Comments:

Pinellas County removal from the Duke Energy Clean Energy Program is a very wise move, but should be instituted as soon as is legally possible before Oct. This program is merely a corporate money grab. Duke's rates should be forced lower if legally possible in all charges and fees asap, as a "take back" for the money wasted on the Clean Energy Program. Regulation's and laws (county & state) concerning the above should be amended in

the consumers' favor asap as well. A message must be sent to Duke Energy. Thank you for your time and consideration.
