Re: **Verizon Florida LLC 2007 Price Cap Filing**

Dear Ms. Salak:

Pursuant to Florida Statutes Section 364.051, "Price Regulation," Verizon Florida LLC (Verizon) submits this filing to adjust certain rates for basic and non basic services and certain rates for intrastate access services.

The 2007 price regulation filing permits basic local exchange revenues to be increased by 2.190% as determined by the increase in the Gross Domestic Product - Price Index (GDP-PI). Verizon's proposal increases basic local revenues by 2.1575%. Rates for non-basic services can be increased by up to 20% per category. All five of Verizon's non basic service categories are within the allowable increase. Units used in this filing have been updated to June 30, 2007.

There are two attachments to this filing.

## ATTACHMENT 1

Attachment 1 contains General Services tariff pages reflecting the rate changes associated with Verizon's annual price regulation filing. Both final and red-lined versions are included.

A2. GENERAL REGULATIONS

A2.3 Establishment and Furnishing of Service (Continued)

.15 Vacation Service - Business (Continued)

a. General (Continued)

- (7) During the period of Vacation Service, no installations, moves, changes or maintenance will be provided. Changes to billing address will be allowed.
- (8) The customer may request a restoration date in advance of the maximum allowable vacation period, otherwise complete service and billing will be restored on the last day of the maximum allowable vacation period of nine (9) months.

b. Application of Charges

Business Service

The charge for business service during the period of suspension is as follows:

Business	\$ 16.40 (I)
Business Rotary	20.12

- (1) During the period the customer is furnished Vacation Service, Miscellaneous Calling Services directly associated with the line service will not be charged.

Any Miscellaneous Services not directly associated with the line service, such as Directory Listing or Operator Service, will continue at the standard tariff rates.

- (2) A Seasonal Service Establishment Charge as specified in Section A4.3.9 of this Tariff shall apply at the time a business customer requests Vacation Service.

No service order charges apply to restore service at the completion of the Vacation Service period.

- (3) The federal End User Access Charge specified in Tariff FCC No. 14 is applicable during Vacation Service.

c. Service Suspension Option for Residential Customers

Residential Customers may request a temporary suspension of service for a period of at least one month up to nine months. This option is not available for residential message rate service and Basic Calling Service, a Verizon local bundled service. This service is not available to Lifeline customers. There will be no charge to customers for the temporary suspension option. During the suspension period there is no inward or outward service, installations, moves, changes or maintenance provided. Inward calls will be referred to the call number of another station in the same or a distant exchange as specified by the customer, for 30 days, to any number the customer specifies.

The services the customer subscribed to prior to temporary service suspension are not retained for reconnection. At the time the residential customer requests reconnection, the customer must subscribe to services of choice based on service availability. Nonrecurring charges, specified in Section A4, are not applicable to restore prior services. The customer must request a restoration date in advance of the maximum allowable suspension period, or residential flat rate billing will be charge beginning on the last day of the maximum allowable temporary service suspension period of nine months.

**A3. BASIC LOCAL EXCHANGE SERVICE**

**A3.1 General**

- .1 This Tariff specifies rate schedules applicable for grades and classes of local exchange service ordered.
- .2 Exchange rate schedules are applied according to the total number of main station lines and PBX trunks in the local service area.
- .3 Exchange Service Areas for each exchange are identified on maps filed in Section A200, Local Exchange Service Area Maps and Descriptions, of this Tariff.
- .4 The rates for service and equipment not specifically shown in this section are presented in other sections of this Tariff. (See Note 3)
- .5 Service charges, as covered in Section A4., are applicable to the provision of basic local exchange service.
- .6 Pursuant to passage of the Telecommunications Access Systems Act of 1991 by the Florida Legislature during the 1991 session, a monthly surcharge shall be imposed on all local exchange telecommunications company customers on an individual access line basis, except that such surcharge shall not be imposed upon more than 25 basic telecommunications access lines per account bill rendered. The Commission shall determine the amount of the surcharge; however, in no case shall the amount exceed 25 cents per line per month. The surcharge shall appear on the initial bill to the customer and itemized at least once annually.

**.3 Regrouping Procedures**

a. Whenever the number of access lines in the local calling area of an exchange increases or decreases to the extent that such exchange would fall into a different rate group, a revised Tariff shall be filed for authority to reclassify the exchange to its appropriate group. The effective date of the proposed rate change shall be the effective date of the next directory for the affected exchange or 60 days after the date of filing the tariff whichever is later.

