Ms. Beth Salak
Director, Division of Regulatory Analysis
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399

Dear Ms. Salak:

Preferred Long Distance, Inc. ("Preferred"), Utility number TX959, hereby provides this courtesy notification to the Florida Public Service Commission of Preferred's intent to initiate provision of commercial resold mobile radio services ("CMRS") as a mobile virtual network operator ("MVNO") and interconnected Voice over Internet Protocol ("iVoIP") telephony in Florida or about September 1, 2015.

Preferred currently maintains authority to provide wireline local exchange services and provides unregulated interexchange telecommunications services in Florida. It is Preferred's understanding that pursuant to federal statutory preemption of state CMRS entry regulation under 47 U.S.C. §332(c)(3) and §364.011 Florida statute, no additional authority is required for Preferred to initiate its provision of CMRS or iVoIP service.

To distinguish between services, Preferred has registered two fictitious names, "Telplex Communications," and "Ringplanet Communications." A copy of the Florida fictitious name registrations is attached. Current and new wireline telecommunications service subscribers and subscribers that presubscribe to the Company's wireline telecommunications and CMRS services will be served under the "Preferred Long Distance, Inc. dba Telplex Communications" or "Preferred Long Distance, Inc. dba Telplex" name. Subscribers that do not presubscribe to the Company's wireline services but receive other services from the Company will be served under the "Preferred Long Distance, Inc. dba Ringplanet Communications" or "Preferred Long Distance, Inc. dba Ringplanet" name. All Company information of record with the Commission remains unchanged.

Thank you for your attention to this matter. Questions may be directed to the undersigned.

Sincerely,

MILLER ISAR, INC.

A handwritten signature in blue ink that reads "Andrew O. Isar".
