Subject: RE: smart meters

I have previously spoken with Mr. LeGault and responded in writing to a prior email.

No response is necessary, but we will retain his information and comments below on smart meters.

Dear sir::

I am 70 yrs.old , 4 yrs.ago I had my bladder removed because I had stage 3 cancer.I don't have a cell phone ,use a microwave,because I am sensitive to EMF I DO NOT and WILL NOT ALLOW A SMART METER ON MY HOME. I served in the U.S. Navy for our freedom liberty ,and property rights. I watched the smart meter hearing on sept.20,2012.I would like to know why these power co,s were allowed to put smart meters on people property for the past 3 years.. It seems to me the cart was put in front of the horse.The power co,s threatened people with ,we will turn off your power if you do not allow the smart meter to be put on your house.There are alot of issues with smart meters.#1 health and safety.# 2They are monitoring,surveillance device control unit which violates the 4th admendment of the constitution..#3 these smart meters are part of the United Nations ,agenda21, I.C.L.E.I.smart grid, smart meters.In really is a commie control system that takes away our property rights.I have Seco electric sumter,electric.a co ops.this co. will have to be regulated because of the smart meters.

Submitted

Respectfully

Timothy LeGault
