

Independent Auditors' Report

Board of Directors and Stockholder Chesapeake Utilities Corporation – Florida Divison

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Chesapeake Utilities Corporation – Florida Division which comprise the balance sheets-regulatory basis as of December 31, 2022 and 2021, and the related statements of incomeregulatory basis for the years then ended, and the statement of retained earnings-regulatory basis for the year ended December 31, 2022, and the related notes to the financial statements included on pages 11.1 through 11.13 of the accompanying Annual Report of Natural Gas Utilities, as filed with the Florida Public Service Commission.

In our opinion, the accompanying regulatory basis financial statements referred to above present fairly, in all material respects, the assets, liabilities, and proprietary capital of Chesapeak Utilities Corporation – Florida Division as of December 31, 2022 and 2021, and its income and expenses for the years then ended in accordance with the financial reporting provisions of the Florida Public Service Commission, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases described in Note 1.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Chesapeake Utilities Corporation – Florida Division and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. As described in Note 1 to the financial statements, the financial statements are prepared by Chesapeake Utilities Corporation – Florida Division on the basis of the financial reporting provisions of the Public Service Commission of Florida, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Public Service Commission of Florida, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Chesapeake Utilities Corporation Florida Division's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about Chesapeake Utilities Corporation Florida Division's ability to continue as
 a going concern for a reasonable period of time.

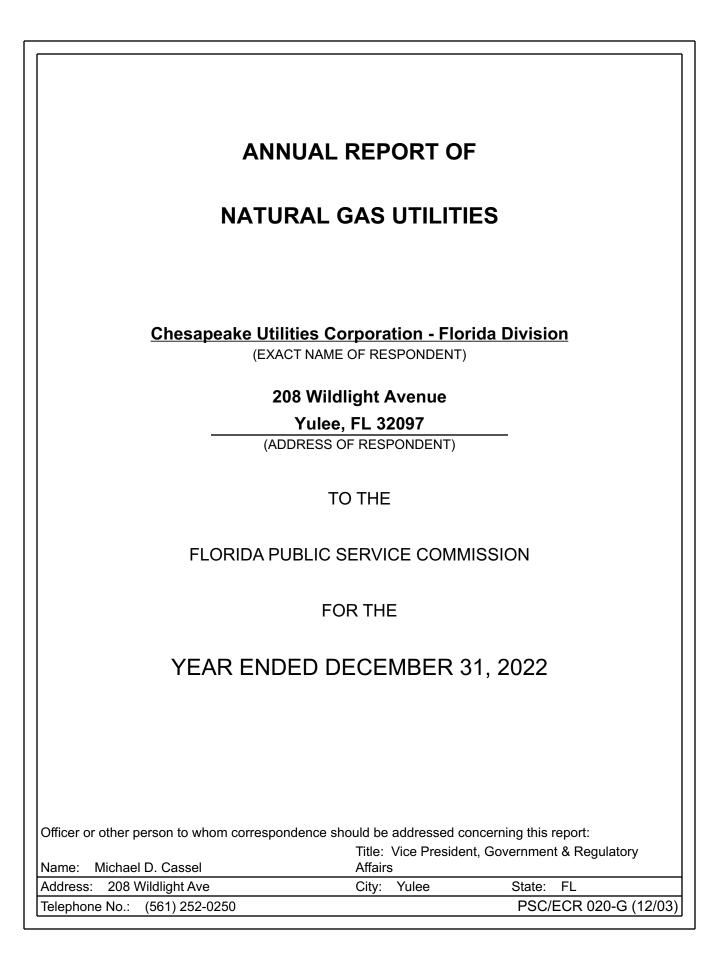

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Restriction on Use

Our report is intended solely for the information and use of management of Chesapeake Utilities Corporation, Chesapeake Utilities Corporation – Florida Division and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

Baker Tilly US, LLP

Philadelphia, Pennsylvania April 28, 2023

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.
- V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.
- VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.
- VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

- I. <u>Btu per cubic foot -</u> The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)
- II. <u>Respondent -</u> The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

CONTROL OVE	R RESPONDENT
1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or	organization. If control was held by a trustee(s), state name of trustee(s). 2. If the above required information is available from the SEC 10K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible.

CORPORATIONS CONTROLLED BY RESPONDENT						
 Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests. If control was held jointly with one or more other interests. If control was held jointly with one or more other interests. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible. 						
DEFINITIONS						
 See the Uniform System of Accounts for a definition of control. Direct control is that which is exercised without interposition of an intermediary. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control. Joint control is that in which neither interest can effectively Control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not compiled within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the hames of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.

vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent if contingent, describe the contingency.

3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders.

2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter "none" "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears. 1. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions.

2. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required.

3. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased also the approximate number of customers added or lost and approximate annual revenues of each class of service.

4. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.

5. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.

^(a) In May 2022, Chesapeake Utilities' natural gas distribution businesses in Florida (FPU, FPU-Indiantown division, FPU-Fort Meade division and Chesapeake Utilities CFG division, collectively, "Florida natural gas distribution businesses") filed a consolidated natural gas rate case with the FPSC. The application also included a request for the authorization to make certain changes to tariffs to include the consolidation of rates and rate structure across the businesses and to unify the Florida natural gas distribution businesses under FPU. In January 2023, the FPSC approved the application for permanent rate increase and the requested consolidation of rates, rate structure across the businesses as well as unification of the Florida natural gas distribution businesses under FPU, among other regulatory items. The Company will consolidate the Florida natural gas business units in 2023.

