**Subject:** RE: Stop utilities from making it harder to save money on bills; Docket Nos. 20190015 to 20190021

Good Afternoon, Ms. Morrison.

We will be placing your comments below in consumer correspondence in Docket Numbers 20190015 to 20190021, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Dear Florida Public Service Commission,

Hi my name is Leslie Morrison and I live in Miami.

Here's what FPL really stands for: FL Plunder & Loot. Please stand up for citizens' rights not a climate polluters' profits, stock options, golden parachutes & unfair monopoly. Floridians need more than energy efficiency programs we need CHOICE. FPL has a stranglehold on us while continuing to pollute, ignore salt water entering our acquirer & lies about its cooling canals for its nuclear power plant in Miami. FPL needs competition to keep it honest which it isn't now. Let their investors pay for hurricane reimbursement out of their ludicrous profits & stop taxing homeowners for FPL's responsibilities.

I am writing to urge you to reject the request by Florida utilities to have a goal of zero (or nearly zero) on energy efficiency for the next ten years.

I am concerned that if the energy efficiency goals are abandoned, the utilities will stop providing the kinds of services that help people lower their power bills. People shouldn't have to choose between paying for food, medicine, or rent and being comfortable in their own homes.

Florida is ranked near the bottom of the nation in terms of energy efficiency — we should be increasing energy efficiency measures, not abandoning them. We know that increasing energy efficiency is one of the cheapest and easiest ways to fight the global warming that's causing neighborhood flooding and other serious problems in Florida.

When this issue comes back before you, I ask you please to vote to strengthen our energy efficiency goals.

Regards,  
Leslie Morrison

Miami, FL 33176 ■
