferred income tax assets and liabilities at December 31, 2019 and 2018.

5. Customer Concentration

We operate entirely in the natural gas distribution business. Our operations include the transportation of natural gas in intra-state commerce. We did not have any customer that accounted for more than 10 percent of our revenues for the years ended December 31, 2019 and 2018.

6. Leases

FPU has entered into lease arrangements for office space, land and warehouses. We utilize these lease arrangements to enable us to better conduct business operations in our service territory, provide adequate workspace for all our employees and to store equipment and materials used in repairs and maintenance for our businesses. FPU has allocated to us the right-of-use asset, lease liability and lease expense for our use of these leased facilities. Both of the operating lease right-of-use asset and liability in the FERC balance sheet accounts for capital lease assets and liabilities at December 31, 2019, were \$2.3 million. Operating lease cost included in our consolidated statements of income was \$0.5 million for both of the years ended December 31, 2019 and 2018. The following table presents the future undiscounted maturities of operating leases allocated to us at December 31, 2019 and for each of the next five years and thereafter:

| (in thousands) | - | erating æases |
|------------------------------------|----|------------------|
| 2020 | \$ | 467 |
| 2021 | | 454 |
| 2022 | | 467 |
| 2023 | | 481 |
| 2024 | | 453 |
| Thereafter | | 273 |
| Total Lease Payments | | 2,595 |
| Less: Interest | | 268 |
| Present Value of Lease Liabilities | \$ | 2,327 |

7. Employee Benefit Plans

Eligible FPU employees participate in various benefit plans sponsored by FPU and Chesapeake Utilities. They allocate to us a portion of the benefit costs associated with these plans. Our share of the costs is based on a portion of the benefits related to providing services to us. We recorded benefit costs of \$1.3 million and \$1.1 million for the years ended December 31, 2019 and 2018, respectively, related to these plans.

FPU continues to sponsor and maintain a separate defined benefit pension plan ("FPU Pension Plan") and a separate unfunded postretirement medical plan ("FPU Medical Plan") for eligible FPU employees. FPU measures the assets and obligations of the defined benefit pension plan and other postretirement benefits plans to determine the plan's funded status as of the end of the year as an asset or a liability on its consolidated balance sheets. A portion of this asset or liability related to us is reflected on our balance sheet. At December 31, 2019 and 2018, \$9.0 million and \$10.2 million, respectively, of the pension and postretirement benefit liabilities were assigned to us.

Defined Benefit Pension Plan

The following schedule sets forth the funded status at December 31, 2019 and 2018 and the net periodic cost for the years ended December 31, 2019 and 2018 for the FPU Pension Plan:

| | As of December 31, | | | |
|--|-----------------------------|-------------|--|--|
| | 2019 | 2018 | | |
| (in thousands) | | | | |
| Change in benefit obligation: | | | | |
| Benefit obligation — beginning of year | \$ 59,377 | \$ 64,664 | | |
| Interest cost | 2,452 | 2,339 | | |
| Actuarial (gain) loss | 6,508 | (4,739) | | |
| Benefits paid | (3,033) | (2,887) | | |
| Benefit obligation — end of year | 65,304 | 59,377 | | |
| Change in plan assets: | | | | |
| Fair value of plan assets — beginning of year | 43,601 | 48,396 | | |
| Actual return on plan assets | 7,978 | (3,113) | | |
| Employer contributions | 1,157 | 1,205 | | |
| Benefits paid | (3,033) | (2,887) | | |
| Fair value of plan assets — end of year | 49,703 | 43,601 | | |
| Reconciliation: | | | | |

| 6.50% | 6.50% |
| \$ | (2,770) 505 187 543 |

Included in the net periodic costs for the FPU Pension Plan is continued amortization of FPU's pension regulatory asset, which represents the portion attributable to FPU's regulated operations for the changes in funded status that occurred, but were not recognized as part of net periodic cost, prior to the merger with Chesapeake Utilities in October 2009. This was previously deferred as a regulatory asset to be recovered through rates pursuant to an order by the FPSC. At December 31, 2019, this regulatory asset was fully amortized. Excluding the service cost component, the other components of the net periodic costs have been recorded or reclassified to other expense, net of tax, in the consolidated statements of income.

| Natural Gas Division | | | December 31, 2019 | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | |

FPU's funding policy provides that payments to the trustee shall be equal to at least the minimum funding requirements of the Employee Retirement Income Security Act of 1974.

