Mr.Clemence and Mr. Futrell,

I am forwarding information on the FCC that may be useful regarding the 9/20/12 Workshop. Please enter this document into the public record.

It is hopeful that you will call for much needed public hearings. Radio frequency readings are all over the map in more than 3 counties. FL utilities continue to go unchecked as of this date.

The public deserves to know the truth.  
Thank you,  
Stephanie Austin