(1) The rate group in which an exchange falls shall be determined by the peak number of access lines in the exchange's local calling area since the effective date of the preceding directory.

**A3.3 Monthly Exchange Rates**

**.1 General**

a. Monthly exchange rates shown in A3.2 are applicable, in each exchange, for grades and classes of basic local exchange service offered.

**.2 Message Rate Service - Individual Line**

a. Subscribers to business or residence message rate service are regularly billed monthly in advance at the rate quoted in this tariff for the class of service furnished. Messages in excess of the monthly allowance are billed monthly in arrears. Local messages not used in one month are not credited to the subscriber's account for any other month service is rendered.

b. Subscribers are entitled to the number of messages specified in A3.2.2 to all central office lines bearing the designations of exchanges listed in A3.5, Local Calling Area, for the respective exchange.

c. Business Message Rate Service and Residence Message Rate Service are available in all exchanges and in all new rate groups. See Section A3.2.2 for specific rates by rate group.

d. Rules and regulations covering the provision of message rate service are as specified in Section A2.3.2.

**.4 Transitional Lifeline Assistance Program**

a. General

(1) Transitional Lifeline Assistance is a state program which provides a 30% reduction of the applicable monthly exchange flat rate for residential basic local service for subscribers who no longer qualify for the Lifeline Assistance Program.

b. Regulations

(2) A Lifeline Assistance subscriber who requests this service will receive the discounted rate for a period of one (1) year from the date the subscriber ceases to be qualified for the Lifeline Assistance Program.

**.5 Native American Lifeline**

a. Residential customers who reside on federally recognized tribal lands are eligible to receive additional enhanced federal Lifeline support in order to reduce the price for basic local telephone service.

b. An individual living on tribal lands shall qualify for an additional enhanced federal Lifeline credit of up to \$25.00 per month if the individual participates in any state or federal programs identified in the preceding Section 3.4.3 or one of the following assistance programs:

- Bureau of Indian Affairs General Assistance
- Tribally Administered Temporary Assistance for Needy Families
- Head Start (only those meeting its income qualifying standard)
- National School Lunch Program (free meals program only)

c. If a resident of a federally recognized tribal land satisfies the state's Lifeline eligibility criteria as defined in Section 3.4.3, the resident will receive the state support, as well as the additional enhanced federal support. Lifeline customers residing on tribal lands will pay no less than \$1.00 per month for basic local telephone service.

d. The additional enhanced federal credit will be available to Lifeline customers who reside on tribal lands in the following exchanges:

- (2) The mechanized announcement will instruct the caller that he may have his call automatically completed at no additional charge by depressing a specific digit on the touch-tone key pad. For all completed calls, the BLCC surcharge will be reversed to the business customer receiving the call. The caller shall remain responsible for any other applicable local message charges and/or Directory Assistance charges.
- (3) Business Line Call Completion (BLCC) will only be furnished where facilities and operating conditions permit.
- (4) Business Line Call Completion (BLCC) will not be provided to the following services:
  - Residence Service
  - 800/877/888 Service
  - 976 Service
  - 900 Service
  - Inmate Telephone Service (ITS)
  - Public Telephone Access Service (PATS) for Customer-Provided Equipment (CPE)
  - Feature Group A Service
  - Cellular Carriers
- (5) The Telephone Company assumes no responsibility or liability for any errors in the information furnished. The caller shall indemnify the Telephone Company and hold it free and harmless of and from any and all claims, demands or damages that shall arise from the use of the service.
  - (a) This service is furnished solely for the telephone calling purposes of the caller.
  - (b) Provisions concerning limitations of liability and allowance for interruption of service are as set forth in Section A2 of this Tariff.
- (6) This offering provides call completion on a Local Access and Transport Area (LATA) basis.
- (7) If call completion is paid for under the terms of BLCC, the Directory Connect Plus<sup>sm</sup> charge as specified in Section A3.10.2c. will not apply to the business customer or the caller.

**.2 Rates**

- a. Where the subscriber direct dials the Local Directory Assistance number 1411, the charge for each call (maximum of two requested telephone numbers per call) is \$1.25.

.3 National Directory Assistance/Customer Name and Address Service

a. General

National Directory Assistance (NDA) will provide the customer with directory listings from Verizon's Directory Assistance database. This database will make all Verizon listings available to any operator workstation along with national listings from other provider databases. Verizon will provide listings for residential, business, government, Verizon 1-800/877/888, and Verizon local emergency numbers. Customer Name and Address (CNA) Service is a reverse search feature which allows the caller to request a customer's name and/or address after giving the Directory Assistance operator a complete telephone number. (T)  
(T)

b. Conditions

(1) The customer will receive a maximum of two listings per call, i.e., two NDA numbers, one NDA number and one CNA listing, or two CNA listings.