The following schedule summarizes the assets of the FPU Pension Plan, by investment type, at December 31, 2019 and 2018:

| | As of December 31, | | | |
|-------------------|--------------------|------|--|--|
| Asset Category | 2019 | 2018 | | |
| Equity securities | 53% | 50% | | |
| Debt securities | 37% | 41% | | |
| Other | 10% | 9% | | |
| Total | 100% | 100% | | |

The investment policy for the FPU Pension Plan is designed to provide the capital assets necessary to meet the financial obligations of the plan. The investment goals and objectives are to achieve investment returns that, together with contributions, will provide funds adequate to pay promised benefits to present and future beneficiaries of the plan, earn a competitive return to increasingly fund a large portion of the plan's retirement liabilities, minimize pension expense and cumulative contributions resulting from liability measurement and asset performance, and maintain the appropriate mix of investments to reduce the risk of large losses over the expected remaining life of each plan.

The following allocation range of asset classes is intended to produce a rate of return sufficient to meet the FPU Pension Plan's goals and objectives:

Asset Allocation Strategy

| Asset Class | Minimum Allocation Percentage | Maximum Allocation Percentage |
|---|-------------------------------------|-------------------------------------|
| Domestic Equities (Large Cap, Mid Cap and Small Cap) | 14% | 32% |
| Foreign Equities (Developed and Emerging Markets) | 13% | 25% |
| Fixed Income (Inflation Bond and Taxable Fixed) | 26% | 40% |
| Alternative Strategies (Long/Short Equity and Hedge Fund of Funds) | 6% | 14% |
| Diversifying Assets (High Yield Fixed Income, Commodities, and Real Estate) | 7% | 19% |
| Cash | 0% | 5% |

Due to periodic contributions and different asset classes producing varying returns, the actual asset values may temporarily move outside of the intended ranges. The investments are monitored on a quarterly basis, at a minimum, for asset allocation and performance.

| Total Pension Plan Assets | | | | \$49,703 | | | | \$ 43,601 |

At December 31, 2019 and 2018, the assets of the FPU Pension Plan were comprised of the following investments:

⁽¹⁾ Includes funds that invest primarily in United States common stocks.

⁽²⁾ Includes funds that invest primarily in foreign equities and emerging markets equities.

⁽³⁾ Includes funds that actively invest in both equity and debt securities, funds that sell short securities and funds

that provide long-term capital appreciation. The funds may invest in debt securities below investment grade.

⁽⁴⁾ Includes funds that invest in investment grade and fixed income securities.

⁽⁵⁾ Includes funds that invest primarily in commodity-linked derivative instruments and fixed income securities.
 ⁽⁶⁾ Includes funds that invest primarily in real estate

⁽⁷⁾ Includes investment in a group annuity product issued by an insurance company.

⁽⁸⁾ Certain investments that were measured at net asset value per share have not been classified in the fair value hierarchy. These amounts are presented to reconcile to total pension plan assets.

| Florida Public Utilities Company | | | For the Year Ended | | | |
|----------------------------------|--|--|--------------------|--|--|--|
| Natural Gas Division | | | December 31, 2019 | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | |

At December 31, 2019 and 2018, all of the investments were classified under the same fair value measurement hierarchy (Level 1 through Level 3). Level 1 investments are recorded at fair value based on unadjusted quoted prices in active markets for identical investments. The Level 3 investments are recorded at fair value based on the contract value of annuity products underlining guaranteed deposit accounts, which was calculated using discounted cash flow models. The contract value of these products represented deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The following table sets forth the summary of the changes in the fair value of Level 3 investments for the FPU Pension Plan for the years ended December 31, 2019 and 2018:

| | For the Year Ended December 31, | | | | |
|--|---------------------------------|---------|----|---------|--|
| | | 2019 | | 2018 | |
| (in thousands) Balance, beginning of year | \$ | 433 | \$ | 274 | |

|----------------------------------|--|--|--------------------|--|--|--|
| Natural Gas Division | | | December 31, 2019 | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | |

Net periodic postretirement benefit costs for the FPU Medical Plan for 2019 and 2018 include the following components:

| | | For the Y Decer | | |
|--|-----------|--------------------|--------|-------|
| | 2 | 2019 | | 2018 |
| (<i>in thousands</i>) Net periodic cost – interest cost | \$ | 48 | \$ | 47 |
| Amortization of pre-merger regulatory asset | | 8 | | 8 |
| Total periodic cost ⁽¹⁾ | <u>\$</u> | 56 | \$ | 55 |
| Assumptions Discount rate | | 4.25% | / 0 | 3.75% |

The following table presents the amounts not yet reflected in net periodic benefit cost and included in accumulated other comprehensive income/loss or as a regulatory asset as of December 31, 2019:

| (in thousands) | FPU Pension Plan | FPU Medical Plan | Total |
|--|------------------------|----------------------------|--------|
| Net loss (gain) | \$ 19,339 | \$ (32) \$ | 19,307 |
| Accumulated other comprehensive loss (gain) pre-tax ⁽¹⁾ | \$ 3,674 | \$ (6) \$ | 3,668 |
| Post-merger regulatory asset | 15,665 | (26) | 15,639 |
| Subtotal | 19,339 | (32) | 19,307 |
| Pre-merger regulatory asset | | 6 | 6 |
| Total unrecognized cost | \$ 19,339 | \$ (26) \$ | 19,313 |

⁽¹⁾ The total amount of accumulated other comprehensive loss recorded in FPU's consolidated balance sheet as of December 31, 2019 is net of income tax benefits of \$0.9 million.

Assumptions

The assumptions used for the discount rate to calculate the benefit obligations of all the FPU plans were based on the interest rates of high-quality bonds in 2019, considering the expected lives of each of the plans. In determining the average expected return on plan assets for the FPU Pension Plan, various factors, such as historical long-term return experience, investment policy and current and expected allocation, were considered. Since the FPU Pension Plan is frozen with respect to additional years of service and compensation, the rate of assumed compensation increases is not applicable.

The health care inflation rate for 2019 used to calculate the benefit obligation is 5.0 percent for the FPU Medical Plan.

| Florida Public Utilities Company | | | For the Year Ended | | | | |
|----------------------------------|--|--|--------------------|--|--|--|--|
| Natural Gas Division | | | December 31, 2019 | | | | |
| NOTES TO FINANCIAL STATEMENTS | | | | | | | |

Estimated Future Benefit Payments

In 2020, FPU expects to contribute \$3.2 million and \$0.1 million to the FPU Pension Plan and FPU Medical Plan, respectively. The schedule below shows the estimated future benefit payments for each of the plans previously described:

| | FPU Pension Plan ⁽¹⁾ | FPU Medical Plan ⁽²⁾ |
|-------------------------|---|---|
| (in thousands) | | |
| 2020 | \$ 3,281 | \$ 86 |
| 2021 | \$ 3,348 | \$ 90 |
| 2022 | \$ 3,424 | \$ 91 |
| 2023 | \$ 3,498 | \$ 79 |
| 2024 | \$ 3,549 | \$ 80 |
| Years 2025 through 2029 | \$ 18,429 | \$ 389 |

⁽¹⁾ The pension plan is funded; therefore, benefit payments are expected to be paid out of the plan assets.

⁽²⁾ Benefit payments are expected to be paid out of FPU's general funds.