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

 Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
 For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and

See Notes to the Financial Statements attached.

plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof. 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

1. Organization and Basis of Presentation

The Florida Division ("we," "our," "us" or "CFG") of Chesapeake Utilities Corporation ("Chesapeake Utilities" or the "Company") is engaged in the distribution of natural gas. We provide only unbundled delivery service to approximately 21,000 residential, commercial and industrial customers in Polk, Osceola, Citrus, DeSoto, Hillsborough, Holmes, Jackson, Gadsden, Gilchrist, Union, Washington and Suwannee counties in Florida. Our rates and services are subject to regulation by the Florida Public Service Commission ("FPSC").

Our financial statements are prepared in conformity with the accounting requirements of the FPSC, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission ("FERC") as set forth in the applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("US GAAP"). The accounting requirements of the FPSC and the FERC applied by us in these financial statements are generally consistent with US GAAP, with certain exceptions including:

- lack of reclassification of certain negative balances on the balance sheets;
- the presentation of deferred income tax assets and liabilities separately rather than as a single amount;
- the presentation of cost of removal as a component of accumulated depreciation rather than as a regulatory liability;
- lack of detail property, plant and equipment component costs disclosure;
- lack of detail regulatory assets and liability disclosure;
- the omission of the statements of cash flows;
- the omission of the statement of retained earnings for prior year for a comparative presentation;
- the presentation of pass-through revenue taxes, such as gross receipts taxes, franchise taxes and sales taxes, as revenues and operating expenses rather than on a net basis;
- presentation of the components of net benefit costs in operating expenses whereas for U.S. GAAP only the service component is presented in operating expenses; and
- the presentation of operating leases' right-of-use asset and lease liability in the FERC balance sheet accounts for capital lease assets and liabilities.

Our financial statements include the accounts of the Florida Division of Chesapeake Utilities. We do not have any ownership interest in investments accounted for using the equity method or any variable interests in a variable interest entity. We have assessed and reported on subsequent events through April 28, 2023, the date these financial statements are available to be issued. If and where necessary to improve comparability, prior period amounts have been changed to conform to current period presentation.

Effects of COVID-19

In March 2020, the CDC ("U.S. Centers for Disease Control and Prevention") declared a national emergency due to the rapidly growing outbreak of COVID-19. In response to this declaration and the rapid spread of COVID-19 within the United States, federal, state and local governments throughout the country imposed varying degrees of restrictions on social and commercial activity to promote social distancing in an effort to slow the spread of the illness. These restrictions significantly impacted economic conditions in the United States beginning in 2020 and persisted throughout 2022, though significantly lesser extent. Chesapeake Utilities is considered an "essential business," which allowed us to continue operational activities and construction projects while adhering to the social distancing restrictions that were in place. At this time, restrictions have predominantly been lifted as vaccines have become widely available in the United States. Previously existing states of emergency in all of our service territories expired during the second and third quarters of 2021 eliminating a majority of restrictions initially implemented to slow the spread of the virus. The expiration of the states of emergency along with the settlement of our limited proceeding in Florida concluded our ability to defer incremental pandemic related costs for consideration through the applicable regulatory process. We adjusted our operating practices accordingly to ensure the safety of our operations and will take the necessary actions to comply with the CDC, and the Occupational and Safety and Health Administration, as new developments occur.

2. Summary of Significant Accounting Policies

Use of Estimates

Our financial statements are prepared based on the accounting requirements of the FPSC and the FERC, which require management to make estimates in measuring assets and liabilities and related revenues and expenses. These estimates involve judgments with respect to, among other things, various future economic factors that are difficult to predict and are beyond our control; therefore, actual results could differ from those estimates. As additional information becomes available, or actual amounts are determined, recorded estimates are revised. Consequently, operating results can be affected by revisions to prior accounting estimates.

Utility Plant

Utility plant is stated at the lower of original cost less accumulated depreciation or fair value, if impaired. Costs include direct labor, materials and third-party construction contractor costs, allowance for funds used during construction ("AFUDC") and certain indirect costs related to equipment and employees engaged in construction. The costs of repairs and minor replacements are charged to expense as incurred, and the costs of major renewals and betterments are capitalized. Upon retirement or disposition of utility property, the gain or loss, net of salvage value, is charged to accumulated depreciation.

Customer contributions or advances in aid of construction reduce property, plant and equipment, unless the amounts are refundable to customers. Contributions or advances may be refundable to customers after a number of years based on the amount of revenues generated from the customers or the duration of the service provided to the customers. Refundable contributions or advances are recorded initially as liabilities. The amounts that are determined to be non-refundable reduce property, plant and equipment at the time of such determination. As of December 31, 2022, and 2021 there were \$0.5 million and \$0.2 million, respectively, of non-refunded contributions or advances reducing property, plant and equipment.

AFUDC represents the estimated cost of funds, from both debt and equity sources, used to finance the construction of major projects. AFUDC is capitalized in rate base for rate making purposes when the completed projects are placed in service. We did not capitalize AFUDC on utility plant for the years ended December 31, 2022 or 2021.

Asset Impairment Evaluations

We periodically evaluate whether events or circumstances have occurred which indicate that other long-lived assets may not be fully recoverable. The determination of whether an impairment has occurred is based on an estimate of undiscounted future cash flows attributable to the asset, compared to the carrying value of the asset. When such events or circumstances are present, we record an impairment loss equal to the excess of the asset's carrying value over its fair value if any. We did not record an impairment loss during 2022 or 2021.