(2) Customers who make operator assisted calls to National Directory Assistance or to obtain Customer Name and Address Service will be charged the NDA/CNA rate plus the applicable operator surcharge as specified in Section A3.10.2b. of this Tariff.

(3) The Company shall not be liable for any errors or omissions, whether arising through negligence or otherwise, in the information furnished; and the customer shall indemnify and save the Company harmless against all claims (including costs and attorney's fees) that may arise from the use of such information.

(4) The customer will have access to any number/address listing within the continental United States, Alaska and Hawaii, with the exception of non-published listings. When a non-published number/address is requested, the message "Non-published number/address" or "NP" is displayed and no information will be available.

(5) Charges for National Directory Assistance/Customer Name and Address Service are not applicable to calls placed by customers who certify they are unable to use a directory because of a visual or physical handicap.

(6) National Directory Assistance/Customer Name and Address Service will be available where technology permits.

A3. BASIC LOCAL EXCHANGE SERVICE

A3.16 Verizon Local Calling Plans (Continued)

.3 Rates

a. Application of Rates

The rates shown herein entitle the customer to local messages to all telephones of the exchanges of the expanded local calling area listed in A3.16.4 following.

b. LCP Category Determination

The determination of which LCP category into which a particular exchange will fall when optional local calling plans are made available is calculated using two basic factors. The first is the current rate group where the exchange is located, which is based on the number of main station lines and PBX trunks in the existing local calling area. There are five of these groups in the tariff as shown in Section A3.2, Rate Schedules. The second factor is the total number of local access lines in the LCP expanded local calling area for a particular exchange at the time of implementation. These expanded calling scopes are divided into three classifications: 200,000 or less lines; 200,001 to 500,000 lines; and 500,001 and greater. There are nine potential LCP rating categories. Exchanges currently in Rate Groups 1 and 2 that receive LCP capability will be assigned to Categories I, II or III. Exchanges in local rate groups 3 and 4 will be assigned to Categories IV, V, or VI; and exchanges in local calling area 5 will be assigned to Categories VII, VIII, or IX. For example, an exchange in current Rate Group 3 that offers the LCP with an expanded LCP local calling area of over 200,001 local access lines, but less than 500,000 local access lines, will fall into LCP rating Category V.

**A6. DIRECTORY LISTINGS****A6.3 Residence Listings (Continued)****.3 Dual Name Listings**

- a. Dual name listings may be provided for customers subscribing to residence service who share the same surname and reside at the same address.
- b. Dual name listings may be provided as the primary listing at no recurring charge for the addition of the second name to the listing.
- c. Dual name listings may be provided as an additional listing at the subscriber's option, at the regular additional listing rate.

**.4 Business Designations**

- a. The designation in a business listing consists of a word or phrase, abbreviated where necessary, that describes the general character of the subscriber's business. Designations will not be used where the name under which the subscriber is doing business indicates the character of the business. The listing of an individual, together with his title and the name of the business with which he is associated or represents, in lieu of a designation of the general character of the business, is not permitted. Likewise, the listing of the name of a firm or corporation, together with the name or name and title of an individual connected therewith, in lieu of a business designation is not permitted.

**A6.4 Nonpublished Telephone Numbers****.1 Upon request a subscriber's primary telephone number may be "nonpublished" subject to the following conditions:**

- a. A nonpublished telephone number is omitted from both the telephone alphabetical directory and information records available to the general public. However, when a call is placed from a telephone number associated with a nonpublished listing, the number may be disclosed if the called party has the necessary equipment for receiving and/or disclosing incoming telephone numbers.
- b. Requests for nonpublished numbers will be accepted only when, in the judgment of the Company, such an arrangement will not be detrimental to the service in general.
- c. Incoming calls to nonpublished numbers will be connected only when the calling party places the call by the correct number. The Company will not connect a call to a nonpublished subscriber on behalf of another caller when the caller does not furnish the nonpublished number to the Company. The Company will adhere to this practice notwithstanding any claim of emergency the calling party may present. The acceptance by the Company of the subscriber's request to refrain from publishing his telephone number in the directory does not create any relationship or obligation, directly or indirectly, to any person other than the subscriber.
- d. In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a nonpublished number in the directory or disclosing said number to any person shall attach to the Company and, where such a number is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such nonpublished number. At the subscriber's request, the Company will change the nonpublished telephone number at no charge to the subscriber.
- e. Telephone numbers transmitted via Caller ID are intended solely for the use of the caller ID customer. Resale of this information is prohibited as described in Section A13 of this Tariff.