Retirement Savings Plan

We offer the Chesapeake Utilities 401(k) Retirement Savings Plan to all eligible employees who have completed three months of service, except for employees represented by a collective bargaining agreement that does not specifically provide for participation in the plan, non-resident aliens with no U.S. source income and individuals classified as consultants, independent contractors or leased employees. Chesapeake Utilities matches 100 percent of eligible participants' pre-tax contributions to the Chesapeake Utilities 401(k) Retirement Savings Plan up to a maximum of six percent of eligible compensation. The employer matching contribution is made in cash and is invested based on a participant's investment directions. In addition, Chesapeake Utilities may make a discretionary supplemental contribution to participants in the plan, without regard to whether or not they make pre-tax contributions. Any supplemental employer contribution is generally made in Chesapeake Utilities' common stock. With respect to the employer match and supplemental employer contribution, employees are 100 percent vested after two years of service or upon reaching 55 years of age while still employed by Chesapeake Utilities. Employees with one year of service are 20 percent vested and will become 100 percent vested after two years of service. Employees who do not make an election to contribute or do not opt out of the Chesapeake Utilities 401(k) Retirement Savings Plan will be automatically enrolled at a deferral rate of three percent, and the automatic deferral rate will increase by one percent per year up to a maximum of ten percent. All contributions and matched funds can be invested among the mutual funds available for investment. Our contributions to the Chesapeake Utilities 401(k) Retirement Savings Plan net of a portion capitalized, totaled \$0.5 million for both years ended December 31, 2019 and 2018.

Chesapeake Utilities' executive officers and directors are eligible to participate in the Chesapeake Utilities Corporation Non-Qualified Deferred Compensation Plan. Executive officers can defer up to 80 percent of their base compensation, cash bonuses or any amount of their stock bonuses (net of required withholdings). Executive officers may receive a matching contribution on their cash compensation deferrals up to six percent of their compensation, provided it does not duplicate a match they receive in the Chesapeake Utilities 401(k) Retirement Savings Plan. For each of the years ended December 31, 2019 and 2018, the amounts matched to FPU's participants in this plan, who are our employees were immaterial.

| Natural Gas Division | | | December 31, 2019 |
| NOTES TO FINANC | IAL STATEM | ENTS | |

8. Share-Based Compensation

One of our executives has been granted share-based awards through Chesapeake Utilities' Stock Incentive Compensation Plan ("SICP"). We record these share-based awards as compensation costs over the respective service period for which services are received in exchange for an award of equity or equity-based compensation. The compensation cost is based primarily on the fair value of shares awarded, using the estimated fair value of each share on the date it was granted and the number of shares to be issued at the end of the service period.

These awards are based on multi-year performance plans, which are earned based upon the successful achievement of long-term goals, growth and financial results, which comprised both market-based and performance-based conditions or targets. The fair value of each share of stock tied to a performance-based condition or target is equal to the market price of Chesapeake Utilities common stock on the date of the grant. For the market-based conditions, we used the Black-Scholes pricing model to estimate the fair value of each share of market-based award granted.

For the year ended December 31, 2019, we were allocated \$0.1 million in total compensation expense related primarily to the FPU officer that participates in Chesapeake Utilities' share-based compensation plan. The amount allocated to us for the year ended December 31, 2018, was immaterial.

The weighted average grant-date fair value of Chesapeake Utilities SICP awards granted during 2019 and 2018 was \$92.74 and \$67.76, respectively. The intrinsic value of these awards was \$0.9 million and \$1.4 million for 2019 and 2018, respectively. At December 31, 2019, there was \$0.4 million of unrecognized compensation cost related to these awards, which is expected to be recognized during 2020 and 2021, assuming certain performance levels are achieved.

