CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I'm writing to protest the Application for a water treatment facility DOC# 20240011 This proposed water treatment facility is in an extreme rural area comprised of mostly of acres of active farm lands. When the farms are pushing their crops and flooding the fields, we local residents have diminished water pressure as a result. Additionally, this treatment facility is less than a mile from the St. Johns River, a valuable sensitive natural resource.

This treatment facility would bring THOUSANDS, currently proposed over 3332 to a rural area without adequate services, roads, infrastructure to support the growth proposed.

Please stop the raping of the land by growth this water treatment facility will bring.

Diann Wilson