Depreciation

We compute depreciation expense by applying composite, annual rates, as approved by the FPSC. Depreciation and amortization expenses are provided at an annual average rate of 2.5 percent and 2.6 percent for the years ended 2022 and 2021, respectively.

In accordance with the accounting requirements of the FERC, we include the accretion of the cost of removal for future retirements of utility assets as depreciation expense. For both of the years ended December 31, 2022 and 2021, \$0.4 million of such accretion was included in depreciation expense. We also report certain depreciation expense, mainly related to vehicle, computer software and hardware, in operation expenses rather than depreciation expense to comply with the accounting requirements of the FERC. For each of the years ended December 31, 2022 and 2021, less than \$0.1 million, of such depreciation was reported as operation expenses.

Regulated Operations

We account for our operations in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 980, *Regulated Operations*. This Topic includes accounting principles for companies whose rates are determined by independent third-party regulators. When setting rates, regulators often make decisions, the economics of which require companies to defer costs or revenues in different periods than may be appropriate for unregulated enterprises. When this situation occurs, a regulated company defers the associated costs as regulatory assets on the balance sheet and records them as expense on the income statement as it collects revenues. Further, regulators can also impose liabilities upon a regulated company for amounts previously collected from customers, and for recovery of costs that are expected to be incurred in the future, as regulatory liabilities. If we were required to terminate the application of these regulatory provisions to our operations, all such deferred amounts would be recognized in the statement of income at that time, which could have a material impact on our financial position, results of operations and cash flows.

We monitor our regulatory and competitive environment to determine whether the recovery of our regulatory assets continues to

be probable. If we were to determine that recovery of these assets is no longer probable, we would write off the assets against earnings. We believe that provisions of ASC Topic 980, *Regulated Operations*, continue to apply to our operations and that the recovery of our regulatory assets is probable.

Revenue Recognition

Our operating revenues are based on rates approved by the FPSC. We read meters and bill customers on monthly cycles that do not coincide with the accounting periods used for financial reporting purposes. We accrue unbilled revenues for natural gas that has been delivered, but not yet billed, at the end of an accounting period.

We do not have any purchased fuel cost adjustments included in our revenues because we provide unbundled delivery service to our customers, whereby our customers are permitted to purchase their gas requirements directly from competitive natural gas marketers.

For agreements that contain variable consideration, we use the invoice practical expedient method. We determined that the amounts invoiced to customers correspond directly with the value to our customers and our performance to date.

Operation and Maintenance Expenses

Major cost components of operations and maintenance expense include operation and maintenance salaries and benefits, materials and supplies, usage of vehicles, tools and equipment, payments to contractors, utility plant maintenance, customer service, professional fees and other outside services, insurance expense, depreciation and other administrative expenses. Depreciation and accretion included in operations expense consists of the accretion of the costs of removal for future retirements of utility assets, vehicle depreciation, computer software and hardware depreciation, and other minor amounts of depreciation expense.

Cash and Cash Equivalents

Our cash is held in Chesapeake Utilities' name. Chesapeake Utilities' policy is to invest cash in excess of operating requirements in overnight income producing accounts. Investments with an original maturity of three months or less when purchased are considered cash equivalents.

Accounts Receivable and Accumulated Provision for Uncollectible Accounts

Accounts receivable consist primarily of amounts due for distribution sales of natural gas to customers. An allowance for doubtful accounts is recorded against amounts due to reduce the receivables balance to the amount we reasonably expect to collect based upon our collections experiences and our assessment of customers' inability or reluctance to pay. If circumstances change, our estimates of recoverable accounts receivable may also change. Circumstances which could affect such estimates include, but are not limited to, customer credit issues and general economic conditions. Accounts are written off when they are deemed to be uncollectible.

Our estimate for expected credit losses has been developed by analyzing our portfolio of financial assets that present potential credit exposure risk. These assets consist solely of our trade receivables from customers and contract assets. The estimate is based on five years of historical collections experience, a review of current economic and operating conditions in our service territories, and an examination of economic indicators which provide a reasonable and supportable basis of potential future activity. Those indicators include metrics which we believe provide insight into the future collectability of our trade receivables such as unemployment rates and economic growth statistics in our service territory.

When determining estimated credit losses, we analyzed the balance of our trade receivables based on our business. As a regulated energy business, we have the ability to recover our costs through the rate making process, which can include consideration for amounts historically written off to be included in rate base. Therefore, we possess a mechanism to recover credit losses which we believe reduces our exposure to credit risk.

Our estimate of expected credit losses reflects our anticipated losses associated with our trade receivables as a result of nonpayment from our customers beginning the day the trade receivable is established. We believe the risk of loss associated with trade receivables classified as current presents the least amount of credit exposure risk and therefore, we assign a lower estimate to our current trade receivables. As our trade receivables age outside of their expected due date, our estimate increases. Our allowance for credit losses relative to the balance of our trade receivables has historically been immaterial as a result of on time payment activity from our customers

The below table provides the changes in the balance of our allowance for credit losses for the year ended December 31, 2022: *(in thousands)*

Balance at December 31, 2021	\$ 74
Additions:	
Provision for credit losses	86
Recoveries and other	80
Deductions:	
Write offs	 (82)
Balance at December 31, 2022	\$ 158

Inventories

We use the average cost method to value materials and supplies inventory. If market prices drop below cost, inventory balances that are subject to price risk are adjusted to net realizable value. There was no lower-of-cost-or-net realizable value adjustment for the years ended December 31, 2022 or 2021.