9. Rates and Other Regulatory Activities

Effect of the TCJA on customers: In February 2018, the FPSC opened dockets to consider the impacts associated with the TCJA. In May 2018, we filed petitions and supporting testimony regarding the disposition of the related impacts of the TCJA. Hearings on this matter took place in November 2018, The FPSC approved staff's recommendations on February 5, 2019. Final orders were issued on February 25, 2019, and became final after a 30-day appeal period. The order stated that: (1) the net ADIT liability of \$19.2 million would be amortized and retained by us pursuant to the prescribed schedule; (2) excluding GRIP, tax savings arising from the TCJA rate reduction will be retained by us; and (3) tax savings for GRIP for 2018 will be refunded to customers in 2020 through the annual GRIP cost recovery mechanism and future customer GRIP surcharges will be adjusted to reflect tax savings associated with TCJA.

Natural Gas Depreciation Study: In March 2019, we filed a petition, with the FPSC, for approval of our consolidated natural gas depreciation rates. The petition was approved by the FPSC at Agenda on October 3, 2019. The new rates were effective retroactive to January 1, 2019.

10. Environmental Commitments and Contingencies

We are subject to federal, state and local laws and regulations governing environmental quality and pollution control. These laws and regulations require us to remove or remediate at current and former operating sites the effect on the environment of the disposal or release of specified substances.

We have participated in the investigation, assessment or remediation, and have exposures at four former manufactured gas plant ("MGP") sites. Those sites are located in West Palm Beach, Sanford, Key West and Pensacola, Florida.

As of December 31, 2019 and 2018, we had approximately \$8.0 million and \$9.1 million, respectively, in environmental liabilities related to all of the MGP sites, representing our estimate of the future costs associated with those sites. These amounts are reflected in environmental liabilities in the accompanying balance sheets. We have approval to recover up to \$14.0 million of the environmental costs related to all of our MGP sites from insurance and from customers through rates, approximately \$11.9 million of which has been recovered as of December 31, 2019. We had approximately \$2.1 million in regulatory assets for future recovery of environmental costs from our customers.

| Florida Public Utilities Company | | | For the Year Ended |
|----------------------------------|------------|------|--------------------|
| Natural Gas Division | | | December 31, 2019 |
| NOTES TO FINANC | IAL STATEM | ENTS | |

Environmental liabilities for our MGP sites are recorded on an undiscounted basis based on the estimate of future costs provided by independent consultants. We continue to expect that all costs related to environmental remediation and related activities, including any potential future remediation costs for which we do not currently have approval for regulatory recovery, will be recoverable from customers through rates. The following is a summary of our remediation status and estimated costs to implement clean-up of our key MGP sites:

| Jurisdiction | MGP Site | Status | Cost to Clean up | Recovery through Rates |
|--------------|-----------------|--|---|------------------------------|
| Florida | West Palm Beach | Remedial actions approved by FDEP have been implemented on the east parcel of the site. We expect to implement similar remedial actions on the site's west parcel in 2020. | Between \$4.5 million to \$15.4 million, including costs associated with the relocation of our operations at this site, and any potential costs associated with future redevelopment of the properties. | Yes |
| Florida | Sanford | On March 1, 2018, the EPA approved a "site-wide ready for anticipated use" status, which is the final step before delisting a site. Construction has been completed and restrictive covenants are in place to ensure protection of human health. The only remaining activity is long-term groundwater monitoring. | Our remaining remediation expenses, including attorneys' fees and costs, are anticipated to be immaterial. | Yes |

11. Other Commitments and Contingencies

We have entered into contractual commitments to purchase natural gas from various suppliers. The contracts have various expiration dates. The total purchase obligations for natural gas are \$15.0 million for 2020, \$19.4 million for 2021-2022, \$19.2 million for 2023-2024 and \$112.2 million thereafter, with an aggregate total of \$165.8 million.

We are involved in certain other legal actions and claims arising in the normal course of business. We are also involved in certain legal proceedings and administrative proceedings before various governmental agencies concerning rates. In the opinion of management, the ultimate disposition of these proceedings will not have a material effect on our financial position, results of operations or cash flows.

