5.1. <u>Services Offering</u>

The following private line services are offered in this tariff:

DS3 Service	(44.736 Mbps)
DS1 Service	(1.5 Mbps)
DS0 Service	(up to 64 kbps)
Video Service	(4.2 MHz bandwidth)
LanLink Service	(4, 10, or 16 Mbps)
OmniLink Service	(OC-3 and OC-12 Sonet Rings)

Other services may be provided by the Company on an Individual Case Basis (ICB)

5.2 <u>Rate Elements</u>

Non-recurring and monthly recurring rates apply for each Digital Transmission Service furnished by the Company. Monthly recurring rates vary according to the time period for which the customer commits to take the service. Unless otherwise noted, three standard rate elements are used in calculating the monthly recurring rate for each service:

Local Distribution Channel (LDC): This rate element applies to each end-point of a digital channel provided to a customer.

Interoffice Channel Mileage-Fixed: This rate element applies per digital channel whenever there is mileage associated with the channel; a digital channel has mileage associated with it when the endpoints of the channel are located in geographic areas normally served out of separate local exchange carrier ("LEC") end offices. This rate element applies per circuit endpoint.