Pension and Other Postretirement Plans

Postretirement plan costs and liabilities are determined on an actuarial basis and are affected by numerous assumptions and estimates, including the fair value of plan assets, estimates of the expected returns on plan assets, assumed discount rates, the level of contributions made to the plans, and current demographic and actuarial mortality data. We review annually the estimates and assumptions underlying our other postretirement plan costs and liabilities with the assistance of third-party actuarial firms. The assumed discount rates, health care cost trend rates and rates of retirement generally have the most significant impact on our postretirement plan costs and liabilities.

The Chesapeake Utilities' pension plan was fully terminated during the fourth quarter of 2021. The assumed health care cost trend rates and the assumed rates of retirement generally would not have an impact on the postretirement and supplemental executive retirement plans because these plans are not funded.

Income Taxes and Investment Tax Credit Adjustments

Deferred tax assets and liabilities are recorded for the income tax effect of temporary differences between the financial statement basis and tax basis of assets and liabilities and are measured using the enacted tax rates in effect in the years in which the differences are expected to reverse. The portions of our deferred tax liabilities, which have not been reflected in current service rates, represent income taxes recoverable through future rates. Deferred tax assets are recorded net of any valuation allowance when it is more likely than not that such tax benefits will be realized. Investment tax credits on utility property have been deferred and are allocated to income ratably over the lives of the subject property.

We account for uncertainty in income taxes in the financial statements only if it is more likely than not that an uncertain tax position is sustainable based on technical merits. Recognizable tax positions are then measured to determine the amount of benefit recognized in the financial statements. We recognize penalties and interest related to unrecognized tax benefits as a component of other income.

Financial Instruments

Financial assets and liabilities with carrying values approximating fair value include accounts receivable, accounts payable and other accrued liabilities.

FASB Statements and Other Authoritative Pronouncements

Recently Accounting Standards

There are no pending or recently effective accounting standards that have had, or are expected to have, a material impact on our financial statements or disclosures.

3. Transaction with Affiliates

We utilize Chesapeake Utilities' short-term borrowing facilities and long-term debt to finance our capital requirements. The excess cash generated above our operating cash requirement is held in Chesapeake Utilities' name. We are allocated a portion of interest expense on Chesapeake Utilities' short-term borrowing facilities and long-term debt and interest income generated from our excess cash held in Chesapeake Utilities' name. Chesapeake Utilities allocated a net interest expense of \$1.7 million and \$1.5 million for the years ended December 31, 2022 and 2021, respectively.

At December 31, 2022 and 2021, we had a net advance from Chesapeake Utilities and its affiliates of \$30.1 million and \$34.2 million, respectively. These amounts are reflected as accounts payable to associated companies in the accompanying balance sheet.

Chesapeake Utilities provides us with administrative and support services. These services include certain managerial, accounting, information technology, payroll, human resources and treasury. For the years ended December 31, 2022 and 2021, Chesapeake Utilities and subsidiaries charged us \$3.7 million for these services. Chesapeake Utilities also provides us with shared services which include safety and customer care services. Chesapeake Utilities and subsidiaries charged us \$1.5 million for these services for the years ended December 31, 2022 and December 31, 2021.

Florida Public Utilities Company ("FPU"), a subsidiary of Chesapeake Utilities in Florida, provides us certain managerial, operations, maintenance and customer service functions. For the years ended December 31, 2022 and 2021, FPU charged us \$7.6 million and \$7.4 million, respectively, for these services.

4. Income Taxes

We are included in the Chesapeake Utilities consolidated federal income tax return, along with all of Chesapeake Utilities' other divisions and subsidiaries. We also file state income tax returns in Florida as part of Chesapeake Utilities. Income taxes are allocated to us based on our taxable income and tax credits as if we were a separate taxpayer. State income tax returns for Chesapeake Utilities for tax years after 2019 are subject to examination.

As of December 31, 2022 and 2021, we did not have net operating losses ("NOL") for state income tax purposes.

Tax Law Changes

In March 2020, the CARES Act was signed into law and included several significant changes to the Internal Revenue Code. The CARES Act includes certain tax relief provisions including the ability to carryback five years net operating losses arising in a tax year beginning in 2018, 2019, or 2020. This provision allows a taxpayer to recover taxes previously paid at a 35 percent federal income tax rate during tax years prior to 2018. In addition, the CARES Act removed the taxable income limitation to allow a tax NOL to fully offset taxable income for tax years beginning before January 1, 2021. Tax benefits associated with this legislation were not available for the year ended December 31, 2022. As a result, our income tax expense for the year ended December 31, 2021 included a tax benefit \$0.9 million, attributable to the tax NOL carryback provided under the CARES Act for losses generated in 2018 and 2019 and then applied back to our 2013 and 2015 tax years in which we paid federal income taxes at a 35 percent tax rate.

On December 22, 2017, President Trump signed into law the TCJA. Substantially all of the provisions of the TCJA were effective for taxable years beginning on or after January 1, 2018. The provisions that significantly impacted us include the reduction of the corporate federal income tax rate from 35 percent to 21 percent. Our federal income tax expense for periods beginning on January 1, 2018 and thereafter are based on the new federal corporate income tax rate. The TCJA included changes to the Internal Revenue Code, which materially impacted our 2017 financial statements. ASC 740, Income Taxes, requires recognition of the effects of changes in tax laws in the period in which the law is enacted. ASC 740 requires deferred tax assets and liabilities to be measured at the enacted tax rate expected to apply when temporary differences are to be realized or settled. During 2018, we completed the assessment of the impact of accounting for certain effects of the TCJA. At the date of enactment in 2017, we remeasured deferred income taxes based upon the new corporate tax rate. See Note 9, *Rates and Other Regulatory Activities*, for discussion on effects of TCJA on rate payers.

