On August 5, 2013, CHC VII, Ltd. (CHC) filed an application with the Florida Public Service Commission (PSC or Commission) for a staff-assisted rate case to increase its water and wastewater rates. CHC provides service to approximately 882 water and 875 wastewater customers in Polk County.

Is there an opportunity for public input on this rate case?
Yes. As part of the evaluation process for CHC’s rate request, the Commission staff will conduct a customer meeting to allow customer feedback about CHC and the rate-setting process. Customer comments, written and oral, will be taken into consideration before the Commission reaches a decision. One or more Commissioners may attend and participate during the customer meeting.

Why is CHC requesting a rate increase?
CHC is requesting a rate increase to cover increasing operating costs.

When was CHC’s last approved rate increase?
CHC filed one rate case since coming under PSC jurisdiction in 1999 but subsequently withdrew it.

How much is the current monthly water and wastewater bill for a customer using 6,000 gallons of water per month?
Currently, the combined monthly water and
wastewater bill for a customer using 6,000 gallons per month is $15.71

5 Using PSC staff’s proposed rates, how much would the monthly water and wastewater bills for a customer using 6,000 gallons be?

Under PSC staff’s proposal, the water bill would be $13.51 and the wastewater bill would be $19.68.
