**Subject:** Reject FPL's Unprecedented \$10 Billion Rate Hike – Protect Florida Families

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Chair Mike La Rosa,

I am writing to strongly urge you to reject Florida Power and Light's (FPL) proposed \$10 billion rate hike—the largest in U.S. history. Approving this increase would be a devastating blow to Florida families, many of whom are already struggling with rising living costs. This past year, this Commission has already failed residents by allowing TECO's rate hikes, and we cannot afford another reckless decision that prioritizes corporate profits over public well-being.

Electricity is not a luxury—it is a life-saving necessity in Florida. With extreme heat, hurricanes, and severe weather events, access to affordable power is essential for survival. A rate increase of this magnitude would force seniors, low-income families, and working-class residents to choose between paying their electric bills and affording food, rent, or medical care. No one should have to make such impossible choices just to keep the lights on.

Beyond the financial hardship, this increase also carries serious environmental consequences. Instead of investing in clean, affordable renewable energy, FPL continues to expand its reliance on fossil fuels, worsening extreme weather patterns and increasing pollution. These impacts disproportionately harm low-income communities and communities of color, who already experience higher energy burdens and environmental health risks. If FPL truly needed more funding, it should focus on sustainable energy solutions, not passing costs onto struggling residents.

The Florida Public Service Commission has a responsibility to serve the public, not corporate monopolies. FPL is a monopoly, meaning Floridians have no choice but to pay whatever rates are approved. If this rate hike is allowed, it will set a dangerous precedent, opening the door for further unchecked increases that will push even more families into a financial crisis.

I urge you to reject this historic \$10 billion rate hike and stand with the people of Florida. The residents of this state deserve fair and affordable electricity—not price gouging from utility giants.

Sincerely,

Miss Addison Hernandez

I urge you to reject this historic \$10 billion rate hike and stand with the people of Florida. The residents of this state deserve fair and affordable electricity—not price gouging from utility giants.

The majority of people if not everyone in my neighborhood was at some point homeless, and we struggle to pay bills as it is. Please don't add to that stress by allowing FPL to empty our wallets when we can barely afford to pay bills as is.

Sincerely,

Ms. Jocelyn Sandigo

**Subject:** FPL MINIMUM BASE cHARGE- 2022 ?

**Representative Hillary Cassel,**

**Florida House District 101**

**Good Day !**

**Senior Constituent Pertinent Feedback & Request:**

**FPL Account No. 26582 57510 US Navy Veteran**

**Ref : FPL Minimum Base Charge 2022 <<<<<**

Over the preceding several years my **FPL** account has been monetarily penalized primarily due to the oversight that occurred by the **FPSC**

when they mistakenly granted **FPL** permission to levy an extra charge on individuals such as myself for our minimum **KWH** usage of power every

month since the year **2022**. This inappropriate charge will also continue until the end of **2025**.<<<<<

As your loyal constituent I personally feel that your office should be made fully aware of what **FPL** has been able to levy upon customers such as myself for

no good cause, when in essence we should have been rewarded, and also commented for our diligent sacrifice by **FPL**.<<<<<

It is also very difficult to comprehend as to how the **FPSC** could have granted **FPL** permission to monetarily penalize individuals such as myself . <<<<<

**FPL** is no doubt a conglomerate that could care less, otherwise none of what has occurred to individuals such as myself never would have occurred.

The Office of Public Counsel also mistakenly informed the **FPSC** that the general public would not object to the extra charge every month, when in

essence nothing could be farther from the truth.<<<<<

**In Summation:**

Your direct assistance is being respectfully requested in order to hopefully have the minimum base charge removed from my account as I am retired, and also living

on a fixed income.

Thank You.

Respectfully,

Michael J. Walsh