The components of federal and state income tax expense are:

For the Year Ended December 31,	2022	2021
(in thousands)		
Current	\$ 1,596	\$ 851
Deferred	316	670
	\$ 1,912	\$ 1,521

Deferred tax expense results primarily from the use of accelerated depreciation for tax purposes and deferred fuel costs. Total income tax expense results primarily from applying the federal income tax statutory rate to book income before tax.

For the Year Ended December 31,	2022	2021
(<i>in thousands</i>) Federal income tax expense, 21% in 2022 and 2021	\$ 1,519	\$ 1,268
State income taxes	433	¢ 1,200 29
Other	(40)	224
	\$ 1,912	\$ 1,521

Deferred tax assets and liabilities at December 31, 2022 were \$0.9 million and \$13.0 million, respectively. Deferred tax assets and liabilities at December 31, 2021 were \$1.1 million and \$12.8 million, respectively. Deferred tax assets are primarily the result of timing differences associated with storm reserves and state decoupling as well as the impact of rate changes due to the TCJA. Deferred tax liabilities are primarily the result of depreciation-related timing differences.

5. Customer Concentration

We operate entirely in the natural gas distribution business. Our operations include the transportation of natural gas in intra-state commerce. There was one customer who accounted for more than 10% of our total revenue for the years ended December 31, 2022 and 2021.

6. Leases

We have operating lease arrangements for facilities that enable us to better conduct business operations in our service territory, provide adequate workspace for all our employees and to store equipment and materials used in repairs and maintenance for our businesses. We recover amounts paid for a lease agreement for pipeline assets owned by a commercial customer for use in providing service to that party through the operational balancing account mechanism of the FPSC's ongoing purchased gas cost recovery proceedings.

Upon adoption of *ASC 842*: *Leases*, and with the permission from the FERC as provided in Docket No. AI19-1-000, Right of Use ("ROU") assets and liabilities in connection with operating leases were recorded in the FERC balance sheet accounts that have already been established for capital lease assets and liabilities (Accounts 101.1, 227 and 243). Amounts recorded for the lease assets and the related obligations are reduced by equal and offsetting amount over the lease term. There is no change in the recording of expenses related to lease arrangements which will continue to be recorded in accordance with the FERC's regulations and only amounts paid under a lease agreement will be recorded in the income statement.

As of December 31, 2022 and 2021, our ROU assets and lease liabilities for operating leases were included within the following FERC accounts:

Description	2022	2021
(in thousands)		
ROUAsset	\$ 284 \$	514
ROU Liability - Current	\$ (140) \$	(148)
ROU Liability - Non-Current	\$ (15) \$	(206)

Rent expense related to these lease agreements was \$0.2 million and less than \$0.1 million for the years ended December 31, 2022 and 2021, respectfully, and will continue to be included within the cost-of-service rates. We have adhered to the FERC requirements as provided in Docket No. AI19-1-000 and are maintaining unique subaccounts to separately identify and track the capitalized operating lease amounts and have in place effective internal controls to ensure there is no impact to the existing ratemaking treatment or practices for leases.

The following table presents the future undiscounted maturities of operating leases allocated to us at December 31, 2022 and for each of the next five years and thereafter:

<u>(in thousands)</u>	Operatii	ng Leases
2023	\$	142
2024		8
2025		8
2026		—
2027		—
Thereafter		
Total lease payments		158
Less: Interest		3
Present value of lease liabilities	\$	155

7. Employee Benefit Plans

Our eligible employees participate in various benefit plans sponsored by Chesapeake Utilities. Chesapeake Utilities allocates to us a portion of the benefit costs associated with these plans. Our share of the costs is based on a portion of the benefits related to providing services to us. For each of the years ended December 31, 2022 and 2021, we recorded the benefit costs of \$0.2 million and \$0.6 million, respectively, related to these plans.

Chesapeake Utilities sponsors an unfunded supplemental executive retirement plan ("Chesapeake Utilities SERP"), and an unfunded postretirement health care and life insurance plan ("Chesapeake Utilities Postretirement Plan"). Chesapeake Utilities also sponsors other postretirement plans for eligible employees of a specific subsidiary, in which our eligible employees cannot participate.

Chesapeake Utilities measures the assets and obligations of the defined benefit pension plans and other postretirement benefits plans to determine the plans' funded status as of the end of the year as an asset or a liability on Chesapeake Utilities' consolidated balance sheets. A portion of this asset or liability related to us is reflected on our balance sheet. At December 31, 2022 and 2021, less than \$0.1 million of the postretirement benefit liabilities were assigned to us.

Defined Benefit Pension Plans

During the fourth quarter of 2021, Chesapeake Utilities formally terminated the Chesapeake Pension Plan. Accordingly, a portion of the pension settlement expense associated with the termination was allocated to our Regulated Energy operations and was recorded as regulatory assets, previously approved in all of the impacted jurisdictions. The remaining portion of the pension settlement expense totaling \$0.2 million was recorded in other expense in the statement of income.

The Chesapeake SERP, a nonqualified plan, was frozen with respect to additional years of service and additional compensation as of December 31, 2004. Benefits under the Chesapeake SERP were based on each participant's years of service and highest average compensation, prior to the freezing of the plan. Active participants on the date the Chesapeake SERP was frozen were credited with two additional years of service.

