Comments:

Why have you allowed FPL to continuously increase electricity costs in the panhandle. Rates were very stable when Gulf Power provide utilities in my area, but now FPL continues to drive up cost for electricity. They are "investing" in ridiculous power sources that will blow away in the next Hurricane Michael. As someone that had their house totaled in the storm and saw the destruction first hand, the highly inefficient and over priced solar panels make no sense. You work for the citizens of Florida and not FPL. Please take corrective action immediately. Thanks.

Dear Florida PSC Commissioners,

As a Florida Power & Light (FPL) customer, living on a fixed income, I urge YOU (the Florida PSC), to REJECT THE LARGEST RATE INCREASE IN US HISTORY. In the past five years, FPL customers have seen bills rise by over \$400 annually. These increases disproportionately burden low income customers and older customers living on fixed income who can barely afford their utility bills as is.

It's already difficult to stay on top of the rising costs of gas, housing, and healthcare bills due to inflation—how am I supposed to afford a rate hike too? Why do I need to suffer when FPL raked in over \$10 BILLION IN PROFITS in the last five years? It is unconscionable to force customers to endure financial hardship so wealthy utility executives and shareholders can line their pockets.

Please stand up for Florida ratepayers and REJECT FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize the needs of customers over corporate greed and ensure utility rates remain fair and affordable.

PLEASE say NO to this massive rate hike!

I appreciate your consideration of my feedback on this HISTORIC RATE proposal.

Sincerely,
Dr. Mary Frank-Sheesley

Subject: Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

On a personal note, my power service was disconnected during a heat advisory on Thursday, July 21, 2022. I paid \$100.00, over 80 percent of the past-due balance required to reconnect my service. I called customer service and told them that I had made a payment. I have requested an extension to pay the remaining past due amount and to restore my service. They refused to reconnect my service and did not give me an extension. Living in a house with no power was miserable. How dare that tech disconnect my service during a heat advisory? I almost got physically ill. Since I work from home, I lost three days of income and must purchase groceries to replace the ones that were spoiled. I am still upset with FPL for what they are doing to the citizens of Pensacola, Florida. It is in the best interest of the citizens of Pensacola, Florida, and Escambia County to have a locally operated power company. The locally owned power company will provide great customer service and charge rates that are suitable for Pensacola/Escambia County residents.

I urge you to reject FPL's request for a higher return on equity and an increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.