**.2 Rates**

- a. A rate of \$4.75 a month applies for each nonpublished telephone number. (l)

## A6. DIRECTORY LISTINGS

A6.5 Nonlist Telephone Numbers

- .1 Upon request, a subscriber's primary telephone number may be "nonlist" subject to the following conditions:
- a. Nonlist telephone numbers are not listed in the Company's alphabetical directory, but are maintained on information records and will be furnished upon request of the calling party.
  - b. Request for nonlist telephone numbers will be accepted only when, in the judgment of the Company, such an arrangement will not be detrimental to the service in general.
  - c. The acceptance by the Company of the subscriber's request to furnish a nonlist telephone number does not create any relationship or obligation, direct or indirect, to any person other than the subscriber.
  - d. In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing of a nonlist telephone number in the directory shall attach to the Company and, where such a number is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such nonlist telephone number.
  - e. The subscriber indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a nonlist telephone number.

**A13. MISCELLANEOUS SERVICE ARRANGEMENTS**

**A13.25 Remote Call Forwarding**

**.1 General**

- a. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a subscriber's (the RCF subscriber) telephone number in one exchange (the call forwarding location) is automatically forwarded by Telephone Company central office equipment to another station designated by the RCF subscriber (the terminating station).
- b. RCF Service will be provided subject to the following limitations:
  - (1) RCF service is offered subject to availability of suitable facilities.
  - (2) RCF is offered as an Individual service or as an additional feature with multiline hunt Foreign Exchange Service for overflow when the Foreign Exchange Service is busy. Each Remote Call Forwarding service allows for forwarding one call at a given time. An additional service feature is necessary for each additional call to be forwarded simultaneously.
  - (3) RCF service is not offered where the terminating station is a public telephone.
  - (4) The Telephone Company will not provide identification of the originating telephone number to the RCF subscriber.
  - (5) Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.
  - (6) RCF is not represented as suitable for satisfactory transmission of data.
  - (7) Remote Call Forwarding to another RCF number is not permitted.
  - (8) RCF is provided on the condition that the subscriber subscribes to sufficient RCF features and facilities to adequately handle calls to the RCF subscriber without interfering with or impairing any services offered by the Telephone Company.
  - (9) When the RCF number is to be located in a multioffice exchange, the Company will determine the serving central office.
  - (10) Remote Call Forwarding will be provided for local calling where the RCF telephone number and the terminating station are both located in the same exchange. Further, Remote Calling Forwarding will be provided for local calling on an interexchange basis in those instances where the exchange serving the RCF telephone number and the terminating station are within an Extended Area Service arrangement as specified in Section A3 of this tariff.
  - (11) Remote Call Forwarding will be provided when the RCF telephone number and the terminating station are located within Extended Calling Service exchanges as specified in Section A3.15.2a. of this tariff. The usage rates for calls between ECS exchanges will be those specified in Section A3.15.3a.
  - (12) Remote Call Forwarding service cannot be used for toll by-pass.
  - (13) Remote Call Forwarding international is not allowed.
- c. One listing in the alphabetical section of the directory covering the exchange in which the Call Forwarding central office is located is provided without additional charge.
- d. The minimum service period for this service is two months.

**.2 Rates and Charges**

- a. The following charges are for the Remote Call Forwarding feature and additional access facilities only and are in addition to applicable charges for service and equipment with which it is used:

	Monthly Rate

A103.4 Verizon Local Calling Plans (Continued)

.3 Rates

a. Application of Rates

The rates shown herein entitle the customer to local messages to all telephones of the exchanges of the expanded local calling area listed in A103.4.4 following.

b. LCP Category Determination

The determination of which LCP category into which a particular exchange will fall when optional local calling plans are made available is calculated using two basic factors. The first is the current rate group where the exchange is located, which is based on the number of main station lines and PBX trunks in the existing local calling area. There are five of these groups in the tariff as shown in Section A3.2, Rate Schedules. The second factor is the total number of local access lines in the LCP expanded local calling area for a particular exchange at the time of implementation. These expanded calling scopes are divided into three classifications: 200,000 or less lines; 200,001 to 500,000 lines; and 500,001 and greater. There are nine potential LCP rating categories. Exchanges currently in Rate Groups 1 and 2 that receive LCP capability will be assigned to Categories I, II or III. Exchanges in local rate groups 3 and 4 will be assigned to Categories IV, V, or VI; and exchanges in local calling area 5 will be assigned to Categories VII, VIII, or IX. For example, an exchange in current Rate Group 3 that offers the LCP with an expanded LCP local calling area of over 200,001 local access lines, but less than 500,000 local access lines, will fall into LCP rating Category V.