The following schedule sets forth the funded status of the Chesapeake Utilities Pension Plan and Chesapeake SERP at December 31, 2022 and 2021:

	Chesapeake Pension Plan			an Chesapeake SERF													
<u>At December 31,</u>	2022		2022		2022		2022		2022		2022		2022 20		2021	2022	2021

Net periodic pension cost for the Chesapeake Utilities Pension Plan and Chesapeake SERP for 2022 and 2021 include the components shown below:

	Chesapeake Pension Plan			Chesapeake SERP	
For the Years Ended December 31,		2022	2021 ⁽¹⁾	2022	2021
(in thousands)					
Components of net periodic pension cost:					
Interest cost	\$	—	\$141	\$50	\$48
Expected return on assets		—	(166)	—	_
Amortization of actuarial loss		—	257	28	28
Settlement expense			1,810		
Net periodic pension cost	\$		\$2,042	\$78	\$76

Assumptions:				
Discount rate	— %	2.25%	2.50%	2.25%
Expected return on plan assets	<u> </u>	3.50%	<u>_%</u>	-%

(1) As a result of the termination of the Chesapeake Pension Plan in 2021, we recorded \$0.2 million as the final settlement expense in our statement of income which reflected a portion of the pension settlement expense that was deemed not recoverable through the regulatory process.

Due to periodic contributions and different asset classes producing different returns within the Chesapeake SERP, the actual asset values may temporarily move outside of the intended ranges. The investments are monitored on a quarterly basis, at a minimum, for asset allocation and performance. At December 31, 2021 there were no remaining assets in the Chesapeake Pension Plan as a result of the plan termination.

The following table sets forth the summary of the changes in the fair value of Level 3 investments for the Chesapeake Utilities Pension Plan for years ended December 31, 2022 and 2021:

		ears Ended ber 31,	
	2022		
(in thousands)			
Balance, Beginning of Year	\$ —	\$ 173	
Purchases	—	1,559	
Transfers in		4,389	
Disbursements		(6,116)	
Investment Income		<u>(5</u>)	
Balance, End of Year	<u>\$ </u>	\$ —	

Other Postretirement Benefits Plan

At December 31, 2022 and 2021, the funded status of the Chesapeake Utilities Postretirement Plan was \$0.6 million and \$0.9 million respectively.

Net periodic postretirement benefit costs for the Chesapeake Utilities Postretirement Plan were not material for the years ended December 31, 2022 and 2021.

The following table presents the amounts not yet reflected in net periodic benefit cost and included in Chesapeake Utilities' accumulated other comprehensive income/loss related to the above plans as of December 31, 2022:

		Chesapeake				
	Ches	Chesapeake SERP \$ -		retirement		
(in thousands)	SE			Plan	Total	
Prior service credit	\$			(216)	\$ (216)	
Net loss		295		597	892	
Total	\$	295	\$	381	\$ 676	

Assumptions

The assumptions used for the discount rate to calculate the benefit obligations of all the plans were based on the interest rates of high-quality bonds in 2022, reflecting the expected lives of the plans.

The health care inflation rate for 2022 used to calculate the benefit obligation is 5 percent for medical and 6 percent for prescription drugs for the Chesapeake Postretirement Plan.

Estimated Future Benefit Payments

Chesapeake Utilities expects to contribute \$0.2 million and less than \$0.1 million to the Chesapeake Utilities SERP and Chesapeake Utilities Postretirement Plan, respectively, during 2023. The schedule below shows the estimated future benefit payments for each of the Chesapeake Utilities plans previously described:

(in thousands)	Chesapeake SERP ⁽¹⁾		Chesa	peake Postretirement Plan ⁽¹⁾
2023	\$	151	\$	60
2024	\$	149	\$	58
2025	\$	162	\$	55
2026	\$	159	\$	50
2027	\$	156	\$	48
Years 2028 through 2032 (1) Benefit payments are expected to be paid out of our general funds.	\$	707	\$	200

Retirement Savings Plan

Chesapeake Utilities' 401(k) Retirement Savings Plan is offered to all eligible employees who have completed three months of service. Chesapeake Utilities matches 100 percent of eligible participants' pre-tax contributions to the Chesapeake Utilities Retirement Savings Plan up to a maximum of six percent of the eligible compensation. The employer matching contribution is made in cash and is invested based on a participant's investment directions. In addition, Chesapeake Utilities may make a discretionary supplemental contribution to participants in the plan, without regard to whether or not they make pre-tax contributions. Any supplemental employer contribution, employees are 100 percent vested after two years of service or upon reaching 55 years of age while still employed by Chesapeake Utilities. New employees who do not make an election to contribute and do not opt out of the Chesapeake Utilities Retirement Savings Plan will be automatically enrolled at a deferral rate of three percent, and the automatic deferral rate will increase by one percent per year up to a maximum of ten percent. All contributions and matched funds can be invested among the mutual funds available for investment.

Non-Qualified Deferred Compensation Plan

Members of our Board of Directors and officers of the Company are eligible to participate in the Chesapeake Utilities Corporation Non-Qualified Deferred Compensation Plan. Directors can elect to defer any portion of their cash or stock compensation and executive officers can defer up to 80 percent of their base compensation, cash bonuses or any amount of their stock bonuses (net of required withholdings). Chesapeake Utilities' officers may receive a matching contribution on their cash compensation deferrals up to six percent of their compensation, provided it does not duplicate a match they receive in the Chesapeake Utilities Retirement Savings Plan. Stock bonuses are not eligible for matching contributions. Participants are able to elect the payment of benefits to begin on a specified future date or upon separation from service. Additionally, participants can elect to receive the payment upon the later of a fixed date or separation from service. The payments can be made in one lump sum or annual installments for up to 15 years.

