I haven't heard from Marlene (just checked and she won't be in till later this morning), but I do see that you opened the docket, though I know GCL is OPR. Unless you think it would be a problem, I will go ahead and make the change so the agenda page will be correct and we can start the mailing (we have about 1500 names to mail this particular agenda page to).

It's up to Marlene. I don't have a problem with it.

Okay. I need to change the docket title. Is this okay:

There was a change in focus. We decided not to change the rules for the CLECs.

Importance: High

In preparing the 10/19 agenda, I noticed that the rules in the rec (4.002, .003, .0185, .023, .038, .039, .066, .070, .072, .073, .0770, .080, and .085) don't match* the rules referenced in the docket title (4.066 through .081 and .840)

Was there a change in focus from when the docket first opened in 1999? Is the wrong docket number referenced in this rec?

Please advise asap!

Thanks.

Kay

*.066 and .080 do match, but the others don't.
