CONSUMER COMMENTS

I realize you need to make increases in the water. However, we in Covered Bridges are already paying an enormous amount so when increases are made we suffer. We are all retired people and the increases in everything else are bleeding us all. When we came here in 2000 we were able to meet our debts freely, now 15 years later we have nothing left at the end of the month. So retirement is nothing any more. If there is something you can do for Covered Bridge, please let it be known. Are the people in charge ignoring your suggestions? None of us use extremely amounts of water.