All obligations arising under the Non-Qualified Deferred Compensation Plan are payable from Chesapeake Utilities' general assets, although Chesapeake Utilities has established a Rabbi Trust to informally fund the plan. Deferrals of cash compensation may be invested by the participants in various mutual funds (the same options that are available in the qualified plan). The participants are credited with gains or losses on those investments. Deferred stock compensation may not be diversified. The participants are credited with dividends on Chesapeake Utilities' common stock in the same amount that is received by all other stockholders. Such dividends are assumed to be reinvested into our common stock. Assets held in the Rabbi Trust had a fair value of \$10.6 million and \$12.1 million at December 31, 2022 and 2021, respectively. The assets of the Rabbi Trust are at all times subject to the claims of Chesapeake Utilities' general creditors.

Deferrals of executive base compensation and cash bonuses and directors' cash retainers are paid in cash. All deferrals of executive performance shares, which represent deferred stock units, and directors' stock retainers are paid in shares of Chesapeake Utilities' common stock, except that cash is paid in lieu of fractional shares. The value of Chesapeake Utilities' stock held in the Rabbi Trust is classified within the stockholders' equity section of Chesapeake Utilities' consolidated balance sheet and has been accounted for in a manner similar to treasury stock. The amounts recorded under the Non-Qualified Deferred Compensation Plan totaled \$7.1 million and \$7.2 million at December 31, 2022 and 2021, respectively.

8. Share-Based Compensation

Chesapeake Utilities executives have been granted share-based awards through Chesapeake Utilities' Stock Incentive Compensation Plan ("SICP"). The share-based awards are recorded as compensation costs over the respective service period for which services are received in exchange for an award of equity or equity-based compensation. The compensation cost is based primarily on the fair value of the shares awarded, using the estimated fair value of each share on the date it was granted and the number of shares to be issued at the end of the service period.

These awards are based on multi-year performance plans, which are earned based upon the successful achievement of long-term goals, growth and financial results, which comprised both market-based and performance-based conditions or targets. The fair value of each share of stock tied to a performance-based condition or target is equal to the market price of Chesapeake Utilities common stock on the date of the grant. For the market-based conditions, Monte Carlo valuation is used estimate the fair value of each share of market-based award granted. For both years ended December 31, 2022 and 2021, we were allocated \$0.3 million, in total compensation expense for the awards granted under the SICP.

9. Rates and Other Regulatory Activities

Effect of the TCJA on customers: In February 2018, the FPSC opened dockets to consider the impacts associated with the TCJA. In May 2018, we filed petitions and supporting testimony regarding the disposition of the related impacts of the TCJA. Hearings on this matter took place in November 2018, The FPSC approved Staff's recommendations on February 5, 2019. Final orders were issued on February 25, 2019 subject to a 30-day appeal period.

The order stated that the excess net accumulated deferred income tax liability would be amortized and retained by us pursuant to the prescribed schedule. As of December 31, 2022 and 2021, the excess deferred tax liability balance was \$7.8 million and \$8.0 million, respectively. Tax savings associated with the Gas Reliability Infrastructure Program ("GRIP") for 2018 were refunded in 2020 through the annual GRIP cost recovery mechanism. Future customer GRIP surcharges will be adjusted to reflect tax savings associated with TCJA.

In response to the COVID-19 pandemic and related restrictions, we experienced reduced consumption of energy largely in the commercial and industrial sectors, higher bad debt expenses and incremental expenses associated with COVID-19, including expenditures associated with personal protective equipment and premium pay for field personnel. The additional operating expenses we incurred support the ongoing delivery of our essential services during these unprecedented times. In July 2021, the Florida PSC issued an order that approved incremental expenses we incurred due to COVID-19. The order allowed us to establish a regulatory asset in a total amount of \$2.1 million as of June 30, 2021. The regulatory asset is being amortized over two years and is recovered through the Purchased Gas Adjustment and Swing Service mechanisms. As of December 31, 2022 and 2021, our total COVID-19 regulatory asset balance was less than \$0.1 million, respectively.

In 2021 and 2022, restrictions were gradually lifted as vaccines became widely available in the United States. The various state of emergencies associated with the COVID-19 pandemic that were previously declared in our service territories have been terminated and we have adjusted our operating practices accordingly to ensure the safety of our operations and will take the necessary actions to comply with the CDC, and the Occupational Safety and Health Administration, as new developments occur.

Winter Haven Expansion Project: In May 2021, Peninsula Pipeline filed a petition with the Florida PSC for approval of its Transportation Service Agreement with CFG for an incremental 6,800 Dts/d of firm service in the Winter Haven, Florida area. As part of this agreement, Peninsula Pipeline constructed a new interconnect with FGT and a new regulator station for CFG. This additional firm service is supporting new incremental load due to growth, including providing service to a new can manufacturing facility, as well as providing reliability and operational benefits to CFG's existing distribution system in the area. In connection with Peninsula Pipeline's new regulator station, CFG also extended its distribution system to connect to the new station. The Transportation Service Agreement was approved by the Florida PSC in September 2021 and the project was placed in service during the third quarter of 2022.

10. Environmental Commitments and Contingencies

We are subject to federal, state and local laws and regulations governing environmental quality and pollution control. These laws and regulations require us to remove or remediate at current and former operating sites the effect on the environment of the disposal or release of specified substances.

