CUSTOMER COMMENTS
I really don't think the price for our water should go up. It always has a chlorine taste and a lot of times it has an odor. I tried drinking the water but I could not take the taste. I know some people say "Oh I drink it with my coffee and it's fine" Thing is, I don't drink coffee and I use bottled water. I always use bottled water. A lot of people in here use bottled water. When I see how dirty and green/black our filter is, I can just imagine some of that coming through. I know this letter probably won't make a difference cause he always seems to get the water hike, but until he really takes care of the water plant instead of just patching it up here and there, I don't think it should go up.

Any email or other correspondence sent to a Florida Public Service Commissioner, or any other public official and/ or employee of the PSC, in the transaction of public business is considered a public record and is subject to Florida's Public Records Law. This means that Florida law generally requires the PSC to provide a copy of any such email or correspondence, upon request, for inspection and copying to any Florida citizen or to any member of the media.

Thank you,
5 Respectfully yours
Sally LaBarr