a. General (Continued)

- (7) During the period of Vacation Service, no installations, moves, changes or maintenance will be provided. Changes to billing address will be allowed.
- (8) The customer may request a restoration date in advance of the maximum allowable vacation period, otherwise complete service and billing will be restored on the last day of the maximum allowable vacation period of nine (9) months.

b. Application of Charges

Business Service

The charge for business service during the period of suspension is as follows:

Business	\$ 16. <del>00</del> <u>40</u> (I)
Business Rotary	20.12

- (1) During the period the customer is furnished Vacation Service, Miscellaneous Calling Services directly associated with the line service will not be charged.

Any Miscellaneous Services not directly associated with the line service, such as Directory Listing or Operator Service, will continue at the standard tariff rates.

- (2) A Seasonal Service Establishment Charge as specified in Section A4.3.9 of this Tariff shall apply at the time a business customer requests Vacation Service.

No service order charges apply to restore service at the completion of the Vacation Service period.

- (3) The federal End User Access Charge specified in Tariff FCC No. 14 is applicable during Vacation Service.

c. Service Suspension Option for Residential Customers

Residential Customers may request a temporary suspension of service for a period of at least one month up to nine months. This option is not available for residential message rate service and Basic Calling Service, a Verizon local bundled service. This service is not available to Lifeline customers. There will be no charge to customers for the temporary suspension option. During the suspension period there is no inward or outward service, installations, moves, changes or maintenance provided. Inward calls will be referred to the call number of another station in the same or a distant exchange as specified by the customer, for 30 days, to any number the customer specifies.

The services the customer subscribed to prior to temporary service suspension are not retained for reconnection. At the time the residential customer requests reconnection, the customer must subscribe to services of choice based on service availability. Nonrecurring charges, specified in Section A4, are not applicable to restore prior services. The customer must request a restoration date in advance of the maximum allowable suspension period, or residential flat rate billing will be charge beginning on the last day of the maximum allowable temporary service suspension period of nine months.

**A3. BASIC LOCAL EXCHANGE SERVICE**

**A3.1 General**

- .1 This Tariff specifies rate schedules applicable for grades and classes of local exchange service ordered.
- .2 Exchange rate schedules are applied according to the total number of main station lines and PBX trunks in the local service area.
- .3 Exchange Service Areas for each exchange are identified on maps filed in Section A200, Local Exchange Service Area Maps and Descriptions, of this Tariff.
- .4 The rates for service and equipment not specifically shown in this section are presented in other sections of this Tariff. (See Note 3)
- .5 Service charges, as covered in Section A4., are applicable to the provision of basic local exchange service.
- .6 Pursuant to passage of the Telecommunications Access Systems Act of 1991 by the Florida Legislature during the 1991 session, a monthly surcharge shall be imposed on all local exchange telecommunications company customers on an individual access line basis, except that such surcharge shall not be imposed upon more than 25 basic telecommunications access lines per account bill rendered. The Commission shall determine the amount of the surcharge; however, in no case shall the amount exceed 25 cents per line per month. The surcharge shall appear on the initial bill to the customer and itemized at least once annually.

**.3 Regrouping Procedures**

a. Whenever the number of access lines in the local calling area of an exchange increases or decreases to the extent that such exchange would fall into a different rate group, a revised Tariff shall be filed for authority to reclassify the exchange to its appropriate group. The effective date of the proposed rate change shall be the effective date of the next directory for the affected exchange or 60 days after the date of filing the tariff whichever is later.

(1) The rate group in which an exchange falls shall be determined by the peak number of access lines in the exchange's local calling area since the effective date of the preceding directory.

**A3.3 Monthly Exchange Rates**

**.1 General**

a. Monthly exchange rates shown in A3.2 are applicable, in each exchange, for grades and classes of basic local exchange service offered.