Environmental liabilities for our MGP site are recorded on an undiscounted basis based on the estimate of future costs provided by independent consultants. We continue to expect that all costs related to environmental remediation and related activities will be recoverable from customers through rates.

We recorded no environmental liabilities as of December 31, 2022 and less than \$0.1 million as of December 31, 2021 related to a manufactured gas plant ("MGP") site in Winter Haven, Florida, representing our estimate of future costs associated with this site. Remediation on this site is ongoing and costs to clean up are not expected to exceed \$0.2 million, which includes costs of implementing institutional controls.

11. Other Commitments and Contingencies

We have entered into contractual commitments for firm transportation service with pipelines. The contracts have various expiration dates. The total purchase obligations for the natural gas transportation capacity are \$2.1 million for 2023, \$4.2 million for 2024-2025, \$4.2 million for 2026-2027 and \$10.0 million thereafter with an aggregate total of \$20.5 million.

We have a firm transportation service contract with Gulfstream Natural Gas Systems LLC ("Gulfstream"). Pursuant to a capacity release program approved by the FPSC, all of the capacity under this agreement has been released to various third parties. Under the terms of this capacity release agreement, Chesapeake Utilities is contingently liable to Gulfstream should any party, that acquired the capacity through release, fail to pay the capacity charge.

We are involved in certain legal actions and claims arising in the normal course of business. We are also involved in certain legal and administrative proceedings before various governmental agencies concerning rates. In the opinion of management, the ultimate disposition of these proceedings will not have a material effect on our financial position, results of operation or cash flows.

12. Revenue Recognition

Customer Revenue

We recognize revenue when our performance obligations under contracts with customers have been satisfied, which generally occurs when we have transported natural gas to customers. We bill customers for the delivery of natural gas and our performance obligation is satisfied over time as natural gas is delivered to the customer. We recognize revenues based on monthly meter readings, which are based on the quantity of natural gas used and rates approved by the FPSC. We accrue unbilled revenues for natural gas that have been delivered, but not yet billed, at the end of an accounting period, to the extent that billing and delivery do not coincide. We exclude sales taxes and other similar taxes from the transaction price. Typically, our customers pay for the goods and/or services we provide in the month following the satisfaction of our performance obligation.

Contract Balances

The timing of revenue recognition, customer billings and cash collections results in trade receivables, unbilled receivables (contract assets), and customer advances (contract liabilities) in our balance sheets. As of December 31, 2022 and 2021, the balance of our trade receivables, net of provision for uncollectable accounts, was \$6.0 million and \$4.8 million, respectively. As of December 31, 2022 and 2021, there were no material contract assets or liabilities recorded on the Comparative Balance Sheet.

Remaining performance obligations

We have long-term fixed fee contracts with customers in which revenues are recognized as performance obligations are satisfied over the contract term. Revenue for the remaining performance obligations at December 31, 2022 are expected to be recognized as follows:

	2023	2024	2025	2026	2027	2028 and thereafter
(in thousands)						
Remaining performance obligations	\$2,436	\$2,266	\$2,025	\$1,875	\$1,767	\$21,442

SECURITIES ISSUED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

1. Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses.

2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded and gains or losses relating to securities retired or refunded.

3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares.

4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

Not Applicable

UNAMORTIZED LOSS AND GAIN ON REACQUIRED DEBT (Accounts 189, 257)

1. Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, particulars (details) of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue. 2. In column (c) show the principal amount of bonds or other

long-term debt reacquired.

3. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with

General Instruction 17 of the Uniform Systems of Accounts.4. Show loss amounts by enclosing the figures in parentheses.

5. Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debit-Credit.

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

 For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
3. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

UNAMORTIZED DEBT EXPENSE, PREMIUM AND DISCOUNT ON LONG-TERM DEBT (Accounts 181, 225, 226)

1. Report under separate subheadings for Unamortized Debt Expense, Unamortized Premium on Long-Term Debt and Unamortized Discount on Long-Term Debt, particulars (details) of expense, premium or discount applicable to each class and series of long-term debt.

2. Show premium amounts by enclosing the figures in parentheses.

3. In column (b) show the principal amount of bonds or other long-term debt originally issued.

5. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year.6. Identify separately indisposed amounts applicable to issues which were redeemed in prior years.

7. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt Discount and Expense, or credited to Account 429, Amortization of Premium on Debt - Credit.

4. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

For the Year Ended December 31, 2022

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

CHESAPEAKE UTILITIES CORPORATION - FLORIDA DIVISION

CORPORATE STRUCTURE

Provide an updated organizational chart showing all affiliated companies, partnerships, etc.

CHESAPEAKE UTILITIES CORPORATION - FLORIDA DIVISION

SUMMARY OF AFFILIATED TRANSFERS AND COST ALLOCATIONS

Grouped by affiliate, list each contract, agreement, or other business transaction exceeding a cumulative amount of \$300 in any one year, entered into between the Respondent and an affiliated business or financial organization, firm, or partnership identifying parties, amounts, dates, and product, asset, or service involved. (a) Enter name of affiliate.

- (b) Give description of type of service, or name the product involved.
- (c) Enter contract or agreement effective dates.
- (d) Enter the letter "p" if the service or product is purchased by the Respondent: "s" if the service or product is sold by the Respondent.
- (e) Enter utility account number in which charges are recorded.
- (f) Enter total amount paid, received, or accrued during the year for each type of service or product listed in column (c). Do not net amounts when services are both received and provided.

			Total Charge for Year
