Florida Power & Light Company

Docket No. 20250011—EI

Name Louise Ritz

Address 3773 De Loach St

Pensacola, FL 32514

As a customer and Florida resident, I object to the proposed rate base increase and the ROE because: (1) when the previous rate increase of 2021 was approved, FPL pledged they would reduce their charges during the next four years; *that did not occur*, (2) cost of living for customers has increased, however compensation for executives is staggering, millions of dollars for the COO/CEO of FPL as well as head of their parent company. (3) corporate belt tightening needs to occur by 10% or more) reducing the outlandish compensation and perks paid to the executive level. BE A FAIR AND JUST ROLE MODEL CORPORATION Utilize web site for building rate payer confidence and streamlining correspondence costs and include 10% budget reduction. Reevaluate budget and cut 10% in every department; then utilize the ten percent savings for concrete poles for electric lines. Lastly I have concerns for solar farms as they eliminate valuable land for agriculture crops, and wind turbines (killing machines) are a hazard for birds.