12. Revenue from Contracts with Customers

Customer Revenue

We recognize revenue when our performance obligations under contracts with customers have been satisfied, which generally occurs when we have delivered natural gas to customers. We bill customers for both the delivery of natural gas and the related commodity, as our customers are also required to purchase the commodity from us. We consider the delivery of natural gas and the related commodity sale as one performance obligation because the commodity and its delivery are highly interrelated with two-way dependency on one another. Our performance obligation is satisfied over time as natural gas is delivered and consumed by the customer. We recognize revenues based on monthly meter readings, which are based on the quantity of natural gas used and rates approved by the FPSC. We accrue unbilled revenues for natural gas that have been delivered, but not yet billed, at the end of an accounting period, to the extent that billing and delivery do not coincide. We exclude sales taxes and other similar taxes from the transaction price. Typically, our

| Florida Public Utilities Company | | | For the Year Ended |
|----------------------------------|------------|------|--------------------|
| Natural Gas Division | | | December 31, 2019 |
| NOTES TO FINANC | IAL STATEM | ENTS | |

customers pay for the goods and/or services we provide in the month following the satisfaction of our performance obligation.

Contract Balances

The timing of revenue recognition, customer billings and cash collections results in trade receivables, unbilled receivables (contract assets), and customer advances (contract liabilities) in our balance sheets. As of December 31, 2019 and 2018, the balance of our trade receivables, net of provision for uncollectable accounts, was \$7.1 million and \$7.8 million, respectively. As of December 31, 2019 and 2018, there were no material contract assets or liabilities recorded on the Comparative Balance Sheet.

Remaining performance obligations

We have long-term fixed fee contracts with customers in which revenues are recognized as performance obligations are satisfied over the contract term. Revenue for the remaining performance obligations at December 31, 2019 are expected to be recognized as follows:

| | 2020 | 2021 | 2022 | 2023 | 2024 | 2025 and thereafter |
|-------------------------------------|-------|-------|-------|-------|-------|---------------------|
| (in thousands) | | | | | | |
| Natural gas distribution operations | \$600 | \$220 | \$220 | \$220 | \$220 | \$458 |

Practical expedients

For agreements that contain variable consideration, we use the invoice practical expedient method. We determined that the amounts invoiced to customers correspond directly with the value to our customers and our performance to date.

December 31, 2019

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, allocation, assignment, or sharing of the consolidated tax among the group members.

Florida Public Utilities Company

Natural Gas Division

For the Year Ended

December 31, 2019

GAS OPERATING REVENUES (Account 400)

1. Report below natural gas operating revenues for each prescribed account in total. 2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for

 Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.

3. Report quantities of natural gas sold in therms (14.73 psia at 60 F).

4. Report gas service revenues and therms sold by rate schedule.

5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain

any inconsistencies in a footnote.

December 31, 2019

REGULATORY COMMISSION EXPENSES (Account 928)

| 1. Report particulars (details) of regulatory commission expenses incurred during |
|--|
| the current year (or incurred in previous years if being amortized) relating to formal |
| cases before a regulatory body, or cases in which such a body was a party. |
| 2. Show in column (h) any expenses incurred in prior years which are being |
| amortized. List in column (a) the period of amortization. |

3. The totals of columns (c), (f), (h), and (i) must agree with the totals shown at the bottom of page 19 for Account 186
4. List in Column (d) and (e) expenses incurred during year which were charged currently to income, plant, or other accounts.

were charged currently to income, plant, or other accounts. 5. Minor items (less than \$25,000) may be grouped.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

| 10 | Total Gross Operating Revenues | \$ 85,642,684 | | \$ 85,642,684 | 85,642,684 | \$- |

Notes:

Account 496 - Provision for Rate Refunds for 2018 was reported in Total Sales to Ultimate Customers in error on the Company's Regulatory Assessment Fee Return. The entry for the Provision for Rate Refunds related to TCJA for 2018 was reversed in 2019 due to the decision in FPSC Docket No. 20180054-GU.