**.2 Message Rate Service - Individual Line**

a. Subscribers to business or residence message rate service are regularly billed monthly in advance at the rate quoted in this tariff for the class of service furnished. Messages in excess of the monthly allowance are billed monthly in arrears. Local messages not used in one month are not credited to the subscriber's account for any other month service is rendered.

b. Subscribers are entitled to the number of messages specified in A3.2.2 to all central office lines bearing the designations of exchanges listed in A3.5, Local Calling Area, for the respective exchange.

c. Business Message Rate Service and Residence Message Rate Service are available in all exchanges and in all new rate groups. See Section A3.2.2 for specific rates by rate group.

d. Rules and regulations covering the provision of message rate service are as specified in Section A2.3.2.

.3 National Directory Assistance/Customer Name and Address Service

a. General

National Directory Assistance (NDA) will provide the customer with directory listings from ~~GTE's-Verizon's~~ Directory Assistance database. (T)  
This database will make all ~~GTE-Verizon~~ listings available to any operator workstation along with national listings from other provider (T)  
databases. ~~GTE-Verizon~~ will provide listings for residential, business, government, ~~GTE-Verizon~~ 1-800/877/888, and ~~GTE-Verizon~~ local (T)  
emergency numbers. Customer Name and Address (CNA) Service is a reverse search feature which allows the caller to request a customer's name and/or address after giving the Directory Assistance operator a complete telephone number.

b. Conditions

(1) The customer will receive a maximum of two listings per call, i.e., two NDA numbers, one NDA number and one CNA listing, or two CNA listings.

(2) Customers who make operator assisted calls to National Directory Assistance or to obtain Customer Name and Address Service will be charged the NDA/CNA rate plus the applicable operator surcharge as specified in Section A3.10.2b. of this Tariff.

(3) The Company shall not be liable for any errors or omissions, whether arising through negligence or otherwise, in the information furnished; and the customer shall indemnify and save the Company harmless against all claims (including costs and attorney's fees) that may arise from the use of such information.

(4) The customer will have access to any number/address listing within the continental United States, Alaska and Hawaii, with the exception of non-published listings. When a non-published number/address is requested, the message "Non-published number/address" or "NP" is displayed and no information will be available.

(5) Charges for National Directory Assistance/Customer Name and Address Service are not applicable to calls placed by customers who certify they are unable to use a directory because of a visual or physical handicap.

(6) National Directory Assistance/Customer Name and Address Service will be available where technology permits.

.3 Rates

a. Application of Rates

The rates shown herein entitle the customer to local messages to all telephones of the exchanges of the expanded local calling area listed in A3.16.4 following.

b. LCP Category Determination

The determination of which LCP category into which a particular exchange will fall when optional local calling plans are made available is calculated using two basic factors. The first is the current rate group where the exchange is located, which is based on the number of main station lines and PBX trunks in the existing local calling area. There are five of these groups in the tariff as shown in Section A3.2, Rate Schedules. The second factor is the total number of local access lines in the LCP expanded local calling area for a particular exchange at the time of implementation. These expanded calling scopes are divided into three classifications: 200,000 or less lines; 200,001 to 500,000 lines; and 500,001 and greater. There are nine potential LCP rating categories. Exchanges currently in Rate Groups 1 and 2 that receive LCP capability will be assigned to Categories I, II or III. Exchanges in local rate groups 3 and 4 will be assigned to Categories IV, V, or VI; and exchanges in local calling area 5 will be assigned to Categories VII, VIII, or IX. For example, an exchange in current Rate Group 3 that offers the LCP with an expanded LCP local calling area of over 200,001 local access lines, but less than 500,000 local access lines, will fall into LCP rating Category V.

## A6. DIRECTORY LISTINGS

A6.3 Residence Listings (Continued)

## .3 Dual Name Listings

- a. Dual name listings may be provided for customers subscribing to residence service who share the same surname and reside at the same address.
- b. Dual name listings may be provided as the primary listing at no recurring charge for the addition of the second name to the listing.
- c. Dual name listings may be provided as an additional listing at the subscriber's option, at the regular additional listing rate.

## .4 Business Designations

- a. The designation in a business listing consists of a word or phrase, abbreviated where necessary, that describes the general character of the subscriber's business. Designations will not be used where the name under which the subscriber is doing business indicates the character of the business. The listing of an individual, together with his title and the name of the business with which he is associated or represents, in lieu of a designation of the general character of the business, is not permitted. Likewise, the listing of the name of a firm or corporation, together with the name or name and title of an individual connected therewith, in lieu of a business designation is not permitted.

