## A. Description

This service arrangement allows a customer to originate calls in areas with Equal Access capabilities served by the Company by pre-subscribing to the service, or, for casual use, by dialing a 5 digit ( 10 XXX ) code. This service is also available to customers in areas without equal access capabilities through use of a non-travel authorization code and Company-provided switched access facilities. Calls can be terminated at any point in the state.

The applicable usage rate depends upon the distance between originating and terminating points and the rate period(s) in which the call occurs. Discounts are given based upon the customer's usage volume.