A6.4 Nonpublished Telephone Numbers

## .1 Upon request a subscriber's primary telephone number may be "nonpublished" subject to the following conditions:

- a. A nonpublished telephone number is omitted from both the telephone alphabetical directory and information records available to the general public. However, when a call is placed from a telephone number associated with a nonpublished listing, the number may be disclosed if the called party has the necessary equipment for receiving and/or disclosing incoming telephone numbers.
- b. Requests for nonpublished numbers will be accepted only when, in the judgment of the Company, such an arrangement will not be detrimental to the service in general.
- c. Incoming calls to nonpublished numbers will be connected only when the calling party places the call by the correct number. The Company will not connect a call to a nonpublished subscriber on behalf of another caller when the caller does not furnish the nonpublished number to the Company. The Company will adhere to this practice notwithstanding any claim of emergency the calling party may present. The acceptance by the Company of the subscriber's request to refrain from publishing his telephone number in the directory does not create any relationship or obligation, directly or indirectly, to any person other than the subscriber.
- d. In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a nonpublished number in the directory or disclosing said number to any person shall attach to the Company and, where such a number is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such nonpublished number. At the subscriber's request, the Company will change the nonpublished telephone number at no charge to the subscriber.
- e. Telephone numbers transmitted via Caller ID are intended solely for the use of the caller ID customer. Resale of this information is prohibited as described in Section A13 of this Tariff.

## .2 Rates

- a. A rate of \$4.~~55~~-75 a month applies for each nonpublished telephone number.

## A6. DIRECTORY LISTINGS

A6.5 Nonlist Telephone Numbers

- .1 Upon request, a subscriber's primary telephone number may be "nonlist" subject to the following conditions:
- a. Nonlist telephone numbers are not listed in the Company's alphabetical directory, but are maintained on information records and will be furnished upon request of the calling party.
  - b. Request for nonlist telephone numbers will be accepted only when, in the judgment of the Company, such an arrangement will not be detrimental to the service in general.
  - c. The acceptance by the Company of the subscriber's request to furnish a nonlist telephone number does not create any relationship or obligation, direct or indirect, to any person other than the subscriber.
  - d. In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing of a nonlist telephone number in the directory shall attach to the Company and, where such a number is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such nonlist telephone number.
  - e. The subscriber indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a nonlist telephone number.

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.25 Remote Call Forwarding

.1 General

- a. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a subscriber's (the RCF subscriber) telephone number in one exchange (the call forwarding location) is automatically forwarded by Telephone Company central office equipment to another station designated by the RCF subscriber (the terminating station).
- b. RCF Service will be provided subject to the following limitations:
  - (1) RCF service is offered subject to availability of suitable facilities.
  - (2) RCF is offered as an Individual service or as an additional feature with multiline hunt Foreign Exchange Service for overflow when the Foreign Exchange Service is busy. Each Remote Call Forwarding service allows for forwarding one call at a given time. An additional service feature is necessary for each additional call to be forwarded simultaneously.
  - (3) RCF service is not offered where the terminating station is a public telephone.
  - (4) The Telephone Company will not provide identification of the originating telephone number to the RCF subscriber.
  - (5) Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.
  - (6) RCF is not represented as suitable for satisfactory transmission of data.
  - (7) Remote Call Forwarding to another RCF number is not permitted.
  - (8) RCF is provided on the condition that the subscriber subscribes to sufficient RCF features and facilities to adequately handle calls to the RCF subscriber without interfering with or impairing any services offered by the Telephone Company.
  - (9) When the RCF number is to be located in a multioffice exchange, the Company will determine the serving central office.
  - (10) Remote Call Forwarding will be provided for local calling where the RCF telephone number and the terminating station are both located in the same exchange. Further, Remote Calling Forwarding will be provided for local calling on an interexchange basis in those instances where the exchange serving the RCF telephone number and the terminating station are within an Extended Area Service arrangement as specified in Section A3 of this tariff.
  - (11) Remote Call Forwarding will be provided when the RCF telephone number and the terminating station are located within Extended Calling Service exchanges as specified in Section A3.15.2a. of this tariff. The usage rates for calls between ECS exchanges will be those specified in Section A3.15.3a.
  - (12) Remote Call Forwarding service cannot be used for toll by-pass.
  - (13) Remote Call Forwarding international is not allowed.
- c. One listing in the alphabetical section of the directory covering the exchange in which the Call Forwarding central office is located is provided without additional charge.
- d. The minimum service period for this service is two months.

.2 Rates and Charges

A103. OBSOLETE BASIC LOCAL EXCHANGE SERVICE

A103.4 Verizon Local Calling Plans (Continued)

.3 Rates

a. Application of Rates

The rates shown herein entitle the customer to local messages to all telephones of the exchanges of the expanded local calling area listed in A103.4.4 following.

b. LCP Category Determination

The determination of which LCP category into which a particular exchange will fall when optional local calling plans are made available is calculated using two basic factors. The first is the current rate group where the exchange is located, which is based on the number of main station lines and PBX trunks in the existing local calling area. There are five of these groups in the tariff as shown in Section A3.2, Rate Schedules. The second factor is the total number of local access lines in the LCP expanded local calling area for a particular exchange at the time of implementation. These expanded calling scopes are divided into three classifications: 200,000 or less lines; 200,001 to 500,000 lines; and 500,001 and greater. There are nine potential LCP rating categories. Exchanges currently in Rate Groups 1 and 2 that receive LCP capability will be assigned to Categories I, II or III. Exchanges in local rate groups 3 and 4 will be assigned to Categories IV, V, or VI; and exchanges in local calling area 5 will be assigned to Categories VII, VIII, or IX. For example, an exchange in current Rate Group 3 that offers the LCP with an expanded LCP local calling area of over 200,001 local access lines, but less than 500,000 local access lines, will fall into LCP rating Category V.

.2 Regulations

- b. The minimum service period for Verizon Easy Savings Plan<sup>sm</sup> for Business is one month.
- c. The application of time-of-day rates is as specified in Section A18.5.1.8 of this Tariff. Sub-minute rating will be utilized for the timing and rating of Verizon Easy Savings Plan<sup>sm</sup> for Business messages. Sub-minute rating consists of the initial 18 seconds of the first minute rated at the appropriate initial period rate and then each increment of 6 seconds thereafter is rated at the appropriate additional period rate. Rates shown in the following table are applicable for the Verizon Easy Savings Plan<sup>sm</sup> for Business messages.

7. DEDICATED ACCESS SERVICES

7.8 Miscellaneous Dedicated Access Services

7.8.1 Clear Channel Capability (USOC - CCO)

(A) Description of Service

An arrangement that allows the customer to transport 1.536 Mbps of information through a DS1 with no constraint on the quantity or sequence of one (mark) and zero (space) bits utilizing the Bipolar with Eight Zero Substitution (B8ZS) method of providing bit sequence independence. This arrangement is capable of transporting DS1 signals which utilize Superframe or Extended Superframe Format (ESF) as defined by the American National Standards Institute (ANSI) T1.107-1988 standard. The installation interval for Clear Channel Capability may exceed standard intervals where equipment in the central office is not readily available. The charges apply on a per Local Channel basis.

This arrangement requires the customer signal at the channel interface to conform to the B8ZS method of providing bit sequence independence.

The DS1 Special Access Line provided under this tariff will not be billed when used with Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) that uses alternate higher capacity digital facilities for the loop transport. This includes, i.e., providing service under the Tariff FCC No. 14, Section 20 – Optical Networking when the optical node is at the same location, DS3s, or comparable local tariffs and special assemblies. A DS1 Special Access Line provided to the serving wire center at which the customer obtains ISDN PRI Service will be transmitted with B8ZS Clear Channel Capability per Technical Reference Publication GR-342, Issue 1.

7. DEDICATED ACCESS SERVICES

7.8 Miscellaneous Dedicated Access Services

7.8.1 Clear Channel Capability (USOC - CCO)

(A) Description of Service

An arrangement that allows the customer to transport 1.536 Mbps of information through a DS1 with no constraint on the quantity or sequence of one (mark) and zero (space) bits utilizing the Bipolar with Eight Zero Substitution (B8ZS) method of providing bit sequence independence. This arrangement is capable of transporting DS1 signals which utilize Superframe or Extended Superframe Format (ESF) as defined by the American National Standards Institute (ANSI) T1.107-1988 standard. The installation interval for Clear Channel Capability may exceed standard intervals where equipment in the central office is not readily available. The charges apply on a per Local Channel basis.

This arrangement requires the customer signal at the channel interface to conform to the B8ZS method of providing bit sequence independence.

The DS1 Special Access Line provided under this tariff will not be billed when used with Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) that uses alternate higher capacity digital facilities for the loop transport. This includes, i.e., providing service under the Tariff FCC No. 14, Section 20 – Optical Networking when the optical node is at the same location, DS3s, or comparable local tariffs and special assemblies. A DS1 Special Access Line provided to the serving wire center at which the customer obtains ISDN PRI Service will be transmitted with B8ZS Clear Channel Capability per Technical Reference Publication GR-342, Issue 1.
